1.2 Summary

- 1.2.1 Public Works and Government Services Canada (PWGSC) invites interested suppliers to respond to the Request for Supply Arrangements (RFSA) for Temporary Help Services (THS) within the National Capital Region (NCR).

Services may be provided to any Canadian Government Department, Departmental Corporation or Agency, as identified in Schedules I, I.1, II, III, IV or V of the Financial Administration Act (FAA).

Suppliers are reminded of the importance of reading this document in its entirety, as well as all documents incorporated by reference.

Two pilot projects have been introduced in the THS method of supply, launched on 1st August 2019. The first pilot project is to promote greater opportunities for self-identified indigenous suppliers (including PSAB registered businesses) and to increase the diversity of suppliers from other underrepresented groups (such as women, people with disabilities and visible minorities), in federal government procurement. Refer to PART 1, Article 2.6 for details. The second project introduces the Right-fit Basis of Selection. Under specific circumstances, users have the option of choosing the lowest priced bid or the one representing the best value within a certain price band. Refer to PART 6B, Article 6.2 for details. These pilot projects will be monitored closely for a year in order to establish a permanent framework.

By submitting an arrangement, suppliers are acknowledging that they agree to the process as well as the terms and conditions as described in this solicitation.

The THS SA is to be used in the following situations only:

1. When a public servant is absent for a temporary period of time;
2. When there is a temporary workload increase and there is an insufficient number of public servants available to meet the requirement; or
3. A position is vacant and staffing action is being completed.

The THS method of supply has a total of 14 streams. A full description of the streams and their categories can be found on the Temporary Help Services website at:

<http://www.tpsgc-pwgsc.gc.ca/app-acq/sat-ths/index-eng.html>

Canada reserves the right to add, modify or remove streams and categories.

Beginning with the Period 4 refresh (April 2020), categories 14.9 Nurse and 14.10 Psychologist were added to Stream 14.

The SA has no defined end-date and will remain valid until such time as Canada no longer considers it to be advantageous to use it.

- 1.2.2 A Notice will be posted on the Government Electronic Tendering Service (GETS) for the duration of this requirement to allow new Suppliers to become qualified and existing suppliers to qualify for additional streams and categories.

Canada reserves the right to conduct the evaluation of arrangements in cycles, not less than quarterly. Arrangements received over a calendar year will be evaluated in accordance with the schedule below. The schedule may require a revision due to operational requirements, in which case suppliers will be advised. More information with regards to the evaluation of arrangements may be disclosed on the Buy and Sell RFSA Notice, under the section "Important Information". Canada reserve the right to also conduct ad hoc refresh cycles to cover any operational needs.

Quarterly Submission and Evaluation Periods

- 1.2.3 The requirement is subject to the provisions of the Canadian Free Trade Agreement (CFTA) and the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP) only; it is excluded from the North American Free Trade Agreement (NAFTA) and is not covered under the World Trade Agreement on Government Procurement (WTO-AGP) or the Canada-European Union (EU) Comprehensive Economic and Trade Agreement (CETA).

1.3 Security Requirements

1. Before issuance of a supply arrangement, the Supplier must hold a valid organization security clearance as indicated in Part 6A - Supply Arrangement;
2. Suppliers are reminded to obtain the required security clearance promptly. Any delay in the issuance of a supply arrangement to allow the successful Supplier to obtain the required clearance will be at the entire discretion of the Supply Arrangement Authority.
3. If the supplier does not hold this security clearance, they may request that THS consider security sponsorship for their company for initial DOS clearance. Request for sponsorship may be submitted to:

TPSGC.DGASAT-ABTHS.PWGSC@tpsgc-pwgsc.gc.ca

4. For additional information on security requirements, Suppliers should refer to the Industrial Security Program (<http://www.tpsgc-pwgsc.gc.ca/esc-src/introduction-eng.html>) website.

1.4 Debriefings

Suppliers may request a debriefing on the results of the request for supply arrangements process. Suppliers should make the request to the Supply Arrangement Authority within 15 working days of receipt of the results of the request for supply arrangements process. The debriefing may be in writing, by telephone or in person.

1.5 Use of an e-Procurement Solution (EPS)

Canada is currently developing an online EPS for faster and more convenient ordering of goods and services. In support of the anticipated transition to this system and how it may impact any resulting Supply Arrangement that is issued under this solicitation, refer to Part 6A, 6.11 - Transition to an e-Procurement Solution (EPS).

The Government of Canada's [press release](#) provides additional information.

1.6 Key Terms

Centralized Professional Services System (CPSS): is the e-portal for Professional Services.

Data Collection Component (DCC): the part of the CPSS where suppliers can input and submit data as part of a response to a solicitation.

