- 10.8 Bidders must provide the price of the Services in Canadian dollars (CAD).
- Taxes**
- 10.9 Bidders are requested to exclude all Applicable Taxes from the price. Bidders, however, are requested to show the total estimated amount of Applicable Taxes in the financial proposal separately.
- 10.10 For the purpose of Proposal evaluation, all taxes are excluded.
- 10.11 Local taxes (including but not limited to value added or sales tax, social charges or income taxes on non-resident Personnel, duties, fees, levies) may be applicable on amounts payable to DFATD under the Contract. Bidders are requested to exclude all local taxes from their price, DFATD may reimburse the Consultant for any such taxes or pay such taxes on behalf of the Consultant. Reimbursement mechanism of applicable local taxes in the Recipient Country will be determined during contract negotiations.
- Costing Principles**
- 10.12 Cost of the Contract is comprised of the total Fees and Reimbursable Expenses, paid by DFATD for the provision of Services.
- 11. Proposal Evaluation**
- 11.1 Except when responding to requests to provide additional information as specified in paragraphs 9.1, 9.2, 9.4, 11.12, 11.20, 12 and 13 from the time the Proposals are submitted to the time the Contract is awarded, the Bidders must not contact DFATD, except the Point of Contact specified in the Data Sheet, on any matter related to their technical and/ or financial proposal. In addition, any effort by Bidders to influence DFATD in the examination, evaluation, ranking of Proposals, and recommendation for award of a Contract will result in rejection of the Bidders' Proposal.
- 11.2 Except as otherwise specified in this RFP, DFATD will evaluate Proposals solely based on the documentation provided as part of the Proposals. DFATD will not take into consideration any references in a Proposal to additional information not submitted with the Proposal.
- 11.3 DFATD's Proposal selection method is described in the Data Sheet.

- 11.4 Bidders are advised that proposals received as a result of this RFP will be evaluated by an evaluation team composed of representatives of Canada and may also include representatives of the Recipient Country and other external experts such as consultants. All proposals will be treated as confidential, in accordance with paragraph 19, Confidentiality.
- 11.5 The Evaluation Team will assess Proposals in accordance with the entire requirement of the RFP, including the technical and financial evaluation criteria as specified in Section 5, Evaluation Criteria. There are several steps in the evaluation process, which are described below. Even though the evaluation and selection will be conducted in steps, the fact that DFATD has proceeded to a later step does not mean that DFATD has conclusively determined that the Bidder has successfully passed all the previous steps. DFATD may conduct steps of the evaluation in parallel.
- Mandatory Procedural Requirements**
- 11.6 Any Proposal that fails to meet any of the mandatory procedural requirements will be considered non-compliant and will be rejected.
- 11.7 Proposals that comply with all of the mandatory procedural requirements will be evaluated based on the evaluation criteria as specified in Section 5, Evaluation Criteria. Any Proposals not meeting the mandatory evaluation criteria will be rejected.
- Evaluation of Technical Proposals**
- 11.8 Proposals that comply with the mandatory evaluation criteria will be evaluated based on the rated criteria.
- 11.9 In their technical proposals, Bidders are requested to address clearly and in sufficient depth the rated criteria specified in Section 5, Evaluation Criteria, against which the Proposal will be evaluated. Simply repeating the statement contained in the RFP is not sufficient. Bidders are requested to provide supporting data (for example, description of past experience, degrees, description of the Bidder's facilities, when applicable), to demonstrate their capability. Not completely addressing a rated criterion may result in a score of zero for that rated criterion.
- 11.10 The Proposals that fail to achieve the minimum technical score for the rated criteria indicated in the Data Sheet will be rejected and the financial proposal will remain unopened.
- 11.11 Only work experience of the Bidder will be assessed. In case of a consortium or joint venture, unless otherwise specified in Section 5, Evaluation Criteria, the experience of any Member could be included in a Proposal as work experience of the Bidder. Nevertheless, when the evaluation requirement is demonstrated through number of years/months of experience, the cumulative experience of the Members cannot be used. For example, if the RFP requires five (5) years of experience in education, and both Members independently have three (3) years each, the experience requirement will not be met. For the purposes of evaluation, listing experience with no substantiation to describe where and how such experience was obtained may result in a score of zero.
- 11.12 Where Form TECH-6A, where applicable, is not provided with the Proposal, DFATD will, in its evaluation, treat the Proposal as though there was no one identified to carry out that specific element of the project. Where Form TECH-6B, where applicable, is not provided with the Proposal or is improperly completed, DFATD will request corrections and/or completion from the Bidder. Bidders must submit the completed TECH-6B within the timeframe specified in the notification. If the completed TECH-6B is not submitted within the

specified timeframe, DFATD will treat the Proposal as though there was no one identified to carry out that specific element of the project. In this paragraph, “improperly completed” means:

2.4.1 There are one or more fields that are not completed; or

2.4.2 TECH-6B is not signed by the individual.

***Evaluation of
Financial
Proposals***

11.13 Financial proposal will only be opened and evaluated if the technical proposal achieves a score equal to or in excess of the minimum technical score indicated in the Data Sheet.

11.14 Fees and Reimbursable Expenses will be considered in the financial evaluation.

11.15 The evaluation of financial proposals will be carried out in accordance with the Data Sheet.

11.16 Unless otherwise specified in the Data Sheet, Bidders are requested to include and price in their financial proposal (FIN-1) all Personnel identified in any manner by the Bidder in the technical proposal and not specifically mentioned to be part of the overhead. Failure to do so will result in the financial proposal being scored zero.

11.17 Where the maximum funding is specified in the Data Sheet, the Bidder’s financial proposal must not exceed the maximum funding. If the Bidder’s Proposal exceeds the maximum funding, the Bidder’s Proposal will be rejected.

11.18 Where the minimum level of effort is specified in the Data Sheet and the level of effort proposed by the Bidder is below the specified minimum, DFATD will evaluate the Bidder’s financial proposal based on DFATD’s specified minimum level of effort.

11.19 Where the fixed level of effort is specified in the Data Sheet and the Bidder proposes a different level of effort, DFATD will evaluate the Bidder’s financial proposal based on DFATD’s fixed level of effort.

***Price Justification
- Fees***

11.20 Bidders must provide price justification, on DFATD’s request, and within the specified timeframe. Such price justification may include one or more of the following:

(a) A copy of paid invoices or list of contracts for similar work, under similar conditions, provided to DFATD or other customers, including but not limited to fee history of assignments that covers at least one hundred (100) person-days billed in twelve (12) consecutive months over the last two years;

(b) A price breakdown showing the cost of direct labour/salary, fringe benefits, overhead/ indirect costs, profit and all other cost included in the proposed Fees; or

(c) Any other supporting documentation as requested by DFATD.

**12. Clarifications
of Proposals**

12.1 In conducting the evaluation, DFATD may, but has no obligation, to do the following:

- (a) seek clarification or verification from Bidders regarding any or all information provided by them with respect to the RFP;
- (b) contact any or all references supplied by Bidders to verify and validate information submitted as fact;
- (c) request, before award of any Contract, specific information with respect to Bidders' legal status;
- (d) conduct a survey of Bidders' facilities, and/ or examine their technical, managerial, security and financial capabilities, to determine if they are adequate to meet the requirements of the RFP; and
- (e) verify any information provided by Bidders through independent research, use of any government resources or by contacting third parties, including any proposed resources.

12.2 Bidders will have the number of Days specified in the request by the Point of Contact to comply with paragraph 12.1. Failure to comply with the request will result in the Proposal being rejected.

12.3 Any clarifications submitted by a Bidder that are not in response to a request by DFATD will not be considered. No change in the financial proposal or substance of the technical proposal by the Bidder as a result of clarifications will be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by DFATD in the evaluation of Proposals.

Rights of DFATD in evaluation

12.4 In conducting the evaluation, DFATD may, but has no obligation, to do the following:

- (a) correct any computational errors in the extended pricing of Proposals by using unit pricing;
- (b) if there is an error corresponding to the addition or subtraction of subtotals in a total, the total will prevail;
- (c) in case of discrepancy between word and figures, the former will prevail;
- (d) evaluate the financial proposal to reflect the minimum or fixed level of effort specified in the Data Sheet, if applicable;
- (e) in case of discrepancy between the level of effort in the technical and financial proposal, the financial proposal will be adjusted using the level of effort specified in the technical proposal; and
- (f) in case the financial proposal does not reflect the technical proposal, the financial proposal may be given a score of zero.

