A) QUESTIONS AND ANSWERS

The following is in response to inquiries received in relation to this solicitation. This amendment will form part of the contract documents.

Number	Question(s)	Answer(s)
9	Are you planning a site visit?	An optional site visit may be held for proponents who will be participating in Phase 2. The method, time and date are still to be determined and will be communicated at the appropriate time, if applicable.
10	Should an environmental (decontamination) specialist be included on the team?	No, PSPC is engaging an environmental consultant separately. See PD6.3 of Appendix G - Project Brief.
11	In section 3.2.3., in the section Information that should be provided for each key personnel, item no.4: Description of roles and responsibilities carried out in previous projects. Is it mandatory that these projects be those presented in sections 3.2.1 and 3.2.2?	No, the projects submitted for the key personnel identified in 3.2.3 do not need to be the same as the projects submitted in 3.2.1 or 3.2.2.
12	Is it permissible to combine more than one discipline in the project deliverables in section 3.2.2 (e.g. mechanical and electrical) or does PWGSC prefer that each discipline be presented separately?	The Proponent may present the same projects for multiple disciplines. However, the Proponent should clearly demonstrate each of the sub-consultants experience as per Section 3.2.2 of Appendix F - Submission Requirements and Evaluation (SRE).
13	Do we need to include our Corporate Security Clearance in the Phase 1 proposal?	Appendix E – Information Related to Security Requirement, can be submitted at either Phase of the RFP. The Security Requirement must be met before award of the contract, as per SI 6- Security Requirement.
14	In order to adequately respond to section 3.1.1 of the RFP for Phase 1, do you consider Appendix A to be sufficient or do we need to attach other documents?	A confirmation in writing of the Proponent's authorization to provide architectural services, including an architect licensed, or eligible to be licensed, certified or otherwise authorized to provide the necessary

		professional services to the full extent that may be required by provincial or territorial law in the province of Quebec, will suffice.
15	In Appendix B, joint ventures are required to submit the Employment Equity Implementation Agreement (E.E.E.A.) form (LAB1168) for each of the parties. However, only one of the two parties in our consortium has a workforce of more than 100 employees in Canada. On the said form, it is clearly indicated in the "Certification" section that the organization completing the form must have a "workforce of at least 100 permanent full-time and permanent part-time employees in Canada". Please clarify.	If the Proponent is a Joint Venture, each member of the Joint Venture must provide the Contracting Authority with a completed Federal Contractors Program for Employment Equity - Certification.
16	Since the majority of bidders located in Quebec follow the vacations proposed by the Commission de la construction du Québec (last 2 of July) and since this mandate requires an in-depth pre-submission study as well as several meetings between the consultant and the sub-consultants, would you be able to grant an extension of 2 weeks in order to allow these bidders to offer you the best possible offer and to give them enough time to fully understand the scope of the mandate and to formulate their questions?	We are not considering an extension at this time.
17	Are proponents to submit both Phase 1 and Phase 2 submissions by the current closing date of August 20 th ?	Only Phase 1 submissions are required to be submitted by the current closing date.
18	Are proponents to assume that Phase 1 comprises the Technical Proposal and that Phase 2 comprises the Price Proposal?	Instructions on Phase 1 and Phase 2 proposals can be found in S1 - Introduction and Appendix F - Submission Requirements and Evaluation (SRE).

19	What is the anticipated timeline for PWGSC's decision regarding selection of successful proponents for Part 1 of the RFP?	This information is not available at this time.
20	What is the anticipated timeline for issuance of Part 2 of this RFP and award?	This information is not available at this time.
21	Schedule – RFP anticipates an 11 month design and 5 year construction administration duration. Assuming award in 2020, design will be completed in 2021, followed by construction in 2022 to 2027. Please provide further clarity on the overall project timeline expectations if available.	These are estimates and subject to RFP completion and design. Assuming award by end of October, 2020 design would commence November 1, 2020 and continue until September 30, 2021. A tender period of approximately three months, with construction start late 2021 or January 2022.
22	Scope of Work – Please confirm that Envelope Replacement is limited to replacement of the exterior façade (i.e. windows, curtain wall, pre-cast panels) and services impacted by this work (i.e. mechanical and electrical elements, and interior finishes), and that it does not include roofs, soffits, penthouse enclosures.	Building roofs are not included unless they are a part of the redesign of new entrances or in the case of the pedestrian links they form an integral part of the links' envelope replacement. Soffits of pedestrian links and new entrances or where exterior envelope impacts soffit areas, will need to be designed and addressed. Penthouse enclosures or their roofs are not included.

END OF AMENDMENT
