TABLE OF CONTENTS

Section 1 – Invitation and Instructions to Bidders

Section 2 – Resulting Contract including a list of required goods and services

SECTION 1 – INVITATION AND INSTRUCTIONS TO BIDDERS

Step 1. For Tier 2 and Tier 3 only (If Tier 1, skip this step and proceed with step 2)

Is this a Manufacturer Product Specific Procurement?

Step 2. ☒ Competitive or ☐ Non-Competitive

For competitive Requirements when only one bid is received:

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

For Competitive Requirements when only one bid is received:

The Bidder must provide the following information AFTER bid closing, if requested to do so by Canada:

- One or more of the following price justifications:
 1. a current published price list indicating the percentage discount available to Canada; or
 2. a copy of paid invoices for the like quality and quantity of the goods, services or both sold to other customers; or
 3. a price breakdown showing the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, etc., and profit; or
 4. any other supporting documentation as requested by Canada.

Step 3. ☒ General or ☐ PSAB

For PSAB procurement:

Canadian Content

The Supplier should propose conforming products(s) denoted as “Canadian Content” in the Supplier’s SA. Canada may preference all bids containing products(s) with this designation.

Terms of the RFB:

This RFB is issued pursuant to the Supplier's Furniture for Workspaces Supply Arrangement (SA) that forms part of the series of SAs issued by PWGSC with the number E60PQ-140003/PQ. The terms and conditions in the Supplier's SA apply to and form part of this RFB. Bidders who submit a bid agree to be bound by those terms and conditions as well as the terms and conditions in this RFB.

The WTCM is the Workspaces Terms and Conditions Manual that contains all terms and conditions in full text that form part of individual RFBs under this SA.

The Bidder must provide the following information WITH the bid:

- The information requested by Canada in Annex A herein.

Bid Evaluation

An evaluation team composed of representatives of Canada will evaluate the bids.

SECTION 2 - RESULTING CONTRACT CLAUSES

| | | |
|-----------|---|---|
| 1. | Terms and Conditions of the Contract | |
| | The terms and conditions of Parts 6B and 6C of the Supplier's SA within the series E60PQ-140003/PQ apply to and form part of this Contract. | |
| 2. | Security Requirement (the checked article applies) | |
| 2.1 | The applicable security requirement(s) is (are) set out in the Security Requirement Check List attached as Annex B of this contract. The Contractor must fulfill the security requirements by meeting the terms below. | |
| a. | <input checked="" type="checkbox"/> | Contractor may be escorted; possession of security clearance not required. Contractor personnel MAY NOT ENTER NOR PERFORM WORK ON sites where PROTECTED or CLASSIFIED information or assets are kept, without an escort provided by the department or agency for which the work is being performed. |
| b. | <input type="checkbox"/> | Possession of security clearance(s) is required. The Contractor must meet the security clearance requirements contained in the clausings in Annex B herein. |
| c. | <input type="checkbox"/> | There is no security requirement associated with this contract. |
| 3. | Requirement | |
| 3.1 | The Contractor must perform the Work listed in Annex A herein. | |
| 4. | Authorities | |
| 4.1 | Contracting Authority (IU) | |
| | Name: | Bronwen Grieve |
| | Title: | Supply Officer |
| | Department/Agency/Crown Corporation: | Public Services and Procurement Canada |

| | As set out in Annex A, Table 9 below. | |
| 5. | Method of Payment | |
| | The checked box applies. If the Contractor's SA indicates acceptance for payment by credit card, that method may be used in conjunction with the following. | |
| | <input checked="" type="checkbox"/> | Single Payment |
| | <input type="checkbox"/> | Multiple Payment |
| 6. | Invoicing | |

| | |
|--|---|
| | Further to the Invoicing terms of the WTCM document, the Contractor will deliver the original and one copy of the invoice to the following address for certification and payment: |
| | Name of the organization and contact: |
| | Address: |

