### A) QUESTIONS AND ANSWERS

### B) AMENDMENT TO THE TENDER DOCUMENTS

### A) QUESTIONS AND ANSWERS

Number	Question(s)	Answer(s)
39	We understand that the Principal Architect in charge has the role of Project Authority, but can you please specify the definition of the "Contract Administrator" resource?	The Contract Administrator, as part of the prime architect's team, is responsible for administering and implementing compliance with contract documents, ensuring quality control and providing the continuous and timely flow of required project documents from commencement of design until project close out. These project documents include, but are not limited to: design deliverables and action items, tender documents, evaluations, meeting minutes, shop drawing review flow, request for information, proposed changes, supplemental instructions, change orders, progress draws, certifying certificates for payment, field reviews, deficiency reviews, close out documentation and sign off letter.
40	The RFP- AMENDMENT 4 indicates that the baseline model is in Energy Plus and we are to validate this model and then calibrate it. Does this indicate that Energy Plus modeling is required for this project or will proponents only get a report based on Energy Plus software and none of the proponents will have an advantage by already having a Baseline Model that they developed themselves? Also, will other software such as eQuest or IES-VE be acceptable and if used put us at a disadvantage to the other proponents?	The baseline energy model is in Energy Plus but other energy modeling software are acceptable for producing the energy model of the future design. The future modeling will need to be validated and calibrated against the baseline model report. As per PD9.2 Background Documents, Item 7 – the Baseline energy model will be provided to the successful proponent.

41	We would like to re-request an extension for an additional two weeks in order to properly respond to this Request for Proposals, particularly given the industry slowdown caused by the construction vacations, but also given the complexity of the mandate.	Solicitation Closes at - 02:00 PM Eastern Daylight Saving Time (EDT) on September 03, 2020.
