NOTICE OF AMENDMENT 010

Included in the present amendment:

1. Question and answer 34
2. Inclusion of Item 7.28 – Shipping instructions within the RFP.
3. Revision Annex C – Basis of Payment – Firm Price

1. Question and answer 34

Question 34:

We are trying to fit an L-drive into the space, but are still running into height issues. Is there any availability to raise the flat directly above the thruster? It looks like this may be part of the Lower Science Store.

Answer 34:

No. The Thruster System design must fit within the existing Vessel Thruster Well footprint. Please refer to Section 1.1, Page 6, Amundsen SOR - Thruster System - Version 2.0.

The CCG's intent is to procure a production model. It is understood that the production model may have to be modified to fit within the available space envelope of the Vessel. All modifications to the production model are to be disclosed in response to the RFP. The Contractor must ensure that the bottom plate weight is accounted in the design. All structural reinforcements are the responsibility of the Contractor. The reinforcements must be approved by a certified Naval Architect and/or Professional Engineer as well as the TA-CCG. Please refer to Section 4.0, Page 16, Amundsen SOR - Thruster System - Version 2.0.

The Transmission Shafting and Motor Coupling Arrangement: Z-configuration, floating shaft (from Thruster to existing Electric Drive Motors). Please refer to Section 4.3, Page 22, Amundsen SOR - Thruster System - Version 2.0.

2. Inclusion of Item 7.28 – Shipping instructions within the RFP.

Under PART 7 - RESULTING CONTRACT CLAUSES, add the following item:
