**THIS SOLICITATION AMENDMENT IS RAISED TO:**

1. Provide clarification and answers to questions from potential suppliers.

**QUESTIONS AND ANSWERS:**

<b>Question 5</b>	I was wondering if you could clarify a question I have from the information contained in line items 3.7 and 3.13a. My question is “ does the supplier have to install the in cab controls or only include them with the snow blower as stated in line item 3.7.” I read in line item 3.13 that the supplier “ if the snow blower requires assembly at destination, the contractor must be responsible for all manpower and equipment to perform assembly”. When I read line 3:13 I see this pertaining to the snow blower unit if it is sent in multiple pieces and requires assembly at time of delivery to reassemble. When I read line item 3.7 I see this as the installation kit is to be supplied with the cab controls to allow Canadian National Defence staff to perform the installation to their personal satisfaction.
<b>Answer 5</b>	The contractor is not require to install the In-cab control kit specified at para 3.7. Para 3.13 applies only to the snow blower unit.
<b>ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.</b>
