ADDENDUM NO. 1

Subject: ITT Invitation to Tender No. FP802-200057

Title: North Channel Helipad and Tower Construction

Location: Algoma Mills, Ontario

Closing Date: Friday, June 5, 2020 @ 2:00 PM EDT (Eastern Daylight Time)

Dear Sir/Madam:

Further to the above-mentioned Invitation to Tender, this **Addendum #1** is to advise potential bidders of the following answers to Bidders questions received to date:

Q1. With regards to the wood that is being supplied through the standing offer in Appendix B4, is it all \$188,333.00 worth of wood that is required to construct the two helicopter pads? If so, what is the estimated total weight of the lumber being supplied?

A1. The estimated value of the supply contract between Coast Guard and the supplier is \$188,333.00. This has no relevance to this contract. The only values that bidders should consider are the unit prices for each item and the delivery time. The bidder shall make their own estimate of the materials required and may choose to use the standing offer prices, or may source their own supplier. The value of the wood shall be included in the bid price, as the wood is not being supplied by Coast Guard, but the standing offer pricing is being extended to the contractor. The estimated total weight of the lumber shall be determined by the contractor.

All other terms and conditions remain unchanged.

Yours truly,

Ginette Aliaga