12.5 At the end of the evaluation process, the Point of Contact will advise the Bidder of the actions, if any, taken pursuant to the paragraph 12.4. A Bidder that disagrees may withdraw its Proposal.

13. Conditions of Contract Award

13.1 Before award of a Contract, a Bidder must meet the conditions listed below. Upon request by DFATD, a Bidder must provide, within the timeframe stated by DFATD, documentation to support compliance. Failure to comply with DFATD's request and meet the requirement within that timeframe will not delay the award of the Contract and may result in the Proposal being rejected.

(a) Financial Capability

In order to determine the Bidder's financial capability to meet the project requirements, DFATD may require to have access to the Bidder's financial information. If the Bidder is a consortium or joint venture, DFATD may request financial information from each Member. Such financial information may include, but may not be limited to, the following:

- (i) audited financial statements, if available, or the unaudited financial statements for the Bidder's last three (3) fiscal years, or for the years that the Bidder has been in business if it is less than three (3) years (including, as a minimum, the balance sheet, the statement of retained earnings, the income statement and any notes to the statements);
- (ii) if the date of the above-noted financial statements is more than three (3) months before the date on which DFATD requests this information, the Bidder may be required to provide interim financial statements (consisting of a balance sheet and a year-to-date income statement), as of two (2) months prior to the date on which DFATD requests this information;
- (iii) if the Bidder has not been in business for at least one (1) full fiscal year, the following may be required:
 - opening balance sheet on commencement of business; and
 - interim financial statements (consisting of a balance sheet and a year-to-date income statement) as of two months prior to the date on which DFATD requests this information.
- (iv) a certification from the Chief Financial Officer or an authorized signing officer of the Bidder that the financial information provided is complete and accurate.

In the event that DFATD considers that the Bidder is not financially capable of performing the RFP requirement, DFATD may require that the Bidder, at the Bidder's sole expense, provide some form of guarantee, for example, a financial guarantee from the Bidder's parent company, an irrevocable standby letter of credit, drawn in favour of DFATD, issued by an Approved Financial Institution or in the case of non-Canadian bidder, confirmed by an Approved Financial Institution, a performance guarantee from a Third Party or some other form of security, as determined by DFATD. If a parent company or a Third Party guarantee is considered appropriate by DFATD for the Bidder to be financially capable, DFATD may require the parent company or Third Party financial information.

When the information requested above is provided to DFATD and marked confidential, DFATD will treat the information in a manner consistent with the *Canadian Access to Information Act*.

(b) Procurement Business Number

Bidders must have a Procurement Business Number. Bidders must register for a Procurement Business Number in the Supplier Registration Information service online at the following Website: <https://srisupplier.contractsCanada.gc.ca/>. In the case of a consortium or joint venture, the consortium or joint venture as a whole does not require a Procurement Business Number, but each Member must have a Procurement Business Number.

(c) Security requirements associated with this RFP and the resultant Contract are specified in the Data Sheet.

If required in the Data Sheet, the Bidder must meet the security requirements specified in the Data sheet. In the case of a consortium or joint venture, each Member must meet the security requirements.

(d) Proof of Insurance

Upon request by the Point of Contact, the Bidder must provide a letter from an insurance company rated as A++ to B++ by A.M. Best stating that the Bidder, if awarded a Contract as a result of the RFP, can be insured in accordance with the insurance requirements specified in the Data Sheet. In the case of a consortium or joint venture, at least one Member must meet the insurance requirements.

(e) M-30 Compliance with the Act Respecting the Conseil Exécutif du Québec (L.R.Q., chapter M-30)

Bidders in Québec whose operations are partially or fully funded by the province of Québec may be subject to the Government of Québec *Act Respecting the Conseil exécutif* (L.R.Q., chapter M-30). Under sections 3.11 and 3.12 of this Act certain entities, as defined in the meaning of the Act, including but not limited to municipal bodies, school bodies or public agencies, must obtain an authorization, indicated by the Act, before signing any agreement with DFATD. Consequently, any entity that is subject to the Act is responsible for obtaining such authorization. In the case of a consortium or joint venture, each Member must comply with the requirement stated in this paragraph.

(f) Integrity Provisions

The Bidder must:

- (a) As required under the Policy, incorporated by reference through paragraph 1.5.1 of this RFP, verify the status of all proposed first tier sub-consultants and contractors before entering into a direct contractual relationship in accordance with the Policy section 16 by either making an enquiry of the Registrar of Ineligibility and Suspension in the case of individuals, or in the case of sub-consultants and contractors that are not individuals, consult the public Ineligibility and Suspension List found on the [Integrity Regime](#) website.
- (b) Using item 2 of form TECH-3: Bidder's Organization, submit to DFATD a list of names as required by, and in accordance with sections 17 a. and b. of the *Ineligibility and Suspension Policy* (the List), Bidders may submit the List with their Proposal. In the event that the List is not submitted with the Proposal, DFATD will inform the Bidder of a time within which to submit the List. Failure to submit the List within the time specified will render the Bidder's Proposal non-responsive and the Bidder's Proposal will be rejected.

14. Negotiations

- 14.1 A time limit may be imposed by DFATD to ensure that negotiations are concluded effectively and in a timely manner. In instances where negotiations cannot be satisfactorily concluded between the selected Bidder and DFATD, the Bidder's Proposal will be given no further consideration. DFATD may initiate negotiations with the next highest-ranking Bidder.

15. Personnel Replacement prior to Contract Award

15.1 If specific individuals are identified in the Bidder's Proposal, the Bidder must ensure that each of those individuals is available to commence performance of the Services as requested by DFATD and at the time specified in this RFP or agree to with DFATD unless the Bidder is unable to do so for reasons beyond its control. For the purposes of this paragraph, only the following reasons will be considered as beyond the control of the Bidder: long-term/ permanent illness, death, retirement, resignation, maternity and parental leave, dismissal for cause or termination of an agreement for default and extension of Proposal validity requested by DFATD. If, for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder must provide a replacement with equivalent or greater qualifications and experience. The replacement will be evaluated against the original evaluation criteria specified in Section 5. For the purposes of evaluation, only the score of the individual named in the Proposal who is being replaced will be taken into account. Acceptance of the proposed replacement is not automatic and will be considered at the sole discretion of DFATD. If the proposed replacement does not, at a minimum, achieve the score of the individual named in the Proposal or is not acceptable to DFATD, DFATD may reject the Proposal and enter into negotiation with the next highest-ranking Bidder.

16. Performance Security

16.1 To guarantee the Consultant's performance, ten (10) percent of the total Fees will be subject to a holdback. The application of the holdback is non-negotiable.

17. Notification/ Debriefing of unsuccessful Bidders

17.1 After completing negotiations and awarding the Contract to the successful Bidder, DFATD will publish the award of the Contract on OECD/DAC website, GETS, DFATD website and whenever possible, official gazette of the Recipient country.

17.2 Bidders may make a written request to DFATD to receive a debriefing (in person, by teleconference/videoconference or in writing) on the strengths and weaknesses of their own Proposal and to receive the marks obtained for each of the technical components contained in the published evaluation grid, for the financial component and for the aboriginal supplier incentive (if applicable). All costs related to debriefings conducted in person or by teleconference/videoconference, including but not limited to communication and/or transportation costs, are the responsibility of the Bidder.

17.3 Bidders may also request the name(s) of the successful Bidder(s) and the overall total marks obtained by the successful Bidder(s) for the technical components listed in Section 5, Evaluation Criteria, for the financial component, and for the aboriginal supplier incentive (if applicable). Where the request involves a Bidder who is an individual, some information may qualify for protection under the *Privacy Act*.

17.4 Should debriefings and informal discussions not provide sufficient information to address a Bidder's issues and concerns, the Bidder should refer to the [Internal Review Mechanism \(IRM\)](#) prior to considering external recourse mechanisms. Complaints should be submitted using the [IRM Enquiry Form](#).

18. Commencement of Services

18.1 The Consultant is expected to commence provision of Services within the delay specified in the Data Sheet.

18.2 The Bidder is not to start work or render the Services prior to signature or the effective date of the Contract. Costs incurred by the Bidder prior to the effective date of the Contract will not be reimbursed by DFATD.

**19.
Confidentiality**

19.1 Proposals remain the property of DFATD and will be treated as confidential, subject to the provisions of the *Access to Information Act*, the *Privacy Act* and the *General Records Disposal Schedule of the Government of Canada*.