National Capital Region (NCR): The Regional Municipality of Ottawa-Carleton boundary in the Province of Ontario and the Outaouais Regional Community in the Province of Quebec

Refresh Solicitation: a solicitation that allows new suppliers to qualify for arrangements and existing suppliers to qualify for additional streams or categories throughout the period of the Supply Arrangement.

PART 2 - SUPPLIER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Supply Arrangements (RFSA) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Suppliers who submit an arrangement agree to be bound by the instructions, clauses and conditions of the RFSA and accept the clauses and conditions of the Supply Arrangement and resulting contract(s).

The [2008](#) (Latest available version) Standard Instructions - Request for Supply Arrangements - Goods or Services, are incorporated by reference into and form part of the RFSA.

Subsection 5.4 of [2008](#), Standard Instructions - Request for Supply Arrangements - Goods or Services, is amended as follows:

Delete: 60 days
Insert: 250 calendar days

2.2 Submission of Arrangements

2.2.1 Suppliers are requested to refer to Attachment A, Step by Step Instructions on submitting a THS response through the Data Collection component (DCC).

2.2.2 THS will only accept electronic submissions through the DCC of the Centralized Professional Services System (CPSS) ePortal.

2.2.3 Prior to submitting an Arrangement, suppliers must have:

- i. a Procurement Business Number (PBN) registered with the Supplier Registration Information (SRI) system; and
- ii. a CPSS supplier account.

Instructions for obtaining a PBN and a CPSS supplier account can be found at the following link:

<http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/iffpe-seeps-eng.html>.

It is important to note that all members of a Joint Venture (JV) must have their own PBN and the Legal Name field of the JV must show the names of all companies participating in the JV. The registration of a JV account must be done by contacting an SRI agent.

Enrolment into the CPSS ePortal is not a response to this solicitation, nor does it pre-qualify a supplier under the THS method of supply. Enrolment provides suppliers access to their CPSS Supplier Module account only.

Suppliers are responsible for safeguarding their credentials (i.e. user id and password) which are sent via email to their main supplier contact in order to access their CPSS Supplier Module account.

THS will not delay or cancel any solicitation process due to a supplier's inability to access, modify, or validate such credentials.

Suppliers can contact the CPSS ePortal team directly for any enrolment questions at TPSGC.SSPC-CPSS.PWGSC@tpsgc-pwgsc.gc.ca.

2.2.4 Suppliers may submit arrangements or qualify for additional streams or categories according to the schedule at 1.2.2 above.

2.2.5 One legal entity may participate in the submission of:

- i. one arrangement from the legal entity alone; or
- ii. one arrangement from the legal entity alone and one arrangement from the legal entity in a joint venture with another legal entity; or
- iii. two arrangements in joint venture with other legal entities

If a legal entity participates in more than two arrangements, Canada will choose at its discretion which two arrangements to consider. If a legal entity chooses to participate in two arrangements, each arrangement must be a separate submission. Each arrangement will be evaluated independently without regard to other arrangements submitted and, therefore, every arrangement submitted must be complete.

2.3 Enquiries - Request for Supply Arrangements

All enquiries must be submitted in writing to the Supply Arrangement Authority at TPSGC.DGASAT-ABTHS.PWGSC@tpsgc-pwgsc.gc.ca. Enquiries will be responded to on the Government Electronic Tendering System (GETS) until 8 calendar days prior to the solicitation closing. Enquiries received after that time may not be answered.

Suppliers should reference as accurately as possible the numbered item of the RFSA to which the enquiry relates. Care should be taken by suppliers to explain each question in sufficient detail in order to enable Canada to provide an accurate answer.

Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that suppliers do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all suppliers. Enquiries not submitted in a form that can be distributed to all suppliers may not be answered by Canada. Enquiries received at quarterly refreshes may not be distributed to all suppliers.

2.4 Former Public Servant - Notification

Service contracts awarded to former public servants in receipt of a pension or a lump sum payment must bear the closest public scrutiny and reflect fairness in the spending of public funds. Therefore, upon the award of a contract, the status with respect to being a former public servant in receipt of a pension or a lump sum payment, will be reported on the departmental websites as part of the published proactive disclosure reports generated in accordance with Treasury Board policies and directives on contracts with former public servants, [Contracting Policy Notice 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

The names of Supply Arrangement holders who are in receipt of a pension or a lump sum payment will be posted on the THS and CPSS web sites.

2.5 Federal Contractors Program for Employment Equity - Notification

The Federal Contractors Program (FCP) for employment equity requires that some contractors make a formal commitment to Employment and Social Development Canada (ESDC) - Labour to implement employment equity. In the event that this Supply Arrangement would lead to a contract subject to the Federal Contractors Program (FCP) for employment equity, the bid solicitation and resulting contract templates would include such specific requirements. Further information on the Federal Contractors Program (FCP) for employment equity can be found on [Employment and Social Development Canada \(ESDC\) - Labour's](#) website.

