AMENDMENT NO. 2

Subject: Request for Proposal T8080-200101 - Study of Challenges and Opportunities for Automation of Rail Operations in Canada

No consideration will be given for extras and/or changes because the tenderer was not familiar with the contents of this Addendum.

Questions have been received from a potential tenderer about the subject Request for Proposal.

The purpose of this Amendment No. 2, to the Request for Proposal, is to summarize the questions and answers to inform all potential bidders.

QUESTION NO. 1:

We are looking to include 2 researchers from the National Research Council as part of our proposal. The majority of the work will be completed by our resources, but we are looking to have the NRC support our efforts as a subconsultant.

Can you confirm that this proposed arrangement is acceptable to Transport Canada?

ANSWER NO. 1:

The proposed arrangement is acceptable, but it would need to be subcontracted through the NRC for their employees and not directly with the 2 individuals. Additionally these NRC proposed resources would need to meet all of the required Mandatory and Rated Criteria.
