This Solicitation Amendment 002 is raised to incorporate Addendum #01.

Please find following Addendum #01.

**All other terms and conditions remain unchanged.**

•

The following changes in the tender documents are effective immediately. This addendum will form part of the contract documents.

## DRAWINGS

- .1 Reference: **DRAWINGS** Drawing A702 SECTION DETAILS
- a) **[REVISE]** Detail 1/A702: New air barrier membrane is to be slipped up under the existing building paper, as opposed to over as is currently indicated. Refer to revised detail 1/A702 on SK-1 attached.

## SPECIFICATIONS

- .1 Reference: **SPECIFICATIONS** Specification Section 01 11 55 General Instructions, 1.02 DESCRIPTION OF WORK:
- b) **[DELETE]** '.4 Removal and reinstallation of the existing windows and doors for new flashings and opening protection.'
- c) **[REVISE]** 1.02.5 to be renumbered 1.02.4, with the deletion of current item .4.
- .2 Reference: **SPECIFICATIONS** Specification Section 07 42 13 Gutters and Downspouts, 2.01 MATERIALS:
- a) **[ADD]** '.6 Decorative rain chain downspout: series of metal cups with holes in top and bottom, connected together through center with chain, suspended through gutter opening above and extending to an on-grade splashpad.
- .1 Material: stainless steel or aluminum.
- .2 Smooth round cup style:
- .3 86mm high cups.
- .4 tapered from 89mm diameter top to 38mm diameter bottom.
- .5 Installation kit with pin, for attachment within the gutter and flow constrictor, to direct water to the center of the chain.'
- b) **[REVISE]** 2.01.2 'Downspouts/rainwater leaders...' to be renumbered to be 2.01.5 to reflect correct sequencing.

## Questions and Answers:

1. Question: Has the municipal Building Permit been applied for? Or will this be the responsibility of the Contractor.
- Answer: *The Resort Municipality of Whistler will not require a building permit for this renovation. Therefore, not applicable.*
2. Question: Will the Architect be engaged by PWGSC to be the Coordinating Registered Professional?
- Answer: *Boldwing Continuum Architects Inc. (BCAI) has been retained by PSPC.*
3. Question: Will the Architect be conducting envelope inspections and providing letters of assurance and schedules?

*Answer: Boldwing Continuum Architects Inc. will review the contractors work at random periods. BCAI will provide a letter of substantial completion when the project is completed. As there is no permit required there is no need for Schedules.*

4. Question: Specification 01 11 55 1.02.4 refers to removal and reinstallation of existing windows and doors for new flashings and opening protection, however drawing key notes 08E-1 states windows to remain, doors 08E-2 and 08E-5 remain. Although we suspect the intent is for the windows to remain, please clarify.

*Answer: Doors and windows are to remain, and not be removed. Reference removed from Section 01 11 55.*

5. Question: Keynote 8-18 remediation of door/sidelites is dependent upon the hazardous material report, which states abatement and replacement is required if these components will be disturbed during work. We expect no disturbance will occur and are not pricing this scope of work. Please confirm this assumption or clarify this scope of work and provide door specifications.

*Answer: If the components are not disturbed, no remediation is required.*

6. Question: Will engineering be required for keynote 07-19 installation of a new metal chain?

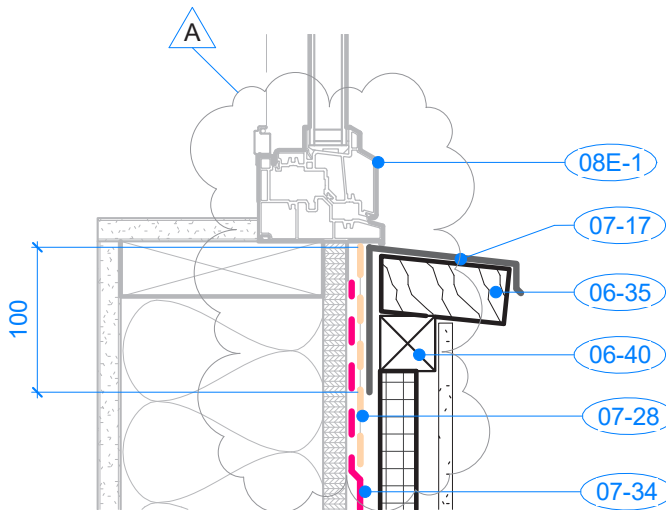

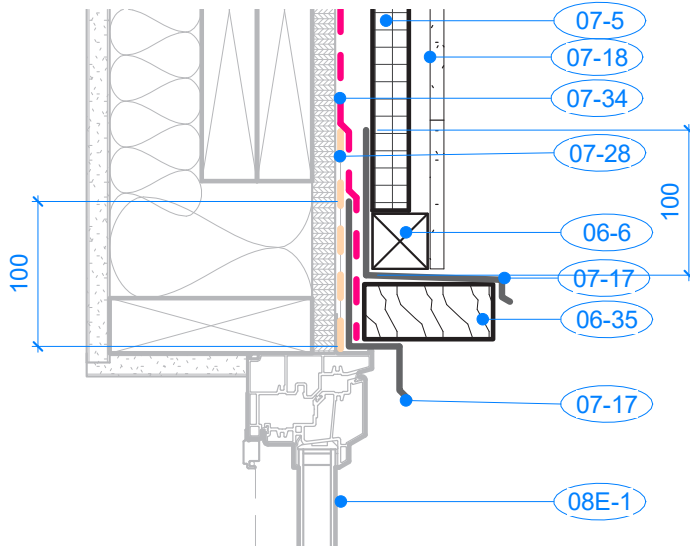

*Answer: No engineering is required. Product specification further clarified per Section 07 42 13 2.01.6.*

7. Question: What do you anticipate the date of award to be?

*Answer: It is anticipated that the subject contract work will be awarded within two weeks of bid closing date.*

**END OF ADDENDUM #01**