2.6 Underrepresented Suppliers – Notification

THS is participating in a pilot project to promote greater inclusiveness and opportunities for participation of Indigenous owned businesses (including PSAB registered businesses) and businesses owned by other underrepresented groups (i.e. women, persons with disabilities and visible minorities) to participate in federal government procurement. In the THS system, Indigenous owned businesses (including PSAB registered businesses) and other underrepresented groups will have the opportunity to self-identify when submitting their arrangement; they will be referred to the Certification - Diverse Status section of the CPSS system to check their underrepresented profile. For THS purposes, a diverse supplier is the same as the Indigenous supplier and the other underrepresented supplier as defined below. Other underrepresented groups may be considered in the future.

Underrepresented supplier

An underrepresented supplier is a business owned or led (i.e., operated or controlled) by an underrepresented group (i.e. Indigenous People, women, persons with disabilities, visible minorities).

Underrepresented Supplier Ownership

Ownership, operation or control means an enterprise that is subject to 51% majority control and effective management of the business by an underrepresented supplier.

Underrepresented Group Definitions

Women

Women are an underrepresented group in the Canadian workforce. As per the *Canada Employment Equity Act*, women are defined as an “an employment equity designated group”.

Indigenous Supplier

An Indigenous Supplier is an entity which simultaneously complies with three criteria:

1. It is owned or led (controlled or operated) in majority (51%) by one or many individual(s) of Canadian Indigenous heritage whether Inuit, Métis or First Nation, whether Status or non-status, whether registered or non-registered, whether on or off-reserve and whether registered under PSAB or not. The word Indigenous is here understood in a similar way as for the purpose of the Aboriginal Business and Entrepreneurship Development program of CIRNA (<https://www.aadnc-aandc.gc.ca/eng/1375201178602/1375202816581> and <https://www.aadnc-aandc.gc.ca/eng/1100100033216/1100100033220>), and
2. It is owned or led (controlled or operated) in majority (51%) by one or many a Canadian citizen or legal resident of Canada, and
3. The entity physically resides in Canada

Persons with Disabilities

The *Employment Equity Act* (S.C. 1995, c. 44), refers to persons with disabilities as persons “who have a long-term or recurring physical, mental, sensory, psychiatric, or learning impairment, and who (a) considers themselves to be disadvantaged in employment by reason of that impairment, or (b) believe that an employer or potential employer is likely to consider them to be disadvantaged in employment by reason of that impairment.” This also includes persons “whose functional limitations owing to their impairment have been accommodated in their current job or workplace”. Moreover, the Public Services Commission provides examples of disabilities such as: impairments related to co-ordination or dexterity, mobility, blind or visual impairment, deaf or hard of hearing, speech impairment, and other forms of disability such as learning disability, developmental disability, etc.

Visible Minorities

The *Employment Equity Act* (S.C. 1995, c. 44), defines visible minority as “persons, other than Aboriginal peoples, who are non-Caucasian in race or non-white in color”. Statistics Canada, however, provides a detailed explanation of visible minority, referring to persons who are non-Caucasian in race or non-white in color and who do not report being Aboriginal. Visible minority groups include Chinese, Black, South Asian, Filipino, Latin American, Southeast Asian, Arab, West Asian, Korean, Japanese, etc.

The pilot project in the Centralized Professional Services System (CPSS)

Within the Centralized Professional Services System (CPSS), these underrepresented suppliers will be referred to as diverse suppliers, and will have the opportunity to voluntarily self-identify when submitting their arrangement.

When the system’s “Identified Users” generate the bidder’s list for their individual requirements, 5 underrepresented suppliers will randomly be included in the list, ensuring at least 5 underrepresented suppliers are invited to bid on every solicitation. 3 of the underrepresented suppliers chosen will be low volume suppliers. A Joint Venture (JV) consisting of at least 1 underrepresented supplier with lead responsibilities, will be considered a diverse supplier.

Low Volume Suppliers:

THS will monitor business volume on a regular basis. Underrepresented suppliers with business volume of less than \$50,000.00 annually under the THS method of supply will be flagged as a “low volume supplier” in the CPSS e-portal.

2.7 Applicable Laws

The Supply Arrangement (SA) and any contract awarded under the SA must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

In the DCC, Suppliers may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of the arrangement, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the suppliers.

