## Amendment 002

This amendment is raised to answer questions that were received from Industry:

---

### 1. QUESTIONS AND ANSWERS

**QUESTION 1:** We ask that you please define the reason for the requirement and the further specification of a Buoy carrying case which is rated IP 67? This would seem unnecessary and would be expensive and probably not a COTS product. Our COTS normal storage boxes are plywood boxes and are adequate as the buoy itself is weatherproof.

**ANSWER 1:** Please provide this information as part of your response and it will be considered in any potential future solicitation (or solicitations) for the work.

**QUESTION 2:** We would like to have some details, in particular to know if this type of product exists on the market, is this a new need for CCG? or if you already have plans and specifications on the CCG side that you have developed in-house and that you may want to compare with what is available on the market.

**ANSWER 2:** CCG has previously procured commercially available products meeting similar requirements to those provided in this solicitation. There are no CCG plans or specifications available, apart from those provided in this solicitation.
