Remotely Piloted Aircraft System (RPAS) – Information for Canadian Industry

This Letter of Interest (LOI) may be used to provide information on the Remotely Piloted Aircraft System (RPAS) project to Canadian industry through announcements or links to information and events involving Innovation, Science and Economic Development (ISED) Canada, in partnership with the Department of National Defence (DND) and Public Services and Procurement Canada.

On June 22, 2020, Unmanned Systems Canada will host a webinar that will provide a brief to Canadian industry and other stakeholders on the RPAS project, including an overview of project requirements, procurement process and project timelines. The webinar will also be used to familiarize Canadian industry and other stakeholders on the ITB Policy and describe the initial Value Proposition approach. It will also describe the next steps on how Canadian stakeholders can provide input and feedback to refine the VP for this project to ensure strong economic benefits for Canada. This joint presentation will include representatives from DND, PSPC and ISED.

English session: 13:00 – 14:00 Eastern Daylight Saving Time EDT

French session: 14:30 – 15:30 Eastern Daylight Saving Time EDT

For more information about the webinar please refer to the following link on the Unmanned Systems Canada website:

<https://www.unmannedsystems.ca/webinar-unmanned-systems-defence-procurement/>

The link for registration:

https://us02web.zoom.us/webinar/register/WN_Fz7G5NgIR-aWlw_aW1Pa7g

The presentation by the Government of Canada representatives will be made available through this LOI after the webinar.

Please note that this LOI is part of a separate activity from the RPAS competition and will not result in a procurement process by the Government of Canada.

For more information on RPAS competition, see the following PSPC website:
