#### **Question #1**

The thread spec CGSB-4.139-94 called out in this solicitation has been withdrawn. Could you please advise replacement?

#### **Answer #1**

The CGSB specifications have been withdrawn, but conformance to the specification is acceptable.

Replace Annex B, Section 3.2(h) as follows:

Thread - The thread for seaming and stitching must be:

- i. Be polyester thread (50 Tex) or polyester, cotton-covered or polyester-covered (50 Tex) suitable for machine sewing; and
- ii. Be a non-florescent earth tone colour to match the MULTICAM® camouflage pattern;
