**REQUEST FOR QUOTATION AMENDMENT NO. 002**

Request for Quotation Amendment no. 002 is raised for the following reason:

- To address questions.
- 

**Question 5**

Can Canada please provide us with a copy of all information regarding the client's environment that was provided to Checkpoint or their reseller for this solicitation and any previous related solicitations?

**Answer 5**

Unfortunately no Canada cannot provide that information.

**Question 6**

Can Canada please describe the requirements in a generic form in terms of functional and operational requirements, rather than providing in Annex A a list of Checkpoint part numbers and quantities that was quoted to Canada by Checkpoint or their reseller?

**Answer 6**

At this time, Canada will not be providing a generic form in terms of functional and operational requirements. Plus use the product information in Annex A.

**Question 7**

Can Canada please provide a network diagram of the client's environment that can be linked to a list of existing equipment, and also provide us with this equipment list?

**Answer 7**

No Canada will not be providing a network diagram of the client's environment.

**Question 8**

If Canada has any questions if any non-Checkpoint products and services can meet the "legitimate operational requirements" of the end-user client, will Canada allow us to provide a demonstration of these products, including support on Checkpoint or equivalent products?

**Answer 8**

Due to timelines we cannot do any demonstrations.

**Question 9**

Can Canada please amend this solicitation to delete "Section 2.1 d)(ii) No Substitute Products"

**Answer 9**

At this time Canada will not be allowing any other products then what is being asked for in Annex A.

**Question 10**

Can Canada please delete the following section?

“5.2 Optional Goods and Services

a) The Contractor grants SSC the irrevocable option to acquire additional quantities described in Annex A - List of Deliverables and Prices of the Contract under the same terms and conditions and at the prices and/or rates stated in the Contract for the Client or any other government institution for whom SSC’s services are either mandatory or optional at any point during the term of the contract. The option may only be exercised through contract amendments.

b) Canada reserves the right to add new delivery and invoicing locations when exercising the optional quantities.”

**Answer 10**

No Canada will not be deleting this section. The client would like to have option years.

**Question 11**

Can Canada please provide to us all of the same information that was provided to the person at Checkpoint who prepared the quote for SSC for Checkpoint part numbers and quantities that are in Annex A of this solicitation?

**Answer 11**

All the same information has been provided.

**ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.**
