Solicitation amendment 007 is issued to answer potential bidder's questions and correct the contracting authority telephone number and email address in part 6.5.1 of the English solicitation Table of Contents

Question #1:

Section " UNDERSTANDING AND INSTRUCTIONS" #6 states:

The Contractor must perform all control systems software programming on site required to develop a complete operational system in accordance with these specifications, including all control logic and graphical user interface programming. The Contractor must revisit the site, up to 90 days from the acceptance date, if minor changes are required to the touch panel layout and operation.

Therefore, does all control systems software programming have to be performed on-site or can control systems software programming be performed off-site / remotely and install and testing performed on-site?

Answer #1:

The control systems programming and DSP programming development maybe performed off-site. This may include off-site staging and testing. It is the expectation of the client and the consultant that final stage programming and testing of the control systems and DSP shall be completed on-site with a programmer.

Solicitation No. - N° de l'invitation E60ZR-202961/A	Amd. No. - N° de la modif. 007	Buyer ID - Id de l'acheteur hn331

Question #2:

In the checklist:

M5 - The Bidder must provide a detailed technical narrative and reference block diagrams / drawings describing the rational of the bidder's design concept that meets the functional requirements.

and

In Amendment 4:

Question # 12:

If a proponent wishes to supply a response that includes the base bid solutions with electrical equipment requiring system interconnectivity, are line diagrams and technical narratives still required or may we indicate compliance with the SoW as written with electrical equipment to be supplied and connected per the deign as noted in the RFP?

- a. What level of detail is required in the line diagrams for compliance?

Answer # 12:

A translation error occurred (in the French solicitation) with regards to this requirement. The documents must be provided prior to the installation phase, not prior to the closing of the bid submissions.

Therefore, the question is: Should M.5 be removed from the checklist as a result of Q&A from Amd 4.

Answer #2:

If the bidder is proposing the same manufacturer/model as listed in the sample equipment list OR like-for-like substitution that does not generally alter the signal flow or connectivity of the devices, the bidder is NOT REQUIRED to provide line drawings with their bid submission. If the bidder is proposing a substituted solution that generally alters the signal flow or connectivity of the devices, the bidder is REQUIRED to provide line drawings for the substituted solution to demonstrate the substituted solution's design and connectivity.

Furthermore, the bidder is not required to provide line drawings for mains AC power distribution such as power strips, uninterruptable power supplies, and rack mounted power distribution units with their bid submission. The bidder is not required to provide line drawings for DC low voltage distribution with their bid submission.

M5 in the checklist will now read:

If applicable, the Bidder must provide a detailed technical narrative and reference block diagrams / drawings describing the rational of the bidder's design concept that meets the functional requirements.

APPENDIX D

MANDATORY REQUIREMENTS CHECK LIST

Mandatory Requirements check list
Appendix D

1. Instructions to Bidders

In addition to the Bid Preparation Instructions stipulated in Part 3 of the Table of Contents of this RFP, the following information and instructions relate to the submission and evaluation of the mandatory evaluation criteria contained in this RFP.

- i. Simply stating a compliance to a criteria is insufficient. Bidders must present a clearly organized, printed (i.e. not handwritten) proposal that includes all necessary technical and descriptive information, in order to clearly demonstrate their compliance to all items presented in RFP. (Annex A) SOW-AV-LTDLG 6th Floor Retrofit & Modernization, and all related specifications and appendices. Responses will be evaluated on a simple, stringent pass/fail basis. Proposals not meeting each mandatory requirement will be considered non-responsive (non-compliant) and given no further consideration.
 - ii. PWGSC reserves the right to verify any information provided in the mandatory criteria. This will be done by contacting the client contact using the contact information provided by the Bidder and providing this to the client. The client will then be asked to verify the information.
 - iii. Technical proposal must not include any financial data or prices.
 - iv. Technical proposal must comply with RFP- SOW-AV-LTDLG 6th Floor Retrofit & Modernization and related Appendices.
- v. The bidder must indicate that the following information will be provided in phases as specified in Annex A
- a) Acceptance test plan (Paragraph 10);
 - b) System Operating Handbook (Paragraph 22a);
 - c) System Engineering and Design (Paragraph 2);
 - d) As Built Drawings (Paragraph 22c);
 - e) Manufacturer Data Sheets/User manuals/ Equipment Inventory (Paragraph 22b); and
 - f) Maintenance Warranty Reports (Paragraph 15, 16, 22a).

2. Mandatory Corporate Evaluation Criteria

Proposals will be evaluated in accordance with the mandatory evaluation criteria as detailed herein. Bidders are advised to address each requirement in sufficient depth to permit a complete requisite analysis and assessment by the evaluation team. Proposals failing to adequately respond to the mandatory evaluation criteria will be excluded from further consideration.

Mandatory Requirements check list
Appendix D

Mandatory Requirements – As per references			
Vendor	Reference	Description	Bidder Response location in bid
			Comply
			Yes No
	M.1	The Bidder must include completed room data sheets for each room listed on spreadsheet in Appendix A (Appendix A – LTDLC 15 & 25 Eddy 6 th Floor Room Type List). Each room data sheet will list all equipment, including detailed list of all proposed equipment, display technology, control and cabling proposed for the room and detailed list of all proposed equipment. Bidder must submit room data sheets in the format outlined in Appendix A. Equivalent products and part numbers may be submitted, but bidder must clearly identify what equivalencies are being offered and submit specifications to clearly demonstrate the technical equivalency. Any equivalency not meeting the mandatory technical requirements will be considered as non-compliant.	
	M.2	The Bidder must provide three separate and distinct reference contracts where they have delivered an Audio Visual system project of similar design and scope (or greater) within the last five years, one of which must be in a government facility (Federal, Provincial or Municipal) and a minimum value of \$500K. For each reference to be considered: i. The Bidder must fully complete the Corporate Reference Contract Table contained in Attachment 1A, including complete contact information; ii. The reference project must have been contracted directly with the Bidder.	
	M.3	The Bidder must provide a CV for the Senior Project Manager who will be assigned to this project (max 5 pages) whom has at least 5 years project management experience.	
	M.4	The Bidder must provide a CV for the Lead Technician / Onsite Installer /Implementation Manager who will be assigned to this project (max 5 pages). The Lead Technician / Onsite Installer /Implementation Manager must : i. Have a minimum of 5 years of relevant experience; ii. Be certified to design, engineer and implement digital media platforms, mix minus matrix voice / lift systems and touch panel control systems.	
	M.5	If applicable, the Bidder must provide a detailed technical narrative and reference block diagrams / drawings describing the rational of the bidder's design concept that meets the functional requirements. (“If applicable” is in response to Question and Answer #2 from Solicitation Amendment #7)	

Attachment 1A – Corporate Reference Contract Response Table

NOTE: Please provide information for the three contracts in Table 1, 2 & 3.
