

Q6E: Can you please provide more information on the type of equipment that will be managed by the system?

A6E: The system will manage military equipment with serial numbers on each item, such as weapons, radios, handheld/portable electronic sensors and personal protective equipment.

Q7E: How many different SKU or part numbers or different types of equipment are managed?

A7E: Hundreds of different types of equipment.

Q8E: How many total items are held in stock?

A8E: Several Thousands

Q9E: How many items are typically received in a given period (day, week, or month)?

A9E: Tens per day

Q10E: How many items are typically issued or shipped in a given period (day, week or month)?

A10E: Tens per day

Q11E: How many operators would be using the system at any one time?

A11E: Up to five operators per system.

Q12E: We are considering offering two alternate strategies. If we were to deliver two responses, would DND accept them both for consideration?

A12E: Yes
