This Amendment #003 is raised to issue the following changes:

1: Incorporate a revised APPENDIX 1 – COMBINED PRICE FORM

2: Incorporate Addendum No. 02

1: Previously issued APPENDIX 1 – COMBINED PRICE FORM is now replaced with APPENDIX 1 – COMBINED PRICE FORM (REVISED) dated 10 August 2020

The APPENDIX 1 – COMBINED PRICE FORM (REVISED) dated 10 August 2020 must be used when submitting your bid. Any bid submitted on a previous version of the APPENDIX 1 – COMBINED PRICE FORM will be considered non-compliant and therefore disqualified.

Please see the attached APPENDIX 1 – COMBINED PRICE FORM (REVISED) dated 10 August 2020.

2: Please see the attached Addendum No. 02

The addendum will form part of the contract documents.

All other terms and conditions remain unchanged.

The following changes in the tender documents are effective immediately. This Addendum will form part of the contract documents.

Question #1: Can a 1 week extension be given for submission?

Answer #1: No extension will be provided

Question #2: For the contaminated soils, soils, and purge water, can these items remain at each site location until entire project is complete. At completion these would be picked up and disposed of.

Answer #2: Yes, this is acceptable,

Question #3: Many of the submittals requested in the RFP are to be submitted after project award. Can the client please confirm what documents they are requesting at time of initial submission, besides the following.

Bid Acceptance Form

Appendix 1- Pricing

Appendix 2- Integrity Provisions

APPENDIX 3 - VOLUNTARY CERTIFICATION TO SUPPORT THE USE OF APPRENTICES (if applicable)

Answer#3: The only other requirement is Bid Security.

Question #4: Regarding line 5 sustainment – Person per day price – Crew size will be more than one person, likely six all together. Should this price reflect all crew members or just one? If it is to reflect one person only, then when billing for full crew later be acceptable?

Answer #4: The line items for sustainment (5 & 19) refers to the cost for a complete drilling crew for each operating drill rig. The Unit Price Table has been updated to reflect this.

Question #5: We will require vac truck to be onsite alongside the sonic rig for slurry and sediment control, serve as water truck and potentially daylighting if needed. Which line item should we include the price for the hydrovac/water truck?

Answer #5: Please see Addendum #1 Q&A #3 for clarification on the water truck. Assume no hydrovac truck will be required for the sonic drilling at this time.

Question #6: Who is paying for the remediation fee at the disposal facility?

Answer #6: The pickup, transportation and disposal costs should all be captured under lines 15, 16, 17, 28, 29 & 30 of the UPT

Question #7: Please confirm the price of the bond required?

Answer #7: If you are submitting a Bid Bond as security the value required is ten percent (10%) of the value of your bid.

Question #8: Original RFQ stipulates a 4x4 Auger truck drill – which we have and meets the specifications. However, it was mentioned that the type of auger rig required may change to a track drill. Has it been changed?

Answer #8: Please see Addendum #1 for changes to Specification Section 33
21 10 Environmental Drilling

Specification Section 01 25 20 Mobilization and Demobilization