PART 3 - ARRANGEMENT PREPARATION INSTRUCTIONS

3.1 Technical Arrangement and Certifications

Suppliers must submit their technical arrangement and certifications electronically through the Data Collection Component (DCC) of the CPSS ePortal by the closing date and time of this solicitation. The DCC allows suppliers to save and re-submit their arrangement multiple times. Instructions on how to submit an electronic arrangement can be found at Attachment A of this document.

When an arrangement is submitted, the Main Supplier Contact will receive an email confirming the receipt of the electronic submission. Only the last arrangement received by PWGSC prior to the solicitation closing date and time or closing date and time of the quarterly refresh being submitted against will be evaluated.

Although Delegated Contacts may input data, only the Main Supplier Contact can submit the electronic arrangement. The supplier must use the <Submit Response> button and not just <Save> to submit the arrangement.

THS will request by return email, all supporting documentation required to complete the evaluation.

3.2 Financial Arrangement

There is no financial arrangement required for this solicitation.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- a) Arrangements will be assessed in accordance with the entire requirement of the Request for Supply Arrangements including the mandatory technical evaluation criteria, certifications, and other requirements.
- b) An evaluation team composed of representatives of Canada will evaluate the arrangements in a two-step evaluation approach. Step 1 consists of evaluating the arrangements submitted in the DCC. Step 2 consists of evaluating information requested by email outside of the DCC, if undertaken.
- c) When THS requests clarification, verification, or additional information, the Supplier will have 2 business days (longer if specified in writing) to provide the requested information. Failure to meet this requirement may result in the Arrangement being declared non-responsive.

4.2 Evaluation Criteria

4.2.1 Mandatory Technical Criteria

No.	Mandatory Technical Criterion	Submission Instructions
M1	The Supplier or each member of a JV must have done business as the same legal entity for a minimum of 24 months prior to the closing date of this solicitation or of the quarterly refresh being submitted against.	Suppliers must complete the DCC of the CPSS ePortal following the instructions in Attachment A. At the request of the THS team, Suppliers must provide documents as proof (letters of incorporation, tax returns, etc.) by email. Current THS Suppliers will not be requested to provide proof.
M2	In a bid to add new categories to their supply arrangement, any Existing THS Supplier must confirm the validity of all streams and categories previously substantiated in an earlier refresh bidding opportunity, and provide a Grandfather Certification to Canada.	At the request of the THS team, Existing THS Suppliers must provide a signed Grandfather Certification by email. There is no need for Existing THS Suppliers to input streams and categories previously substantiated in an earlier refresh bidding opportunity as they should carry-over automatically within the DCC.

<p>M3</p>	<p>M3.1 Substantiating Categories</p> <p>For each category to be substantiated, the Supplier must demonstrate that they have provided similar services to those described on the THS web site by providing the following:</p> <ul style="list-style-type: none"> • one (1) contract for services that closely match the category description must be submitted for each category; • one (1) reference who can substantiate the contract information provided; and • the services must have been provided within the last 5 years prior to the quarterly refresh closing date. <p>M3.2 Stream And Category Qualification</p> <p>Suppliers must complete the DCC of the CPSS ePortal following the instructions provided in Attachment A –Section F: Mandatory Criteria.</p> <p>A single substantiated category is sufficient for the award of a supply arrangement. However:</p> <ul style="list-style-type: none"> • After a Supplier has successfully substantiated three categories within a stream using M.3.1, all additional categories within that stream will be considered substantiated <u>if the Supplier bids to include them.</u> • Suppliers must indicate any additional categories they wish to provide by marking them as either “Newly Substantiated” or “Currently Substantiated”. Canada recommends that Suppliers mark additional categories as “Newly Substantiated” and to provide references <u>whenever possible.</u> • If a Supplier does not wish to offer a category it should be marked as “Not Offered”. <p>M3.3 References Check Procedures</p> <p>The same reference may be used for multiple categories.</p> <p>References <u>must not be</u> individuals who have been at any time:</p> <ul style="list-style-type: none"> • employed by the Supplier • sub-contracted by the Supplier • on the Supplier’s Board of Directors <p>The Supplier should inform these references that Canada may be in contact with them by e-mail or phone.</p>	<p>Canada may proceed with reference checks as follows:</p> <p>Canada may contact the primary reference using the email address in the “E-mail 1” field of CPSS and give them 7 calendar days to respond (longer, if specified). If a primary reference responds “No” to a category, the category will be deemed non-responsive. If a primary reference responds “Unable” to a category, the category may be deemed non-responsive, but Canada reserves the right to ask the Supplier for an alternate reference.</p> <p>If no response is received by the due date given by Canada, and if the Supplier has not provided a second reference in the “E-mail 2” field of CPSS, the Supplier will be given the opportunity to provide an alternate reference within two business days. If the Supplier has already provided a second reference in the “E-mail 2” field of CPSS, Canada will contact that alternate reference, even in case of a duplicated e-mail address.</p> <p>If any alternate reference responds “No” or “Unable” to the request, the category will be deemed non-responsive. In the case that neither the primary nor any alternate reference responds, Canada reserves the right to contact references by phone to get a verbal confirmation, if required by circumstances.</p> <p>If an email address results in an undeliverable email being returned, the Supplier will have the opportunity to supply an alternate e-mail address within two business days.</p> <p>If no response is received from the reference or the alternate reference, Canada may still decide to accept the bid where contract information can be otherwise validated.</p> <p>M3.4 Joint Ventures:</p> <ul style="list-style-type: none"> • One or more members must have independently provided the services for any category they bid for. • In order to qualify for the whole stream, members must either individually or jointly qualify for a minimum of 3 categories within that stream.
------------------	--	---