- Where a Bidder is unable to provide any of the certifications required by subsection 1.1, it must submit with its Proposal a completed Integrity Declaration Form, which can be found at [Integrity Declaration Form](#).
 - DFATD will declare non-responsive any Proposal in respect of which the information requested is incomplete or inaccurate, or in respect of which the information contained in a certification or declaration is found by DFATD to be false or misleading in any respect. If DFATD established after award of the Contract that the Bidder provided a false or misleading certification or declaration, DFATD may terminate the Contract for default. Pursuant to the Policy, DFATD may also determine the Bidder to be ineligible for award of a contract for providing a false or misleading certification or declaration.

The Bidder also certifies that it will not hire directly, or through a third party, former public servants during their one-year cooling-off period where this would constitute a violation of post-employment measures under the Policy on Conflict of Interest and Post-Employment that complements the Values and Ethics Code for the Public Sector.

3. ANTI-TERRORISM

The Bidder certifies that DFATD's funds will not knowingly be used to benefit terrorist groups or individual members of those groups, or for terrorist activities, either directly or indirectly, as defined in the Criminal Code R.S.C., 1985, c. 2. The experience acquired by a Bidder who is providing or has provided the Services described in the RFP (or similar services) will not, in itself, be considered by DFATD as conferring an unfair advantage or creating a conflict of interest. This Bidder remains however subject to the criteria established above.

3. By submitting a bid, the Bidder represents that it does not consider itself to be in conflict of interest nor to have an unfair advantage. Where DFATD intends to reject a bid under this section, DFATD may inform the Bidder and provide the Bidder an opportunity to make representations before making a final decision. The Bidder acknowledges that it is within DFATD's sole discretion to determine whether a conflict of interest, an appearance of conflict of interest or unfair advantage exists.

6. LOBBYIST

The Bidder certifies that it has not, directly or indirectly, paid or agreed to pay and agrees that it will not, directly or indirectly, pay a contingency fee to any individual for the solicitation, negotiation or obtaining of the Contract if the payment of the fee would require the individual to file a return under section 5 of the Canadian *Lobbying Act*.

DFATD will have the right to declare a Proposal non-responsive if the Bidder, or any Member if the Bidder is a consortium or a joint venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

1 Rationale, purpose and Specific objectives of the evaluation

1.1 Rationale and Purpose of the Evaluation

Canada is a technical and financial partner of Mali's education and vocational training sector with a budget equivalent to approximately C\$90 million from 2014 to 2018. This support has been developed through a diversified programming approach targeting complementarity and synergy between the various interventions.

Canada's bilateral development program in Mali is currently in a phase of planning new programming, as all of its initiatives will be completed within the next two years.

In this context, the bilateral development program team considers that an evaluation of the education and vocational training sector (financed by the assistance budget) would be useful and would result in:

- Identifying and notifying stakeholders in Mali about the key components promoting complementarities between projects and the synergies and leverage effects in the implementation of policies and programs in education and vocational training sectors.
- Providing elements for reflection and to instruct and guide policy dialogue between the Malian stakeholders (Government of Mali [GoM], civil society organizations, etc.) and the international development stakeholders (financial and technical partners, non-governmental organizations [NGOs], etc.) working in Mali, including the Department of Foreign Affairs, Trade and Development (DFATD);
- Providing options to guide the planning of the new programming by equipping the structures of the Malian ministries in the sector, as well as the civil society organizations and Malian technical partners working in the field. As well as the Canadian or international executing agencies involved in the delivery or interested in becoming involved in supporting the development of the education and vocational training sector in Mali.

The beneficiaries of this evaluation will be the Malian stakeholders, the implementing agencies and DFATD.

1.2 Specific Objectives of the Evaluation

The specific objectives of the evaluation are the following:

- Evaluate the results achieved in Mali's education and vocational training sector.
- Identify key elements that contributed to synergies and/or complementarities between projects and beyond (catalyst) the results achieved as expected by these projects in the areas of focus.
- Determine the key components that hindered synergies and complementarities between the projects in the intervention sectors;
- Assess the integration of gender equality and women's economic empowerment with regards to employability in the implementation of education and vocational training sector programming and the most significant results;
- Identify findings, conclusions and recommendations to meet the above purpose.
- Draw lessons from the conclusions on the synergy between projects, the quality of education and the reduction of gender inequalities.

- Identify the key elements that contributed to the achievement of the national education plan objectives.

2 BACKGROUND INFORMATION

2.1 Evaluation Object

The following sub-sections briefly describe the context of the development intervention, the development intervention being evaluated (the evaluation object), the intervention logic and stakeholders.

2.1.1 Development Context

The serious multidimensional crisis that has been affecting Mali since 2012 is not resolving as quickly as expected. The Agreement on Peace and Reconciliation, signed in June 2015 in Algiers, is in a deadlock and the areas of insecurity now extend to a large part of the north and centre of the country. It is in this context that Canada's development program in Mali has in recent years addressed the various identified causes for this vulnerability, all while focusing its efforts on the following: 1) improving maternal and child health; 2) improving access to and the quality of education; 3) food security and agricultural productivity; 4) improving the governance of public institutions (office of the auditor general [OAG], public reforms, strengthening justice) and civil society institutions, and 5) promoting gender equality with a significant contribution since, after resuming its bilateral cooperation in February 2014, Canada is one of Mali's main bilateral development partners, with a disbursed annual budget of around \$90 million, making it one of DFATD's most important.

With respect to implementation of the Growth and Poverty Reduction Strategy Paper (GPRSP), now the Framework for Economic Growth and Sustainable Development (FEGSD) in Mali, the objective of the current programming of Canada's bilateral development program in Mali is to reduce poverty and encourage equitable and sustainable development for the benefit of Malians. In alignment with the established national mechanisms in the education sector, Canada's 2014-2019 bilateral development strategy in Mali has pursued this objective by improving basic health and education services, promoting rural development and increasing food security, and by strengthening the justice system and governance of the country, all while taking into account the cross-cutting principles of environmental sustainability and gender equality. The expected intermediate outcomes are as follows:

- Improved access for Malians to environmentally friendly, quality basic services that meet their needs, particularly those of women, newborns, children and youth.
- Increased, sustainable and equitable agricultural production and productivity for farmers, particularly women.
- Increased effectiveness of public institutions and civil society organizations in terms of justice, control and sustainable socio-economic development, while taking into account equality between women and men.

Canadian cooperation in the education and vocational training sector between 2014 and 2018 is also part of a context of intervention that continues to face many issues and challenges. The main ones are as follows:

Intervention setting

- A high population growth that puts constant pressure on the development of the education system at all levels.

- Illiteracy, which affects a large majority of rural populations and more specifically women.
- Growing insecurity that affects a large number of schools, contributing to the school drop-out rate.
- Significant weakness in the system's internal and external performance.
- A low completion rate at all school levels, especially among girls.
- Poor attendance of girls in scientific and technical fields.
- Disparities between women and men in the education system as a whole (results, completion rates, protection, services, opportunities, employability).
- The rapid development of Quranic schools.

Stakeholders

- Institutional and political instability, with six cabinet changes between 2013 and 2018.
- The lack of a strategic vision among authorities in charge of education and vocational training - piloting the Ten-year Education Development program (PRODEC) in a reactive mode, particularly in relation to social movements.
- Weak capacities for coordination, intervention and funding of education and vocational training stakeholders at the national, regional and local levels.
- Poor distribution of teachers in schools, the difficulty of providing local supervision of schools and teachers, low skills among teachers, and absenteeism due to lack of security.
- Lack of coordination among technical and financial partners, and weak support for the implementation of program support in the sector.

2.1.2 Brief description of some of the achievements of Canadian education and vocational training programming in Mali

Canada supports the *development of education and vocational training* in Mali in collaboration with various Malian, Canadian, multilateral and regional partners. It actively participates in the monitoring of the sector's results through regular meetings of the partnership framework, annual joint reviews and meetings with thematic commission groups, helping to create the conditions for equitable development, responsible governance, sustainable peace and shared prosperity.

