

The following changes in the specifications are effective immediately. This addendum will form part of the contract documents.

Section 01 11 02 General Instruction

Part 1

1.1 Specification Section 1.6

.1 Refer to article

.1 ADD Section 1.6.3 according to following.

An alternative disposal site at the Algoma Steel site may be permitted if negotiated and agreed to with Algoma Steel, following award of the project. No assistance will be provided in securing agreement with Algoma for an alternate disposal site.

01 35 43 Environmental Procedures

Part 1

1.1 Specification Section 1.1

.1 Refer to article

.1 DELETE Section 1.6.3 in its entirety.

.2 REPLACE with the following:

Follow the recommendations of the DFO Letter of Advice.

.3 DFO Letter of Advice is provided in an attached document.

35 20 23 Dredging

Part 1

1.1 Specification Section 1.9

.1 Refer to article

.1 DELETE Section 1.6.3 in its entirety.

.2 REPLACE with the following:

Freighter vessels are expected at the Algoma slip throughout the contract which will prevent the slip from being used by the Contractor for a period of 24-36 hours at a time, while vessels dock, unload and clear the slip. An estimated 8-10 vessels are expected per month, ranging from 2-3 vessels per week. The Contractor is expected to be in constant communication with Algoma operations for updates to vessel movement. When requested, the Contractor shall cease operations and clear the slip entirely and expeditiously to make way for the vessels. Failure to comply with the orders and resulting in delays to the vessels will result in demurrage fees to be reimbursed directly to Algoma Steel. Demurrage fees include those accumulated by Algoma (in the order of \$1,500 to \$2,000 per hour) plus