4.2.2 Other Mandatory Requirements

In order to be awarded a THS SA, the Supplier must comply with the requirements listed below and maintain continuous compliance for the duration of the SA.

i. Security Requirement

Each supplier and each member of a JV must hold a valid Designated Organization Screening (DOS) issued by the Canadian Industrial Security Directorate (CISD), PWGSC.

If the security clearance is in the screening process with CISD and supplier is responsive to all other requirements of this RFSA, the supplier may extend the validity period of their arrangement up to the next refresh. Their status in the CPSS ePortal will indicate "bid validity" until the required security clearance is received.

If the supplier does not hold this security clearance, they may request that THS consider security sponsorship for their company for initial DOS clearance or to upgrade to the next level. Request for sponsorship may be submitted in the electronic submission or to the following email address:

TSPGC.DGASAT-ABTHS.PWGSC@tpsgc-pwgsc.gc.ca

Foreign Suppliers must hold a valid security clearance from their host country before they can request a Canadian equivalency. THS will not consider security sponsorship of foreign suppliers.

Any resulting contract from an SA may require a higher security clearance.

ii. Physical Office Address

The Supplier must maintain a physical street address that is not a Post Office Box. The Supplier must have a phone number and a professional email address.

4.2.3 Quarterly Refresh Additions

Current supplier may qualify quarterly for additional categories and streams using the Mandatory Technical Criteria M2 and M3.

4.3 Basis of Selection

An arrangement must comply with the requirements of the Request for Supply Arrangements and meet all mandatory evaluation criteria to be declared responsive.

All responsive suppliers will be awarded a supply arrangement for the qualified streams and categories.

4.4 Financial Viability

SACC Manual clause [S0030T](#) (2014-11-27 or latest version) Financial Viability

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Suppliers must provide the required certifications and additional information to be issued a supply arrangement (SA). The certifications listed below must be completed through the DCC per instructions in Attachment A. Evidence must be submitted when requested.

The certifications provided by Suppliers to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare an arrangement non-responsive, or will declare a contractor in default if any certification made by the Supplier is found to be untrue whether made knowingly or unknowingly during the arrangement evaluation period, or during the period of any supply arrangement arising from this RFSA and any resulting contracts.

The Supply Arrangement Authority will have the right to ask for additional information to verify the Supplier's certifications. Failure to comply with any request will render the arrangement non-responsive, and in the case of an active supply arrangement, may result in the Supply Arrangement being suspended or cancelled.

5.1 Security

In order to be awarded a THS SA, the supplier must hold at minimum, a valid Designated Organization Screening (DOS) issued by the Canadian Industrial Security Directorate (CISD), PWGSC. If the supplier does not hold this security clearance and is requesting sponsorship by THS, refer to 5.8.

5.2 Federal Contractors Program for Employment Equity – not applicable

This is now a Notice included in Part 2, 2.5 of this solicitation. Although this certification is still in the DCC of the CPSS ePortal, it can be left blank.

5.3 Former Public Servant

Refer to Part 2, 2.4 for information concerning Former Public Servants. Suppliers must submit their status with respect to being a former public servant in receipt of a pension. If, as a result of this solicitation, a Supply Arrangement is awarded, the name of the supplier who is in receipt of a pension will be posted on the THS and CPSS web sites.

5.4 PSAB Aboriginal Suppliers

In accordance with the Procurement Strategy for Aboriginal Business (PSAB), requirements designated by federal government departments as set aside under PSAB will be restricted to qualified Aboriginal businesses.

Compliance with the certifications and related documentation provided by the Supplier in the arrangement is a condition of the Supply Arrangement (SA) and subject to verification by Canada during the term of the SA and of any resulting contract that would continue beyond the period of the SA. If the Supplier does not comply with any certification, provide the related documentation or if it is determined that any certification made by the Supplier in the arrangement is untrue, whether made knowingly or unknowingly, Canada has the right to terminate any resulting contract for default and suspend or cancel the SA.

