**AMENDMENT 007**

This amendment is issued in order to answer the following questions:

Question/Answer	Construction Management Questions and Answers
<b>Q1</b>	<p>We request further clarification to Canada's response A15 in Amendment 002, "If the joint venture is not a legal entity but only 2 organizations that are bidding together on a contract then both organizations need to meet the security requirements indicated on the SRCL. The only exception is if there is a Document Safeguarding Capability (DSC) security requirement on the SRCL. If only one of the organizations has DSC; it will be indicated on the contract that the work can only be performed at a specific address where the DSC is approved."</p> <p>In response to this Response, please address the following: Can the successful proponent, who submitted with a Joint Venture name (a non-legal entity), sign the contract with this name but reference both organizations who have legal entities that meet the DSC security requirements?</p>
<b>A1</b>	Yes
<b>Q2</b>	<p>Please see below for a couple questions from our team:</p> <ol style="list-style-type: none"> <li>1) Please confirm if labor costs for construction cleaning is considered part of the reimbursable construction cost.</li> <li>2) We seek clarity on what we should assume to be the construction duration for each of the projects. Is it correct to assume the calculations as noted below: Ref. Annex C 1.3.3.1 and .2 – Sidney - 42 month less 13 months = 29 month Winnipeg - 42 months less 21 months = 21 months</li> </ol>
<b>A2</b>	<ol style="list-style-type: none"> <li>1) Please refer to Annex C Section 11.7 for the CM's cleaning responsibilities during construction. Cleaning services are considered the same as other sub-contracted works.</li> <li>2) Total project duration is 42 months. Construction cannot be assumed to follow design linearly using Annex C 1.3.3 as construction can start before all design packages are completed. Both design and total project duration can take less time than the maximum amounts indicated in Annex C 1.3.3.</li> </ol>
<b>Q3</b>	In the RFP, on FORM 2 CLIENT REFERENCE FORM, where you ask for a signature in the "Client Reference Representative's Testimonial", is that area to be signed by the proponent, or by our client?
<b>A3</b>	To be signed by the Client Reference Representative
<b>Q4</b>	<p>The attached RFP for Canadian Laboratories is an example of asking for an Indigenous Benefits Plan for a Construction Management (CM) services proposal. It clearly states on page 4 and other places, that, "fundamentally this is a service contract". In the RFP it is asks for the 4 IBP criteria (training, labour, goods and services by Indigenous Firms (including subcontracting) and other benefits).</p> <p>Beyond hours and total dollars, we are directed to include specific positions as well as specific community businesses that will be confirmed by the 5 FN's that can fulfil scope, while not knowing the full scope of the project and only pricing for CM services only. This is confusing and I am not sure what exactly we should be providing. Is it an IBP on a project we do not have full scope on or do we provide an IBP solely on the CM services portion focused on the primary 6 positions and any additional minor services as listed in the RFQ?</p>
<b>A4</b>	<p><i>An IBP is intended to develop capacity, sustainable and meaningful socio-economic benefits for Indigenous professionals and businesses for various specialized professions covered under this project.</i></p> <p><i>The IBP is to cover all work completed during construction. For the Sidney project the Schematic Design along with the elemental Class C estimate contained within can assist for in determining the scope of work.</i></p>

**PLEASE NOTE THAT THE SOLICITATION MAY NOT BE EXTENDED ANY FURTHER.**
