## **1. Questions and Answers**

### **Question 1**

In the area of Delivery & Pickup it is requested that the costs regarding pickup and delivery be entered.

How would you like to see this dollar amount entered? My reason for asking this question is that we will have a different delivery / pickup charge for each size of equipment because the rate used to determine cost looks at the size, weight and distance of the equipment to be transported. With the different classes of equipment to supply rental rates for it is not possible to provide 1 rate for delivery and setup and be competitive in each class.

### **Answer 1**

Please see changes to Annex "B" – Basis of Payment below.

Delivery and pick up rates for line items 001 to 014 will be added together for all locations to arrive at a delivery and pick up total.

The total of the rental rate + delivery and pick up total = TOTAL EVALUATED PRICE FOR YEAR 1

- The same formula will be used to evaluation Option Year 1 and Option Year 2.
- The resulting aggregate of Year 1, Option Year 1 and Option Year 2 will be used to determine the lowest evaluated price