Canada agrees to provide the Supplier with at least a three-month notice to allow for any measures necessary for the integration of the Supply Arrangement into the EPS. The notice will include a detailed information package indicating the requirements, as well as any applicable guidance and support.

If the Supplier chooses not to provide the supply arrangement of their goods or services through the e-procurement solution, the Supply Arrangement may be set aside by Canada.

ANNEX “B”- VALIDATION FOR DIVERSE SUPPLIERS

Background

THS is participating in a pilot program which intends on creating greater inclusiveness and opportunities for participation of Indigenous owned businesses (including PSAB registered businesses) and businesses owned by other underrepresented groups (e.g. women, persons with disabilities and visible minorities), in federal government procurement. In the THS system, underrepresented suppliers will have the opportunity to voluntarily, self-identify when submitting their arrangement; they will be referred to the Certification - Diverse Status section of the CPSS system to check their underrepresented profile. For THS purposes, a diverse supplier is the same as an underrepresented supplier as defined the THS RFSA, section 2.6.

Suppliers who self-attest must comply with the definitions found at article 2.6, in Part 2 of the RFSA. Diverse suppliers agree to furnish to Canada within 2 business days, such evidence as may be requested by Canada from time to time, corroborating this self-attestation. Such evidence will be open to audit during normal business hours by a representative of Canada, who may view the evidence to ensure compliance with the requirements.

Validating supplier status:

1. During the evaluation period, which include quarterly refreshes, the THS Team will review supplier’s completed self-attestation forms and identify them as a diverse supplier;
2. The THS Team may conduct quarterly audits during the life cycle of the supply arrangements to validate that the information provided is true and to ensure suppliers are complying with the diverse requirements.

Consequences

The consequences of making an untrue statement in the bid documents regarding the diverse status, or of not maintaining compliance with the requirements, may include, but are not limited to the following ramifications:

- Removal of Diverse status under the SA;
- Cancellation or suspension of the SA; and/or
- Termination of any contract awarded pursuant to the Diverse SA.

What to provide to validate the diverse supplier status

The diverse supplier must provide acceptable evidence that their business is at least 51% owned or led (operated or controlled) by one of the four underrepresented groups listed.

Acceptable evidence to validate supplier’s diverse status include, but is not limited to, the following:

Acceptable evidence that is applicable for each diverse group			
Indigenous-owned supplier	Women-owned supplier	Persons with disabilities-owned supplier	Visible minority-owned supplier
<ul style="list-style-type: none"> • PSAB Certification • Identification cards 	Official government documentation such as:	<ul style="list-style-type: none"> • Registered medical 	<ul style="list-style-type: none"> • Official government photo

<p>Evidence that is applicable across all diverse groups</p>			
<ul style="list-style-type: none"> Verified media sources such as newspaper clippings, peer-reviewed online articles (e.g., online magazines or newspapers), or television segments that confirm supplier diversity; Existing membership or certification from other diverse supplier certifying organizations (e.g., CAMSC) Reference letters from community leaders, cultural centres, volunteerism, philanthropy, or from places of worship (e.g., church or mosque). 			

How much evidence

For the purposes of the pilot project, suppliers will be asked to show up to two pieces of evidence to verify their diverse status. Additionally, suppliers may periodically be required to re-submit evidence.

No personal information will be kept on file by the THS team after Diverse Status has been verified.

In the cases where a diverse supplier identifies with two or more underrepresented groups (e.g., if a supplier identifies as a women-owned and Indigenous-owned business), they are still required to provide the appropriate evidence for each group.

What to provide as evidence of 51% ownership, operation or control by diverse suppliers

Upon request, suppliers will be required to provide two pieces of evidence to demonstrate ownership or leadership. The following are examples of acceptable evidence:

- Bylaws;
- Incorporation documents;
- Shareholders' or members' register;
- Partnership agreements
- Joint venture agreements;
- Business name registration;
- Banking arrangements;
- Governance documents;
- Leases or contracts;
- Meeting minutes of Board of Directors and Management committees, etc.
- Delegation of authority for overall decision making

1. Right-fit can only be used when:
 - Competitive Method 1 is used; and
 - The requirement is below the CFTA threshold.
 Refer to: <https://www.cfta-alec.ca/procurement/covered-procurement-thresholds/>
2. This selection methodology must be specified in the RFP and cannot be changed.