The priority areas to which Canada contributes include human dignity with a view to promoting equitable access to quality basic services in the fields of education, including vocational training. For example, here are some of the results achieved to date:

- Sectoral support to the education sector (2012-2017) has increased primary school enrolment by more than 288,864 students, 46.6 percent of whom are girls. This support improves access to quality education services.
- Since 2010, nearly 11,000 teachers have been trained on better use of pedagogical tools and teaching materials in primary schools. This support helps to improve the quality of education and addresses the learning barriers faced by girls and boys.
- The project has trained 343 repairers (43 percent of women nationwide) who are working in a profession that allows them to live better.
- More than 1.7 million textbooks have been repaired since 2009, accounting for savings of approximately C\$14 million for the Malian government compared to purchasing new textbooks.
- Durable Integration of Agro-pastoral Graduates - Educational institutions and the capacities of the ministries responsible for these institutions have been strengthened; employment skills programs have been improved and mechanisms for consultation between the private sector and educational

institutions have been developed to facilitate access to internships and the professional integration of graduates.

- Training-Employment Adequacy in the circle of Kenieba - Capacity building of the local workforce is underway and in total, 363 learners have been trained, 334 men (92 percent) and 29 women (8 percent). Of these, 103 men (31 percent) and 8 women were hired as a result of the training (28 percent).
- African Leaders of Tomorrow Scholarships - As part of this program, 120 to 130 young women and men have completed a master's degree in public administration in Canada. This has provided them with relevant and practical Canadian experience and best practices in governance, public policy and administration in the social and economic sectors.

2.1.3 Description of bilateral program for Canadian education and vocational training programming in Mali

The project portfolio covers the following themes: i) School textbooks; ii) Improving teachers' skills and assessment of learning; iii) Youth employability; iv) Sector budget support (SBS); v) Adequacy of training and employment; vi) Employment skills programs for increased economic prosperity; vii) Employment skills programs, more specifically in the agro-pastoral sector; and viii) Higher-level skills acquisition in public administration. The following table presents the projects in the sector, followed by a short description of each one. Most of these projects were implemented during the period September 2014-2018. Some projects started just before 2014 and ended before 2018, and others will be operational until 2019/2020/2021.

Strengthening the Management of Textbook Production and Distribution in Mali - Component 2: Capacity building support for stakeholders in the publishing chain and the book industry (PAGE), 2012-2018 - Total budget: C\$4.3 million

The PAGE project is a hybrid project with four (4) components. Component 2 - Capacity building support for stakeholders in the publishing chain and the book industry (PAGE) - is part of the PRODEC and the Education Sector Investment Program (PISE) and is a continuation of Canadian cooperation support for the reform of Mali’s education system, and more specifically, the implementation of the Textbook and Learning Materials Policy. PAGE supports the Malian government in achieving its vision of an education system that can meet the population’s needs and contribute to the country’s economic development.

PAGE aims to support the development of the private textbook publishing industry in Mali. To this end, it promotes the improvement of public-private partnership in the management and implementation of the Textbook and Learning Materials Policy, and the supply and quality of textbooks and services provided by private sector publishers.

The proposed support is divided into two components: Component 1500, aimed at supporting the Organization of Malian Book Editors; Component 1600, aimed at strengthening the capacities of stakeholders in the textbook chain (publishers, authors, graphic designers, illustrators, revisers, etc.).

Strengthening the Management of Textbook Production and Distribution in Mali - Component 3: Capacity building in textbook repair (DCRMS), 2010-2018 - Total budget: \$8.5 million

This component provides financial support to the Ministry of Education to design and implement a textbook repair program for Malian schools. Mali has retained the services of the Collège communautaire du Nouveau-Brunswick (CCNB) to pilot this implementation. The Capacity Building in Textbook Repair Project (a follow-up to a pilot project implemented in the Kayes region from 2005 to 2008) started in 2010 and ended in February 2018.

The DCRMS component consisted of recruiting, in each of Mali’s regions and in the district of Bamako, unemployed persons from among the poorest (women and young people) in order to train them in

textbook repair, microenterprise management and to support them in setting up and managing their service business. According to the implementation plan, the project has five main components: component 1000 focuses on national capacity building; component 2000 focuses on the implementation of the training program for textbook repairers; component 3000 focuses on the mobilization of decentralized and deconcentrated structures around textbook repair; component 4000 focuses on establishing a private textbook repair service; and component 5000 focuses on managing the implementation of the DCRMS program. The strategy favours intervention on several levels and with several targets: (1) textbook repairers in terms of service provision; (2) central and decentralized education structures in terms of service demand; and (3) decentralized government structures in terms of resource management and payment.

The objective of the DCRMS is to implement a sustainable textbook repair mechanism, with the ultimate aim of contributing to the quality of education through better access to textbooks at a lower cost.

Textbook Supply Project (2013-2014) - Total budget: C\$5 million

Textbook supplies in 2013 and 2014 are part of the period following the 2012 coup d'état, a period marked by the suspension of Canadian aid to Mali. Aware of the precariousness of gains made in terms of access to textbooks in the context of the crisis, and wanting to react to the destruction of textbooks in schools in northern Mali, Canadian cooperation decided to partner with UNICEF, who was still operating, to finance a supply of textbooks to respond to the national crisis, in particular by providing greater support in schools in the north.

The project's main activities include printing and distribution by Malian publishers of textbooks and teacher guides in all accessible primary schools in Mali, particularly those in the north.

A communication campaign to inform schools, teachers, parents and local education stakeholders about the importance of using textbooks in the classroom and the positive impact of textbooks on the quality of learning is also proposed. This campaign is an opportunity to promote the importance of ensuring girls' access to education, and to provide each school with information on the number and type of textbooks purchased for its students.

In addition, through UNICEF, Canada has taken advantage of textbook supplies to acquire reading books in French and especially in national languages (Bamanankan and Songhoï), thus increasing reading opportunities for children.

Improving Teachers' Skills and the Quality of Learning in Mali (FORMÉ), 2014-2019 - Total budget: C\$18.5 million

The objective of FORMÉ is to help improve the quality of primary education in Mali and, more specifically, to improve teachers' skills in primary education and the quality of learning for girls and boys in primary school.

This project has two components: (1) improving teacher's skills; and (2) establishing a mechanism to assess primary school learning.

The first component is a direct follow-up to the Support the Development and Implementation of Teachers' Skills in Basic Education Project (A020892 - PAMOFÉ / 2000 to 2010) and aims to strengthen the management of ongoing training at all levels of the education system, to spread learning communities throughout the territory and to improve classroom teaching practices. The partner is the MEN's National Directorate of Teacher Training.

The second component aims to strengthen the institutional capacities of structures responsible for standardized monitoring and evaluation of learning at the central, regional and local levels. The central partner is the National Directorate of Education.

Implementing Decentralized Management of Basic Education (2003-2017) - Total budget: C\$20 million

The project focused on improving the management of decentralized basic education in Mali, with practical application in the regions of Kayes, Kita, Gao, Timbuktu and Kidal (an amendment was signed in 2010 to expand the scope of the project to include all 17 educational academies in the country).

The project has three components:

- Component 1: (\$3 million) a contribution agreement between the Canadian International Development Agency (DFATD²) and the MEN to support the implementation of annual operating plans for the central level and the teaching academies in Kayes, Kita and northern Mali, and to support the local initiatives support fund (\$0.5 million).
- Component 2: (\$9.5 million) a contribution agreement between MAECD, Local Authorities National Investment Agency (LANIA) and MEN for the construction of water points and the provision of school furniture.
- Component 3: (\$6 million) a contract between MAECD and CRC Sogema to select and supervise technical assistants and manage the ad hoc resource bank.

In 2011, a working meeting in Canada between the various technical consultants hired by CRC Sogema to work with the DAC/ED and the academies over the past year provided an opportunity to discuss the progress and perceived obstacles in decentralized school management. A synthesis document summarizing lessons learned and recommendations was produced (see EDRMS #5612963).

Youth Employability in Mali Project (PEJM), 2015-2021 - Total budget: C\$8.4 million

The project aims to increase the employability of vulnerable young people, especially women and gold panners, by improving vocational training in employment-generating areas. The project seeks to strengthen the capacities of five vocational training centres, two of which are dedicated exclusively to young women, to provide quality skills training to 1,200 vulnerable young people (including 325 women) per year in agri-food and in trades related to mining activities (vehicle mechanics, metalworking and electricity). The project also supports organizations that support the professional integration of young people to improve their governance and service delivery.

The expected intermediate outcomes of this project include: (1) increased provision of vocational training that meets labour market needs and is accessible to vulnerable young men and women in Mali; (2) increased access by vulnerable young men and women to vocational training programs provided by competent trainers who are capable of providing education that meets the specific needs of this clientele; and (3) increased capacity of vocational integration support organizations and vocational training centres to support vulnerable young men and women in their integration into the labour market.

Education Sector Budget Support (SBS), 2014-2018 - Total budget: C\$20 million

Education SBS covers all of Mali and supports the ministries responsible for education and vocational training in implementing Mali's Education Sector Investment Program (PISE). PISE focuses, in

² Previously named CIDA, now called the Department of Foreign Affairs, Trade and Development (DFATD)

particular, on girls' education, initial education and continuing education for teachers, early childhood development and informal education.

As with all budget support initiatives, Canada is working in close cooperation with other donors and the Malian government to focus on creating effective, transparent and accountable national systems by increasing donor coordination and harmonization, and strengthening mutual accountability. Budget support also fosters greater policy dialogue among donors, the government and partners, which strengthens efforts for effective, focused aid, as well as long-term development results. This initiative is monitored and evaluated on an ongoing basis with other donors.

Training-Employment Adequacy in Kéniéba (AFECK), 2016-2019 - Total budget of C\$5.9 million

This project aims to provide the people in communities surrounding the Fékola mine in the Kéniéba district of Mali with increased incomes through employment skills and entrepreneurial support programs. The training is based on the competency-based approach (CBA) and includes the improvement of individual professional skills, entrepreneurship and self-employment. The project has three components: (1) the development of vocational training in the Kéniéba district; (2) capacity building of the local workforce and local entrepreneurship; and (3) strategic public-private networking between local stakeholders.

This project is implemented by Cowater Sogema and aims to increase the economic prosperity of 800 Malian graduates through the construction and enhanced management of the Centre de formation à l'entrepreneuriat et aux techniques de la Mine de Fékola (CFETM), operated by the Canadian B2Gold mining company. The two donors are: (1) Global Affairs Canada (GAC) for 75 percent of the funding; and (2) B2GOLD mining company, with a 25 percent contribution, including in-kind contributions and equipment for the training centre in Kéniéba. The support agency for (GAC) is Cowater-Sogema.

Durable Integration of Agro-pastoral Graduates (IDDA), 2016-2021 - Total budget: C\$2.2 million

The objective of this project is to increase the economic prosperity of the people of Benin, Haiti and Mali, through employment skills programs. This project aims to strengthen educational institutions' capacities in administrative, financial and educational management; vocational training in agro-pastoral matters; professional integration and development of small and medium-sized enterprises by young people, women and men; food security; and sustainable economic and agricultural development.

The project's activities include the following: (1) strengthening educational institutions in the agro-pastoral sector in each of the targeted countries and strengthening of the capacities of the ministries responsible for these institutions, which are responsible for monitoring them; (2) improving employment skills programs by ensuring that they are in line with labour market needs and that they offer guidance and support mechanisms for the professional integration of young people, women and men, including specific support for young people who want to become entrepreneurs; and (3) developing consultation mechanisms between the private sector and educational institutions to facilitate access to internships and the professional integration of graduates.

African Leaders of Tomorrow Scholarships Fund (2014-2019) - Total budget: C\$5.1 million

This project seeks to prepare the next generation of innovative leaders in sub-Saharan Africa to actively contribute to their local and global communities and to promote economic prosperity, social justice and equity in Africa. The project helps promising young African professionals to become leaders in public policy and administration by awarding 120 to 130 scholarships to young women and men to complete a master's degree in public administration in Canada. The objective is to provide these future leaders with

high-quality professional university training by exposing them to practical and relevant Canadian public sector expertise and experience, and to innovation and best practices in governance, public policy and administration in social and economic sectors.

This project is co-funded by the MasterCard Foundation, an independent global organization that works with partner organizations in 46 countries to create opportunities for all to learn and prosper. The African Leaders of Tomorrow Scholarships Fund was created in honour of the late Nelson Mandela.

Stakeholders

Stakeholder participation is essential to the evaluation of DFATD's development interventions. In this context, the Consultant shall ensure that the stakeholders of the targeted projects are consulted throughout the evaluation process in order to ensure the quality of the evaluation process.

Note: **the Consultant will NOT share draft deliverables with stakeholders without DFATD's approval.** This is required to ensure a robust quality assurance throughout the evaluation process.

The stakeholders to be consulted will be at the level of actors on the ground during the implementation and monitoring of the projects and at the level of actors involved in the education and vocational training sector in Mali.

2.2 Evaluation Scope

The sector evaluation will cover the period from 2014-2018 and will focus on projects implemented during this period. In addition to this set of projects, projects that are currently operational will be included. All the projects included in this evaluation are described in section 2.1.3.

3 EVALUATION Questions

NOTE: The evaluation is not (and should not be) structured based on the criteria adopted by the Development Assistance Committee (DAC) of the Organisation for Economic Co-operation and Development (OECD) to evaluate development assistance activities such as relevance, efficiency, effectiveness and sustainability because the purpose of this evaluation is not accountability, but to understand causality (cause-effect relationship).

The key questions of the evaluation are as follows:

1. Did the support programming in the education and vocational training sector allow synergies between projects? Where applicable: (i) what key elements contributed to these synergies and/or complementarities and how; (ii) what elements hindered synergies and/or complementarities and how; (iii) have synergies and/or complementarities led to the achievement of results that are higher than expected or unexpected?
2. Did the projects in the portfolio contribute to the following, and if so, how?
 - a. progress in Mali's education and vocational training sector (enrolment rate, completion rate, retention of children in school, school environment, parity, etc.);
 - b. the implementation of the sectoral approach in the field of education and vocational training, and the employability that this has generated;
 - c. the creation of synergies, complementarities and innovations with the interventions of other technical and financial partners (TFPs).
3. Did the projects in the portfolio contribute to the following, and if so, how?
 - a- Reducing gender inequalities in access to basic education and vocational training (by emphasizing the gender approach) and progress toward equal status for girls and boys as users, stakeholders and decision makers in the sector?
 - b- What are the results of Canada's intervention (in terms of improving quality, improving the school environment, introducing innovations) in the field of education and vocational training?
 - c- Improving the effectiveness of policy dialogue with the Malian government?
4. Have the education and vocational training projects set up sustainability mechanisms?
5. How have education projects contributed to the local economy and industries?
6. What are the results of Canadian education programming on the employability of youth?
7. How have vocational training projects contributed to the local economy and industries?
8. What are the effects of vocational training projects on the labour market?

4 ROLES AND RESPONSIBILITIES

4.1 DFATD

This sector evaluation is commissioned by Canada's bilateral development program in Mali and will be carried out under the coordination of the sector head of the education and vocational training team in service of everyone who has to ensure that the mission and interaction with the various stakeholders involved in this evaluation go smoothly. Among other things, the sector team shall provide the information that is necessary for the evaluation and facilitate contacts, as well as review the mission book approved by DFATD as well as the various reports associated with carrying out the mandate.

4.2 The Consultant

The Consultant must conduct the evaluation in compliance with the [OECD/DAC \(2010\) Quality Standards for Development Evaluation and best evaluation practices](#).

The consultant will have the following responsibilities:

- Ensure that all deliverables comply with the [OECD/DAC Quality Standards](#) for Development Evaluation;
- Adopt a methodology compatible with the sector evaluation;
- Conduct the evaluation according to the work plan approved by the PTA;
- Review, prepare and submit deliverables to the PTA for review and approval;
- Regularly report progress to the PTA;
- Establish a joint team composed of international and local consultants with the required skills,

Note: The Consultant is fully responsible for managing all aspects of local consultants as well as any associated translation costs, as necessary.

5 Evaluation Process

5.1 Start-up Meeting

The Consultant must attend (in person or via a tele or video conference) according to the regulations and recommendations related to COVID-19 of the Government of Canada, a start-up meeting with:

1. the PTA in charge of managing the contract and
2. a member of the Evaluation Services Unit of the Diplomacy, Trade and Corporate Affairs Evaluation Division.

The purpose of this meeting is to ensure that:

- Participants understand DFATD's expectations regarding the quality of the sectoral evaluation deliverables;
- Participants understand the DFATD's quality assessment processes and timelines; and
- The Consultant has the opportunity to ask for clarifications of the mandate.

5.2 Work plan

The Consultant will prepare a work plan that will operationalize and direct the evaluation.

The approved work plan will detail how the evaluation is to be carried out and will be elaborated based on the information presented in this ToR to bring greater precision to the planning and design of the evaluation. It will be based on a preliminary review of the documentation, discussions with key stakeholders, literature review, etc.

