This amendment is raised to answer a question from a bidder:

Question 1:

We are specifically interested in imagery from the WorldView-2 and WorldView-3 satellites. Since the WorldView data is from a US-based company, the question is whether or not a proposal that acquires this imagery would be appropriate given the tendering procedure to supply Canadian goods and/or services?

Answer 1:

Bidders may propose space data from any available source in support of their research, including WorldView 2 and 3 data. As the Request for Proposal states in Section A.5.3.4 of the Statement of Work, "Basically, there are no limitations on the available data sources that the bidders may consider, provided that it is accessible." Data from certain suppliers may involve costs that would have to be included as a cost item in the proposed project budget as mentioned in Section A.5.3.1 of the Statement of Work.

With regard to services, Canada requires that no less than 80% of the services be Canadian sourced, as identified in section 5.2.3.1 Canadian Content Certification of the Request for Proposal.