ANNEX A
REQUIREMENT and BASIS OF PAYMENT

1. Category Selection

Combined Categories Rule:

For reasons of compatibility, the following categories will be combined for evaluation and contract award purposes:

The rule only applies to the categories below that are checked. The unchecked categories will be evaluated separately and may be awarded to multiple suppliers;

- ☒ **Category 1**
- ☒ **Category 2**
- ☒ **Category 5**

*** Exception: when using the Cat 1, 2, 5 combined categories rule, IU's may calculate the percentage of NSA product allowed (as defined in their solicitation document) against the total quantity of the combined categories.**

Design Upgrade Rule:

The IU may exercise an option to upgrade products up to 20% of each Category product total before Applicable Taxes after contract award.

The Design Upgrade amount is used at the discretion of the Project Authority (PA) **prior to the manufacturing/ordering of the products**, the PA will provide the Contractor with a written notice of Canada's Design Upgrade choices for each of the product(s) to be upgraded. The Contractor will provide the pricing of the upgraded product(s) to a maximum of 20% of each Category Contract Price of Table 8. The Contracting Authority will issue an amendment to the contract with the Design Upgrades and pricing.

The Supplier certifies that all the Design Upgraded products offered will conform to all specifications and meet the testing requirements detailed in the Specifications of the Supply Arrangement.

Design Upgrade: is the process of replacing a product with a more innovative or enhanced version of the same product.

NSA:

NSA products can be incorporated in the RFB and must not exceed 30% of the firm quantity by category. NSA items must be added to the category that is most closely related and must be generic.

The requirement includes the following categories of work:

a. Category 1 – Interconnecting Panels and Freestanding Systems

☒ Category 1a – Interconnecting Panels (Refer to Annex C)

☒ Category 1b – Supporting components and freestanding furniture

RULE: Metal Storage

Identified Users may procure metal storage products forming part of Category 1 when the metal storage products will be part of a requirement for a workstation(s)/work point(s). If this rule does not apply, Category 3 must be used for the metal storage products forming part of this category.

b. ☒ Category 2 – Freestanding Height Adjustable Desk / Table Products

c. ☐ Category 3 – Metal Filing and Storage Cabinets

RULE: High Storage Products

Identifying the maximum height of the Personal Storage Towers, Wardrobes and Storage Cabinets is acceptable as per 6B. 4.1 of the SA.

Maximum Height for product #(s) _____ at article 3 of this Annex is _____.

d. ☐ Category 4 – Wood Veneer – Freestanding Products

e. ☒ Category 5 – Ancillary and Lighting Products

f. ☒ Category 6 - Support Space – Collaborative Furniture

RULE: Category 6 can be further subdivided by space or like product in order to increase or allow competition. Space is defined as a location available for a particular purpose such as a meeting room space or a collaborative space. Like products are defined as products with similar design and construction. If NSA products form part of the requirement, the IU must validate the 30% NSA prior to subdividing the category. NSA products can be added to any subdivide or in its own subdivide.

The IU must identify how Category 6 will be subdivided in the Product Table for Category 6.

g. ☒ NSA Product(s) – Categories:1 and 6

2. Product and Pricing Tables

Site Inspection Date: To be coordinated with Project Authority after contract award. (Refer to Annex A article 4 of the SA for Site Inspection and Documentation instructions.)

INSTRUCTIONS TO BIDDERS: Bidders are to complete Sections B of the tables identified by the IU in this article as well as Tables 8 and 9. **Bidders must provide a complete product offering for each category, or CAT 6 sub-divide they wish to submit a bid in order to be compliant.**

****Refer to article 6A.7 for instructions on how to submit products that are not approved in product listing.****

In a resulting contract, the term “Bid” means the Supplier’s commitment, the term “Bidder” means “Contractor”.

**ANNEX C
FLOOR PLAN(S)**

INSTRUCTIONS TO BIDDERS:

For Category 1a products, the Bidders must provide:

- a) Completed floor plan(s) with proposed SA approved products;
- b) A product listing of proposed SA approved products offered at floor plan(s).
As a minimum the product listing must include the following information:
 - Supplier part numbers including NSA products forming part of this category;
 - brief product descriptions;
 - quantities;
 - firm unit prices.