The following paragraphs provide guidance on how to address some sections of the work plan. However, all sections and annexes indicated in the outline of the work plan provided in Annexe 1.1 must be completed.

The work plan will include an evaluability assessment that will guide the evaluation design. This sector evaluation will be mostly based on the results assessment and their contribution to the objectives identified in Canada's 2014-2019 Mali bilateral development strategy through:

- I. the review of the Mali Bilateral Development Program's Logic Model and Performance Measurement Framework at the results chain level (common to the portfolio or strategic from a sectoral perspective) for the education and vocational training sector; and
- II. the review of the selected education and vocational training projects' Logic Model and Performance Measurement Framework, especially at the immediate and intermediate outcome level, but also at the ultimate outcome level (common to the portfolio or strategic from a sectoral perspective).

The Consultant will:

1. review previous related evaluations (if applicable) to inform the evaluation design. The purpose of reviewing previous evaluation(s) as part of an evaluability assessment is NOT to update or follow-up on previous recommendations. The review is done to inform the current evaluation design and/or to mitigate constraints and limitations faced when previously evaluating the same intervention.
2. review the coherence and logic of the intervention and the Performance Measurement Framework (PMF) of the development intervention to:
 - assess the immediate, intermediate and ultimate outcome statements in terms of:
 - is each outcome clearly and unambiguously worded, containing only one idea?
 - can each outcome be measured?
 - is each outcome realistic and achievable?
 - is each outcome located at the proper outcome level?
 - are the causal relationships between outcome levels logical?
 - is gender equality integrated at the project outcome level?
 - confirm a shared interpretation among key stakeholders of the development intervention's expected immediate and intermediate outcomes;
 - validate indicators and targets to assess each outcome (NOT output) according to DFATD's Results-Based Management (RBM) guide³
 - propose measures to address flaws in the above listed elements for the purpose of conducting the evaluation;
3. review the evaluation questions. Evaluation questions can be withdrawn if they are impossible to answer, overly difficult or if there is a need to reduce the focus of the evaluation. Questions may be further elaborated, modified or added. All changes, additions or deletions of questions must be accompanied by a supporting argument/rationale;
4. examine the following key factors:
 - existence and quality of data (specifically including sex-disaggregated data);
 - availability of key informants, and the timing of the evaluation;

³https://www.international.gc.ca/world-monde/assets/pdfs/funding-financement/results_based_management-gestion_axee_resultats-guide-en.pdf

- identification of whether key stakeholders want or resist having their development intervention evaluated (e.g., the level of resistance to the evaluation and its reasons).
5. explain and note any factors that compromise the independence of the evaluation and address possible conflicts of interest openly and honestly.

Following the evaluability assessment, the work plan provides updated questions.

The purpose, scope and evaluation questions are to be used by the Consultant to determine the most appropriate approach for the present evaluation. The methodology must be developed in line with the evaluation approach chosen and support the answering of evaluation questions using credible evidence.

The methodology section is the most important section of the work plan. In that section, the Consultant must explain and justify the selection of the proposed evaluation approach and must also specify and justify the overall evaluation design. The Consultant shall, detail the proposed techniques for both data collection and data analysis (note: specific details on techniques for gender-sensitive data must be provided). The rationale for choosing those techniques must be provided and potential limitations must be explained.

Given that data will be collected from various samples (people, locations, etc.), it is important that the samples be representative of the population. Thus, in the methodology section of the work plan, the Consultant will detail the characteristics of each sample: how it is selected, the rationale for the selection, and the limitations of the sample for interpreting evaluation results. If a sample is not used, the rationale for not sampling and the implications for the evaluation should be provided.

For data analysis, the Consultant should explain how the information collected will be organized, classified, tabulated, inter-related, compared and displayed relative to the evaluation questions, including what will be done to integrate multiple sources of information. The analysis will be done mainly through:

1. the review of existing documentation such as diagnostic studies and review of reports on Mali's education and vocational training sector, Project Implementation Plans (PIPs), selected projects' annual and final reports, as well as existing evaluation reports;
2. interviews with the main stakeholders involved in the selected projects' implementation and monitoring (see stakeholders section); and
3. other methods/mechanisms for collecting data and opinions from the selected projects' stakeholders and beneficiaries in the field.

All the detailed methodological elements stated above will assist the reader in understanding the logic of the Evaluation Matrix.

The Consultant shall attach the annexes to the work plan:

- Evaluation Matrix - that must follow the template provided in Annex 1.2.
- Sampling. For each sample the following must be defined and explained in detail: the purpose, objectives, universe/population, sampling criteria, sample design, sampling frame, sampling unit, sample size, sampling method(s), proposed sample and limitations.
- Proposed draft data collection tools (interviews, focus groups or other participatory methods, protocols, tabulations, etc.).

5.3 Data Collection and Validation

Data collection will be undertaken according to the DFATD-approved work plan.

The field mission is expected to be no longer than 20 days in duration. All travel related to data collection exercise will depend on the regulations and recommendations related to COVID-19 from the Government

of Canada and the Government of Mali. DFATD field staff⁴ are to be briefed by the Consultant on arrival and preliminary data shall be presented to key stakeholders for validation two days before departure from the field. **Note:** validation during the data collection process is not an approval exercise. It is meant to add validity and ensure that the Consultant's preliminary data (not yet findings) are reliable and relevant, and that important data have not been omitted or misinterpreted.

Two weeks after returning from the field mission, the Consultant will conduct a post-mission debriefing session in Ottawa via tele- or video-conference.

5.4 Evaluation Report

The Consultant will prepare and submit for approval an evaluation report that describes the evaluation and puts forward findings, disaggregated by sex whenever possible and appropriate, conclusions, recommendations and lessons. For the Executive Summary, which will be made public, the Consultant shall follow the outline provided in Annex 1.3. The Consultant is entirely responsible for the quality of the final report which shall adhere to the [*OECD/DAC \(2010\) Quality Standards for Development Evaluation*](#).

The Consultant is responsible for accurately representing and consolidating the input of the evaluation team members and stakeholders (including DFATD) in the final report. As per the OECD/DAC Standards, “Relevant stakeholders are given the opportunity to comment on the draft report. The final evaluation report reflects these comments and acknowledges any substantive disagreements. In disputes about facts that can be verified, the evaluators investigate and change the draft where necessary. In the case of opinion or interpretation, stakeholders’ comments are reproduced verbatim, in an annex or footnote, to the extent that this does not conflict with the rights and welfare of participants.”

6. Description of Team

The Consultant must provide a team of qualified people with a combination of evaluation skills and thematic knowledge to successfully complete this exercise in the Malian context. More specifically, the team must make arrangements so that gender equality is taken into account at every step of the evaluation cycle (i.e. design, data collection, analysis and reports). ANNEX 1.4: DESCRIPTION OF LANGUAGE SCALES/LEVELS