3. A band between -20% and +20% of the median total hourly rate will be used when 3 or more bids are responsive to the mandatory technical criteria. Any bids outside of this band will be considered non-responsive.
4. When only 2 bids are responsive to the mandatory technical criteria, the higher priced bid may be selected if the price is within 25% of the lowest priced.
5. Interviews may be administered to select the best resource among the bids meeting the rules above.
6. When only 1 bid is responsive to the mandatory technical criteria, the contracting officer should determine that the bid represents fair market value to Canada before awarding a contract.
7. One or more of the 5 justifications below must be used to determine the successful bidder and the justification for the selection must be retained in the file for audit purposes.
 - Right-fit justifications: Specialized education which will improve the quality of services to be provided
 - Additional Certifications which will improve the quality of services to be provided
 - Additional experience which will improve the quality of services to be provided

8. Unsuccessful bidders must be advised of the results and the justification.

6.2.3 Creating the Bidders List: The Identified Users enter the categories they need in the CPSS and a search list of pre-qualified suppliers will be generated as indicated in the table above.

When a JV appears on the list of selected suppliers, the Identified Users must remove any of the individual JV members if they are also present on the list.

6.2.4 Bid Solicitation Issuance: The Identified Users will email the bid solicitation directly to the selected suppliers from the final CPSS search list.

6.2.5 Bid Evaluation: Bids will be assessed in accordance with the entire requirement of the Request for Proposal including the technical and financial evaluation criteria.

Interviewing Proposed Resources

When using Right-fit basis of selection only, Identified Users may interview proposed resources in accordance with the Right-fit rules above.

For any other basis of selection, resources may only be interviewed to validate that the information submitted in response to the solicitation is accurate.

Suppliers must not invoice for interview time and telephone interviews are encouraged.

6.2.6 Basis of Selection and Issuance of Contracts: The Identified Users will award contracts in accordance with the Basis of Selection identified in the Request for Proposal. All bidders will be advised of the solicitation results.

C. RESULTING CONTRACT CLAUSES

6.1 General

The conditions of any contract awarded under the Supply Arrangement will be in accordance with the resulting contract clauses of the template used for the bid solicitation.

The Contract will contain as a minimum the following:

- a) Security Requirements (including the applicable SRCL)
- b) Statement of Work
- c) Standard Clauses and Conditions (includes General Condition 2010B)
- d) Term of Contract (max 48 consecutive weeks)
- e) Authorities
- f) Payment
- g) Invoicing Instructions
- h) Certifications and Additional Information
- i) Applicable Laws
- j) Insurance
- k) Priority of Documents

6.2 Closure of Government Offices

Where the Contractor, its employees, subcontractors, or agents are providing services on government premises under the Contract, and those premises are inaccessible because of the evacuation or closure of government offices, the Contractor will be paid for no more than 1 working week, at the rates in the Contract provided that the Contractor submits with its invoice a certification, countersigned by the affected resource, stating that:

- the Contractor has not received any other payment from any other client for the period of the closure; and
- the affected resource will be paid at the rate they are entitled to had the services been provided.

6.3 Staffing Arrangements

A transfer fee will be payable to the Contractor by the Identified User when the "office" where the THS Resource has been assigned during the contract period hires the resource without competition, either on a casual, term or indeterminate basis, prior to the passage of up to 20 calendar weeks measured from the start of services under the contract regardless of a change of duties.

Greater than 18 and up to 20 weeks from the start of services:	2%
Greater than 16 and up to 18 weeks from the start of services:	4%
Greater than 14 and up to 16 weeks from the start of services:	6%
Greater than 12 and up to 14 weeks from the start of services:	8%
Greater than 10 and up to 12 weeks from the start of services:	10%
Greater than 8 and up to 10 weeks from the start of services:	12%
Greater than 6 and up to 8 weeks from the start of services:	14%
Greater than 4 and up to 6 weeks from the start of services:	16%
Greater than 2 and up to 4 weeks from the start of services:	18%
Greater than 0 and up to 2 weeks from the start of services:	20%

Notes:

“Office” is interpreted as an organization in a department, agency, or crown corporation under the supervision of a Director General (DG) or equivalent. Where there is no DG or equivalent level, the next highest rank is applicable.

Transfer fees apply whether the contract is active or not (i.e.: terminated, expired) at the time the resource is hired by the Identified User.

Transfer fees are based on the annualized salary offered to the temporary help resource. For the purposes of this clause, annualized salary offered to the THS Resource means the starting annual salary of the position offered by the department to the THS Resource in effect at the time of the offer. This does not include any subsequent performance / incentive pay, bilingual bonus, collective agreement increases or other increases that may occur.

For example, a THS resource being offered a casual, term or indeterminate employment starting at level 1 increment-PG 2 salary would have an annualized salary of \$50,502. Where the position is instead based on an hourly rate, then this hourly rate would be annualized, multiplied by 1950 (7.5 hour day), and further multiplied by the appropriate transfer fee percentage. (e.g. \$18.00/hour x 1950 hours = \$35,100 and if hired at the 5 week mark \$35,100 x 16% = \$5,616 transfer fee).

