

Addendum #1

This solicitation addendum is issued to:

1. Provide the following questions and answers:

Q1. Do you have any native mobile apps (iOS and Android)? or future plans to offer native mobile apps?

A1. Not at this time. Primary focus is on having a solution for our web platform Sitecore. Mobile applications could be developed in the future; hence if the solution can be used for mobile apps it would be an additional benefit.

Q2. Is there any non-Sitecore content to be assessed?

A2. Not at this time. If the tool provides the flexibility to assess and help maintain content in Sharepoint, Microsoft Dynamics, and ClickDimensions it would present an additional asset.

Q3. What is your deadline for achieving WCAG 2.1 AA compliance?

A3. January 1, 2021

Q4. Will you consider alternate approaches to achieving WCAG 2.1 AA compliance?

A4. We're looking for a solution that enables CMHC to comply with the latest WCAG guidelines. Alternative approaches to achieving compliance would need to be defined and presented before they can be considered assuming they meet all of the requirements outlined in the RFI.

All other terms and conditions remain unchanged.