Oral Proficiency Rating Scale

Level	Proficiency	Definition
5	Educated Native Proficiency	Functionally equivalent to that of a highly articulate and well-educated native speaker. Reflects the cultural standards of the country where the language is spoken. Language usage and ability to function are superior throughout.
4+	Advanced Professional Proficiency, Plus	Speaking proficiency is regularly superior in all respects and is usually equivalent to that of a well-educated, highly articulate native speaker. Speaks effortlessly and smoothly on all topics. Understands all forms and styles of speech and shows strong sensitivity to social and cultural references. Language usage and ability to function are fully successful. There may be an occasional non-native slip.
4	Advanced Professional Proficiency	Able to use the language fluently and accurately on all levels normally pertinent to professional needs. Language usage and ability to function are fully successful. Can tailor language to audience and discuss in depth highly abstract or unfamiliar topics. Able to speak with a great deal of fluency, grammatical accuracy, complex vocabulary and in an idiomatic fashion. Understands all forms and styles of speech and shows strong sensitivity to social and cultural references. May have some difficulty with some dialects and slang.
3+	General Professional Proficiency, Plus	Able to use the language to satisfy professional needs in a wide range of sophisticated and demanding tasks. Operates at level 4 most of the time, but cannot sustain the performance across a variety of topics. Understanding is complete, including idioms, nuances, register shifts and humour or irony. Often matches a native speaker's strategic and organizational abilities. Basic and complex structures are fully controlled except for an occasional error in low-frequency structures. There are no patterned errors.
3	General Professional Proficiency	Able to speak the language with sufficient structural accuracy, vocabulary and cohesiveness in discourse to participate effectively in most formal and informal conversations on practical, social, and professional topics. Understanding is essentially complete. Can discuss with fluency and ease abstract issues and special fields of competence and interest. Can support opinion and hypothesize. Can provide a structured argument that is clear and well organized. While the influence of the speaker's first language can be felt (in pronunciation, grammar and vocabulary), there are no patterned errors and errors never distract the listener or interfere with communication.
2+	Limited Working Proficiency, Plus	Able to satisfy most working requirements with language that is often, but not always, acceptable and effective. Operates at level 3 most of the time but is unable to sustain the performance across all topics, i.e. when called on to perform level 3 tasks, may avoid the tasks altogether or resort to simplification through the use of description or narration instead of argumentation or hypothesis. Also, may give concrete examples to illustrate a point instead of arguing the point abstractly. Often shows remarkable ease of speech but performance is uneven. Vocabulary may still be generic (general) rather than precise. Often strong in either grammar or vocabulary, but not in both. Comprehension of normal native speech is nearly complete. Can be understood by native speakers not used to dealing with foreigners.
2	Limited Working Proficiency	Able to satisfy routine social demands and limited work requirements. Can handle with confidence, but not accuracy, complicated tasks. Speaks with ease and facility on concrete topics – giving facts and talking casually about topics of current public and personal interest – using general vocabulary and linking sentences together smoothly with appropriate connectors. When dealing with more complex or abstract topics or issues, fluency breaks down. Can narrate and describe in major time frames. Can understand main ideas and most details on a variety of topics, and discourse referring to different time frames or aspects. Can be understood without difficulty by native speakers.
1+	Elementary Proficiency, Plus	Can initiate and maintain predictable face-to-face conversations and satisfy limited social demands. Operates mostly at level 2 but cannot sustain the performance across all topics and tasks. Can converse with ease and confidence when dealing with routine tasks and social situations, describe people and places and narrate in present tense. May hesitate and change the intended message due to lack of language resources. Understanding of normal native speech is inconsistent due to failure to grasp details and, sometimes even main ideas. Influence of first language is evident in pronunciation, grammatical structures and

Level	Proficiency	Definition
		vocabulary. However, can be understood by native speakers not used to dealing with foreigners, although repetition and reformulation may be needed.
1	Elementary Proficiency	Able to satisfy courtesy requirements and maintain simple face-to-face conversations on familiar topics. Can ask and answer simple questions and participate in simple conversations on topics beyond the most immediate needs. Speaks in sentences but often hesitates and pauses to search for adequate vocabulary. Able to understand sentence-length utterances on a variety of concrete topics, but understanding is uneven. Can be understood by native speakers used to dealing with foreigners.
0+	Memorized Proficiency	Able to satisfy immediate needs using mostly rehearsed utterances. Can handle level 1 tasks but cannot sustain the performance at that level. Shows little autonomy of expression, flexibility and spontaneity. Relies heavily on learned phrases or a recombination of these and words used by the interlocutor. Inability to conjugate verbs. Strong influence of first language in pronunciation, grammar and vocabulary (borrowed words, literal translations). Can usually differentiate most significant sounds when produced in isolation, but when combined in words or groups of words, may have difficulty understanding. Can be understood by native speakers used to dealing with foreigners.
0	No Proficiency	Unable to function in the spoken language, except for a few isolated words and phrases.

- Level 2/2+ is that on which much daily communication and social interactions are handled routinely and effortlessly among native speakers.
- Levels 3 and above entail a much more sophisticated control of the language and a breadth and depth of vocabulary not normally used in everyday exchanges.

Reading Proficiency Rating Scale

Level	Proficiency	Definition
5	Educated Native Proficiency	Reading ability is functionally equivalent to that of the well-educated native reader.
4+	Advanced Professional Proficiency, Plus	Near native ability to read and understand extremely difficult or abstract prose, a wide variety of vocabulary, idioms, colloquialisms, and slang. Strong sensitivity to and understanding of sociolinguistic and cultural references.
4	Advanced Professional Proficiency	Able to read fluently and accurately all styles and forms of the language in any subject as well as those pertinent to professional needs. Understands all sociolinguistic and cultural references. Can follow unpredictable turns of thought readily in editorial, conjectural, and literary texts, as well as in materials in own special field, including official documents and correspondence. Recognizes all professionally relevant vocabulary known to the educated non-professional native reader. Speed and accuracy is often nearly that of a well-educated native reader.
3+	General Professional Proficiency, Plus	Able to read with facility and appreciate a wide variety of texts as well as those pertinent to professional needs. Has a broad active general, specialized and abstract vocabulary. Able to comprehend many sociolinguistic and cultural references, as well as a considerable range of complex structures, low-frequency idioms, and connotations. However, accuracy is not complete, and here again some nuances and subtleties may escape the reader.
3	General Professional Proficiency	Able to read within a normal range of speed and with almost complete comprehension a variety of authentic texts on unfamiliar subjects. Reading ability does not depend on subject matter knowledge, except if the material is highly dependent on cultural knowledge or outside one's general experience and not accompanied by explanation. Text types include news stories, wire service reports, international news items, correspondence, technical material, etc. in one's professional field. Material may include hypothesis, argumentation, and supported opinions. Misreadings are rare. Able to read between the lines and derive the author's implicit intent, but may not detect or understand subtleties and nuances. May experience some difficulties with unusually complex structures and low-frequency idioms.
2+	Limited Working Proficiency, Plus	Able to understand most general factual prose as well as some discussions on concrete topics related to special professional interests. Has a good active reading vocabulary and is able to use the context to make sensible guesses about unfamiliar vocabulary and material. Can get the gist of the information and some secondary ideas. Weaknesses include slowness, uncertainty, inability to discern nuances.
2	>Limited Working Proficiency	Able to read simple and straightforward factual texts written for the general reader that are presented in a predictable sequence and contain high frequency sentence patterns. Persons who

Level	Proficiency	Definition
		have professional knowledge of a subject may be able to scan and summarize texts that are well beyond their general proficiency level. In general, however, the person does not have a broad active vocabulary and is quite slow in reading.
1+	Elementary Proficiency, Plus	Able to read and understand simple texts for informative social purposes, such as biographical information or narration of events, straightforward newspaper headlines. Can guess at unfamiliar vocabulary if highly contextualized. Can locate main ideas and routine information of professional significance in more complex texts and in the professional specialty.
1	Elementary Proficiency	Able to read very simple descriptions of places, things and public events such as those simplified for tourists. Can get some main ideas and locate prominent items of professional significance in more complex texts.
0+	Memorized Proficiency	Unable to read connected prose, but can recognize high frequency elements of a syllabary or a character system. Able to read (but not always interpret accurately) some or all of the following: numbers, isolated words and phrases, street signs, office and shop designations.
0	No Proficiency	No practical ability to read the language.

Writing Proficiency Rating Scale

Level	Proficiency	Definition
5	Educated Native Proficiency	Writing proficiency is functionally equivalent to that of a highly articulate educated native. There are no non-native errors of structure, spelling, syntax or vocabulary. Writing is both clear, explicit, informative, and imaginative.
4+	Advanced Professional Proficiency, Plus	Able to write the language precisely and accurately in a wide variety of prose styles pertinent to a variety of audiences and professional needs. Varied use of stylistic devices and flexibility within a style. Can both write and edit formal and informal correspondence, official reports and documents, and professional articles, including writing for special purposes which might include legal, technical, educational, literary and colloquial writing. The writer employs a very wide range of stylistic devices.
4	Advanced Professional Proficiency	Able to write the language precisely and accurately in a variety of prose pertinent to social issues and professional needs. Errors of grammar, syntax, punctuation and vocabulary are rare. Writing is consistently and explicitly organized with appropriate connectors and discourse devices (ellipsis, parallelisms, subordinates).
3+	General Professional Proficiency, Plus	Able to write in a variety of prose styles pertinent to general, social and professional needs. Good control of basic and complex structures, all verb tenses and tense sequence, morphology, syntax and punctuation. Usually uses cohesive devices well, but variety is limited. May not be able to express nuances or subtleties very well, nor tailor language to audience.
3	General Professional Proficiency	Able to use the language effectively in most formal and informal written exchanges on practical, social, and professional topics. Can write reports, summaries, short papers on current events and particular areas of interest, or on special fields with reasonable ease. Control of structure, general vocabulary and spelling is adequate to convey message accurately but style may be obviously foreign. Punctuation is generally controlled. Good control of grammar with occasional errors in complex structures and tense sequence. Consistent control of compound sentences. Relationship of ideas is consistently clear.
2+	Limited Working Proficiency, Plus	Shows ability to write with some precision and in some detail about most common topics. Can write about concrete topics relating to particular interests and special fields of competence. Often shows surprising fluency and ease of expression, but under time constraints and pressure language may be inaccurate. Can control basic and some complex structures, with some errors in more complex constructions (passives, relative clauses, word order, tense usage and sequence). Generally strong in either grammar or vocabulary, but not in both. Normally controls general vocabulary and some working vocabulary with some misuse. Can handle most social correspondence and take fairly accurate notes on what has been presented orally.
2	Limited Working Proficiency	Able to write routine social correspondence and prepare documentary materials required for most limited work requirements. Can write simply about a limited number of current events or daily situations. Good control of morphology and basic syntactic structures. Uses a limited number of cohesive devices. However, still makes common errors in spelling, punctuation, and constructions (plurals, articles, gender, prepositions, verb tenses, negatives).
1+	Elementary Proficiency, Plus	Able to meet most survival needs and limited social demands. Can write short paragraphs related to most survival needs (food, lodging, transportation, immediate surroundings and situations) and limited social demands (greetings, relating personal history, daily life preferences, etc.). Can express fairly accurate present and future time and some past verb forms, but not always accurately. Can control elementary vocabulary and basic syntactic patterns only. Generally cannot use basic cohesive elements of discourse (relative constructions, object pronouns, connectors).
1	Elementary Proficiency	Able to meet limited practical needs. Writes in simple sentences with errors in spelling, grammar, and punctuation. Writing tends to be a loose collection of sentences or sentence fragments without

