QUESTIONS AND ANSWERS

Question 5 :

Mandatory technical specification, 3 - The motor enclosure must be UL type EE explosion proof
Do you want a machine with ONLY UL Type EE certified motors, or do you want a machine that is fully UL Type EE certified?

Answer : It is mandatory that the entire scrubber is UL Type EE Certified. This also implies that all electric connexions must be sealed to avoid any risk of sparks.

Question 6 :

It is required to have a charger integrated into the machine. This is incompatible with the EE configuration because the integrated charger is not EE.

Answer : Ideally, the charger must be integrated into the machine. However, If it is not possible to include that option, an external charger can also be accepted.