6.4 Termination Notification

When a Contract is terminated (with the exception of default) before its expiry and the estimated contract period was 3 months or longer, the Identified User must provide the Contractor with a minimum of 7 calendar day's written notice.

If the required notification is not provided, the Identified User will pay a fee based on 7.5 hours per day at the rate charged by the Contractor for each remaining day of the required notice. No written notification is required if the Contract naturally expires.

6.5 Overtime

Overtime must not be performed under the Contract unless authorized in advance and in writing by the Identified User. Any request for payment must be accompanied by a copy of the overtime authorization, including any premium to be paid, and a report containing the details of the overtime performed pursuant to the written authorization.

Overtime is regulated by provincial legislation and is therefore calculated based on where the work is performed.

- In Ontario, overtime is payable for time worked in excess of 44 hours in a week.
- In Quebec, overtime is payable for time worked in excess of 40 hours in a week.

6.6 Statutory Holidays

When an Identified User's office is closed due to a statutory holiday, the Contractor will not be paid for that day and the resource must not report for work.

When an Identified User's office is open on a day normally recognized as a statutory holiday, it is the Contractor's decision whether to allow the resource to work or not. Agreement between the Contractor and the Identified User should be documented in advance of the holiday.

6.7 Replacement of Specific Individuals

- 1) If specific individuals are identified in the Contract to perform the Work, the Contractor must provide the services of those individuals unless the Contractor is unable to do so for reasons beyond its control.
- 2) If the Contractor is unable to provide the services of any specific individual identified in the Contract, it must provide a replacement with qualifications and experience which equal or exceed those of the named individual in the Contract. The replacement must be acceptable to Canada.
- 3) The Contractor must, as soon as possible, give notice to the Contracting Authority of the reason for replacing the individual and provide:
 - a) the name, qualifications and experience of the proposed replacement; and
 - b) proof that the proposed replacement has the required security clearance granted by Canada, if applicable.
- 4) The Contractor must not, in any event, allow performance of the Work by unauthorized replacement persons. The Contracting Authority may order that a replacement stop performing the Work. In such a case, the Contractor must immediately comply with the order and secure a further replacement in accordance with subsection 2. The fact that the Contracting Authority does not order that a replacement stop performing the Work does not relieve the Contractor from its responsibility to meet the requirements of the Contract.

6.8 Identification Protocol for Contractors and Resources

The Contractor will be responsible for ensuring that any of its resources, representatives or subcontractors complies with the following self-identification requirements:

- a. Contractor resources who attend a Government of Canada meeting (whether internal or external to Canada's offices) must identify as a contractor resource prior to the commencement of the meeting, to ensure that each meeting participant is aware of the fact that the individual is not a Government of Canada employee;
- b. During the performance of any Work at a Government of Canada site, the Contractor's Resource must be clearly identified at all times as being a Contractor; and
- c. If a contractor resource requires the use of the Government of Canada's e-mail system in the performance of the Work, then the individual must clearly identify him or herself as a contractor resource in all electronic mail including the signature block as well as under "Properties". This identification protocol must also be used in all other correspondence, communication, and documentation.

If Canada determines that the Contractor Resource or the Contractor is in breach of any obligation stated in this clause, upon written notice from Canada the Contractor must submit a written action plan describing the corrective measures it will implement to eliminate the recurrence of the problem. The Contractor will have 2 working days to deliver the action plan to the Client or the Contracting Authority, and 10 working days to rectify the problem. In addition to any other rights it has under the Contract, Canada may terminate the Contract for default if the corrective measures required of the Contractor described above are not met.

6.9 Vendor Performance Management

The Contractor may be required to collect, compile and present performance information and the Contractor will be evaluated on specific aspects of its performance.

- **Newly Substantiated** = Applies to categories for which references are being provided.
- **Not Offered** = Applies to categories which are not being substantiated and when there is no intention of supplying these categories, even under the provisions described under the Stream Qualification section of M3.

A NOTE REGARDING “ADDITIONAL” CATEGORIES UNDER “M.3 – Stream Qualification”:

- Under the terms of the M.3 criterion, any supplier who substantiates three categories successfully via references can be granted any and all additional categories within the same stream. In order for these “additional” categories to be granted, the Supplier **must** bid for them, either as ‘Newly Substantiated’ with references included, or as ‘Newly Substantiated’ without references included, or as ‘Currently Substantiated’. **It is highly recommended** that Suppliers bid ‘Newly Substantiated’ with references for as many categories as it can manage, in order to better their chances of substantiating the minimum of three via the reference check procedure.