Level	Proficiency	Definition
		much organization. At this level, can write simple phone messages, excuses, notes to service people and friends.
0+	Memorized Proficiency	Writes using memorized material and set expressions. Can produce 50 of the most common characters, write dates, own name, nationality, address, and a few short sentences. Spelling and characters may be incorrect.
0	No Proficiency	No functional writing ability.

- 2.7.2 When an order is made under the GC 2.7.1, unless the Contracting Authority terminates the Contract by reason of default by the Consultant or the Consultant abandons the Contract, the Consultant will be entitled to be paid its additional costs incurred, as DFATD considers reasonable as a result of the suspension order.
- 2.7.3 When an order made under the GC 2.7.1 is cancelled, the Consultant must resume the Services in accordance with the Contract as soon as practicable. If the suspension has affected the Consultant's ability to meet any delivery date under the Contract, the date for performing the part of the Services affected by the suspension will be extended for a period equal to the period of suspension plus a period, if any, that in the opinion of the Contracting Authority, following consultation with the Consultant, is necessary for the Consultant to resume the Services.

2.8 Termination due to default of Consultant

- 2.8.1 Except in situations identified in the GC 2.6.1, if the Consultant is in default of carrying out any of its obligations under the Contract, the Contracting Authority may, by giving written notice to the Consultant, terminate for default the Contract or part of the Contract. The termination will take effect immediately or at the expiration of a cure period specified in the notice, if the Consultant has not cured the default to the satisfaction of the Contracting Authority within that cure period. If the Contract is terminated in part only, the Consultant must proceed to complete any part of the Contract that is not affected by the termination notice.
- 2.8.2 If the Consultant becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or if a receiver is appointed under a debt instrument or a receiving order is made against the Consultant, or an order is made or a resolution passed for the winding down of the Consultant, the Contracting Authority may, to the extent permitted by the laws of Canada, by giving written notice to the Consultant, immediately terminate for default the Contract or part of the Contract.
- 2.8.3 If DFATD gives notice under the GC 2.8.1 or 2.8.2, the Consultant will have no claim for further payment except as provided under GC 2.8. The Consultant will be liable to DFATD for all losses and damages suffered by DFATD because of the default or occurrence upon which the notice was based, including any increase in the cost incurred by DFATD in procuring the Services from another source.
- 2.8.4 Upon termination of the Contract under this GC 2.8, the Contracting Authority may require the Consultant to deliver to DFATD or the Recipient Country, in the manner and to the extent directed by the Contracting Authority, any completed parts of the Services not delivered and accepted before the termination and anything the Consultant has acquired or produced specifically to perform the Contract. In such case, subject to the deduction of any claim that DFATD may have against the Consultant arising under the Contract or out of the termination, DFATD will pay or credit to the Consultant:
- (a) the value of the Fees for all completed parts of the Services performed and accepted by DFATD in accordance with the Contract;

- (b) the value of the incurred allowable Reimbursable Expenses as it relates to the Services performed and accepted by DFATD prior to the date of the termination notice; and
- (c) any other allowable Reimbursable Expenses that DFATD considers reasonable in respect to anything else delivered to and accepted by DFATD.

The total amount paid by DFATD under the Contract to the date of the termination and any amount payable under this GC 2.8.4 must not exceed the Contract price.

2.8.5 If the Contract is terminated for default under the GC 2.8.1, but it is later determined that grounds did not exist for a termination for default, the notice will be considered a notice of termination for convenience issued under the GC 2.9

**2.9
Termination

If the Contract is terminated in part only, the Consultant must proceed to complete any part of the Contract that is not affected by the termination notice. The termination will take effect immediately or, as the case may be, at the time specified in the termination notice.

2.9.2 If a termination notice is given pursuant to the GC 2.9.1, the Consultant will be entitled to be paid for costs that have been reasonably and properly incurred to perform the Contract to the extent that the Consultant has not already been paid or reimbursed by DFATD. The Consultant will be paid:

- (a) Fees for all Services performed and accepted before or after the termination notice in accordance with the provisions of the Contract and with the instructions contained in the termination notice;
- (b) the value of the incurred allowable Reimbursable Expenses as it relates to the Services performed and accepted prior to the date of the termination notice; and
- (c) all costs DFATD considers reasonable incidental to the termination of the Services incurred by the Consultant excluding the cost of severance payments or damages to employees whose services are no longer required, except wages that the Consultant is obligated by statute to pay.

2.9.3 DFATD may reduce the payment in respect of any part of the Services, if upon verification it does not meet the requirements of the Contract.

2.9.4 Upon termination of the Contract under this GC 2.9, the Contracting Authority may require the Consultant to deliver to DFATD or the Recipient Country, in the manner and to the extent directed by the Contracting Authority, any completed parts of the Services not delivered and accepted before the termination and anything the Consultant has acquired or produced specifically to perform the Contract. The total of the amounts, to which the Consultant is entitled to be paid under this GC 2.9, together with any amounts paid, due or becoming due to the Consultant must not exceed the Contract price. The Consultant will have no claim for damages, compensation, loss of profit, allowance arising out of any termination notice given by DFATD under this GC 2.9 except to the extent that this GC 2.9 expressly provides.

If a Third Party claims that equipment supplied under this Contract infringes any intellectual property right, [supplier name], if requested to do so by either [Consultant name] or DFATD, will defend both [Consultant name] and DFATD against that claim at its own expense and will pay all costs, damages and legal fees payable as a result of that infringement." Obtaining this protection from the supplier is the Consultant's responsibility and, if the Consultant does not do so, it will be responsible to DFATD for the claim.

3.8.3 If anyone claims that, as a result of the work, the Consultant or DFATD is infringing its intellectual property rights, the Consultant will immediately do one of the following:

- (b) modify or replace the work to avoid intellectual property infringement, while ensuring that the work continues to meet all the requirements of the Contract; or
- (c) refund any part of the contract price that DFATD has already paid.

If the Consultant determines that none of these alternatives can reasonably be achieved, or if the Consultant fails to take any of these steps within a reasonable amount of time, DFATD may choose either to require the Consultant to act in accordance with the GC 3.8.3 (c), or to take whatever steps are necessary to acquire the rights to use the allegedly infringing part(s) of the work, in which case the Consultant will reimburse DFATD for all the costs it incurs to do so.

DFATD reserves the right to impose sanctions, including Contract termination, in accordance with the GC 2.8, for any improper use of electronic media.
- 3.11 Economic Sanctions and Other Trade Controls**
- 3.11.1 The Consultant agrees that funding for the purposes of the Contract will not be knowingly used, either directly or indirectly, in a manner that contravenes economic sanctions imposed by Canada and enforced by regulations under the *United Nations Act* (R.S.C. (1985), c. U-2); the *Special Economic Measures Act* (S.C. (1992), c. 17); the *Justice for Victims of Corrupt Foreign Officials Act* (S.C.
