Amendment 5 is raised to publish questions and answers

Q12. Your answer refers to Table A1, but the question was about the Adjustable Lumbar support on Chair in Table A2, so I don't think the question has been answered. "The "In/Out" Lumbar adjustment is not specified in ergonomic guidelines, such as BIFMA G1 or CGSB 44.232, therefore can you please revise this requirement to make the "In/Out" feature "Optional" but not mandatory for the chairs in this requirement?" Please review and provide confirmation the lumbar support should be adjustable but the In/Out feature of that adjustment is optional

A12. Correction, in response to Table A2 where an Adjustable Lumbar Support with In/Out & Up/Down feature has been selected represents the End-Users needs. This option is to remain as-is as.

However, for the project, up/down lumbar support is sufficient, but if you are able to offer both it will be acceptable as well.

Q13. For Q6-Q11. Can I also get clarification on the reasoning why the Backrest Lock can be lockable in Setup Position but cannot be lockable in Multiple positions, which includes Setup. This feature exceeds the requirement.

A13. We do not want chairs locked in multiple positions in these spaces.

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
