Annex A-1

Q1. I have a question regarding the subject RFP. In reviewing Section 4.1.1.2 Point Rated Technical Criteria under R1 it states the following:

The Bidder should demonstrate using project descriptions (maximum 5) that the proposed project team has experience with a minimum of 2 projects concerning the following:

- international regulations
- or practices involving safety of transportation

Then looking at the points distribution you get 2 points for each project for both international regulations and practices involving safety of transportation for a maximum of 10 points each (20 points in total).

Does the maximum of 5 projects mean 5 for international regulations and 5 for practices involving safety of transportation for a total of 10 or five projects in total?

A1. The maximum 5 projects refer to 5 projects concerning international regulations and 5 projects concerning practices involving safety of transportation for a total of 10 projects.