***** Products from categories other than Category 1a shown on floor plan are for information purposes only*****

By submitting a bid, the Bidder certifies that their submission includes all components and quantities for Category 1a, in accordance with the floor plans, panel details, panel matrices and/or workstation layouts stipulated in Annex C.

***At contract award, "By submitting a bid, the Bidder" becomes "The Contractor".**

Category 2 Requirement:

1) Floor Plan(s)

See attached pdf and/or AutoCAD floor plan

2) Panel Details

- a. All required panel heights: [Work Surface Privacy Add-on Height](#)
- b. When power is required, the power is located [below](#) work surface height; should a grouping of workstation types include shared panels and one side is identified as powered and the other side is non-powered, those panels affected must be powered.
- c. Type of power feed: [Power Pole](#).

Workstation typical

3) Workstation Layout

****See attached Workstation Layout****

b. Workstation Layout(s)

- The floor plan takes precedent over any discrepancies with the workstation layouts.
- When two or more typical workstation types share a common panel spine, the finishes of the interior side of the workstation panel as outlined in the Typical Data Sheets must be followed and **NO PANELS SHALL BE DOUBLED. Where no workstation exists adjacent to typical workstation, refer to Data Sheet for finish.**
- Should one typical workstation identify power and the other does not – power will be required for both. Include Workstation Layouts (in the form of Typical Data Sheets or 3 Dimensional drawings) here or as a separate attachment to this RFB.

ANNEX D Additional Specifications, Certifications

1. Specifications for CAT1, Non SA items 1 to 5 :

- .1 Description
 - .1 A separate, freestanding, UL Certified power and data distribution beam panels system.
 - .2 A fabric divider screen shall be mounted to the top of the horizontal beam, matching the width of the adjustable table work surface (+/- 2") and shall cover the full ANSI/BIFMA height range of 22"-48" (+/- 2") travel of the table.
 - .4 The total height of a *seated privacy height* panel can be achieved with a *base panel height* and one *panel add-on module*. Must not exceed 1372mm (54 in.) high.
 - .5 The vertical post between and at the end of beams shall have 4 access points (one on each side of square post leg) to allow the system to be arranged in a straight line, L-shape, T shape or X shape configuration with a single universal jumper cable connecting the electrical system from beam to beam.
- .2 Dimensions
 - .1 Overall panel height, including any panel mounted component, must be within the range 48" to 54"
 - .2 All panel heights must conform to the following:
 1. *Seated privacy height* must be within the range of 1219mm (48in.) to 1372mm (54 in.) inclusive.
 - .3 Panel width must be 1219 mm (48 in.), 1524 mm (60 in.), 1828 mm (72in), 1981 mm (78in)
 - .5 Maximum panel thickness must not exceed 101 mm (4 in.).
- .3 Finishes
 - .1 Base panels must be offered in metal.
 - .2 *Panel add-on modules* must be offered in frosted glazing.
- .4 Power and Data
 - .1 Panel heights must provide *face mounted power data modules*. The duplex power outlets and voice and data outlets must be offered at predetermined locations when specified.
 - .2 Power and voice/data outlets must be offered *below the work surface*.
 - .3 Cable Pathway:
 - .1 All powered, non-powered panels and posts must have concealed cable pathways to accommodate the electrical, voice and data cables.
 - .2 The cable pathway must provide sufficient space to allow for a minimum bend radius of 76mm (3 in.) for the installation of communication cables both horizontally and vertically.

