Training must meet community standards and have third party certification to increase employment opportunities.

2. Objectives:

The Contractor must provide a series of Standard First Aid Cardiopulmonary Resuscitation / Automated External Defibrillators (CPR/AED) certificate courses recognized by the Provincial Regulatory body that will apply to various industries. Learning objectives from both courses can be applied to employment throughout the region in various sectors. Upon successful completion of this training, offenders must have a valid third party certificate that will allow them to work in jobs requiring Standard First Aid CPR/AED.

3. Tasks:

The Contractor must provide the following tasks (but not limited to):

- 3.1 Standard First Aid CPR/AED courses to offenders. Courses must be approved by the standards and guidelines of applicable provincial legislation and regulations. Each course is for a duration of two (2) days, for a minimum of six (6) hours per day;
