**This amendment 001 is raised to answer the following questions from industry and amend Solicitation 5P435-200117/B as follows:**

**Question 1:**

For the End Dumps, does it matter what size? 30 tonnes vs 40 tonnes (super B)

**Response 1:**

For the end dump it does not matter the size. It may impact the hauling cost to the supplier which would be reflected in their costs but there is no rationale why we could not accept a 30 tonnes truck.

**Question 2:**

End Dumps, can it be an End-Side Dump SB? (40 – 45 tonnes)

**Response 2:**

End-side dumps cannot be accepted for the following delivery locations; Banff Compound, Summit in Rogers Pass, Hector pit or Jasper Compound.

**Question 3:**

Location #10 Jasper Compound Salt Shed, shows truck delivery as End Dump, but we have had this contract for the past 5+ years and we have always delivered with Pneumatic truck delivery. Can you confirm that it should be End Dump delivery?

**Response 3:**

This was an error in the contract Jasper compound salt shed should have said by pneumatic delivery only.