- .3 The cable pathway must house a modular and configurable 8 wire electrical system featuring from 1 to 4 circuits and can accommodate laying in phone/data cabling.
- .4 Cable pathways located at the base must have knockouts to receive back-to-back electrical outlets.
- .5 Cable pathway covers must open and close firmly without the use of proprietary tools.
- .6 Communication and electrical cabling may be placed in the same cable pathway as long as metal separation is provided.
- .7 Non-powered cable pathways must provide field conversion to powered cable pathways without requiring the workstation to be dismantled.
- .8 Unused knockouts/access points, which are visible, must be covered to prevent unsightly holes.
- .9 Vertical wire management system must conceal wires running from the floor, wall, or ceiling feed to the cable pathway.
- .4 Electrical Wiring System:
 - .1 The electrical wiring system must be made of components which are *modular* and provide power at predetermined locations. When electrical wiring alterations or disassembly are required, the workstation must not be dismantled.
 - .2 The system must provide for ceiling access, floor access, and power from the wall. Ceiling access top feeds must accommodate a ceiling height of a minimum of 3048 mm (10 ft.).
 - .3 The electrical system must provide electrical distributing service to nine (9) workstations from one central feed point.
 - .4 The electrical system must provide as a minimum, a seven (7) wire, three (3)-circuit per feed capability.
 - .5 An electrical system rated with a minimum of a 115 volt, 15 or 20 amps consisting of a minimum of 2 circuits must be available for older buildings when specified.
 - .6 Each workstation must be provided with a maximum of six (6) *face mounted* power receptacles in combination of either three (3) duplex power outlets or two (2) triplex power outlets. Each workstation must have one (1) *face mounted* voice / data outlet.
 - .7 Receptacles: Must be interchangeable within the manufacturer predetermined locations and accessible below and above *work surface* height.
 - .8 All powered panels and *panels add-on modules* with a width of 457mm (18 in.) to 1220mm (48 in.) requires up to two (2) receptacles power outlets and for a width of 1371mm (54 in.) to 1981mm (78 in.) requires up to three (3) receptacles power outlets.
- .5 Support/Bases
 - .1 The beam panel must be free-standing with structural legs on both sides.

Finishes Selection:

- ☐ The supplier must submit samples in duplicate approximate size: 200 x 300 mm of panel colours, textures and finishes and approximately 300 mm long samples of trim.
- ☐ The Project Authority will provide the Contractor with a written notice of Canada's finish choices for each of the product(s). The Contractor will deliver the products corresponding to Canada's choice of specific finishes(s). No additional charge will be applied to Canada.

Manuals and Data

Closeout data for each configuration: Operation and Maintenance Data: Submit manufacturer's written instructions for maintenance of operable components and cleaning procedures, include names of original installer and contact information.

2. Certifications

.1 NSA Product Conformance

2.1 NSA Product Conformance *(Required precedent to Issuance of a contract)*

The Supplier certifies that all the NSA products offered will conform to all specifications indicated in Annex A and D of the RFB, and meet the testing and performance requirements found at ANNEX A-1 and A-2 of the Supply Arrangement, as applicable.

Supplier's Signature

Date

NSA Product Conformance Certification *(applies after contract award)*

The Supplier warrants that the NSA Product Conformance Certification submitted by the Supplier with its bid is accurate and complete. The Supplier must keep proper records and documentation relating to the NSA product conformance and the testing requirements in this Annex, as applicable. The Supplier must not, without obtaining the prior written consent of the SAA, dispose of any such records or documentation until the expiration of the Contract or the expiry date of the Warranty, whichever is later. All such records and documentation must at all times during the retention period be open to audit, inspection and examination by the representatives of Canada, who may make copies and take extracts.

In addition, the Supplier must provide representatives of the SAA access to all locations where any part of the Work is being performed at any time during working hours. Representatives of the SAA may examine and test the Work as they see fit. The Supplier must provide all assistance and access to facilities, test pieces, samples and documentation that the representatives of the SAA may reasonably require for the carrying out of the inspection, which may also include the submission of test reporting documentation as listed in Annex A and D. The Supplier must forward such test pieces, samples and/or documentation that may also include letters of certification from the laboratories to such person or location as the representatives of the SAA specifies.
