1. Category Selection

**Combined Categories Rule:**

For reasons of compatibility, the following categories will be combined for evaluation and contract award purposes:

The rule only applies to the categories below that are checked. The unchecked categories will be evaluated separately and may be awarded to multiple suppliers;

**Category 1**

**Category 2**

**Category 5**

**Design Upgrade Rule:**

The IU may exercise an option to upgrade products up to 20% of each Category product total before Applicable Taxes after contract award.

The Design Upgrade amount is used at the discretion of the Project Authority (PA) **prior to the manufacturing/ordering of the products**, the PA will provide the Contractor with a written notice of Canada's Design Upgrade choices for each of the product(s) to be upgraded. The Contractor will provide the pricing of the upgraded product(s) to a maximum of 20% of each Category Contract Price of Table 8. The Contracting Authority will issue an amendment to the contract with the Design Upgrades and pricing.

The Supplier certifies that all the Design Upgraded products offered will conform to all specifications and meet the testing requirements detailed in the Specifications of the Supply Arrangement.

Design Upgrade: is the process of replacing a product with a more innovative or enhanced version of the same product.

**NSA:**

NSA products can be incorporated in the RFB and must not exceed 30% of the firm quantity by category. NSA items must be added to the category that is most closely related and must be generic.

The requirement includes the following category(ies) of work:

Category 1b – Supporting components and freestanding furniture

**RULE:** Metal Storage

b.  Category 2 – Freestanding Height Adjustable Desk / Table Products

c.  Category 3 – Metal Filing and Storage Cabinets

Identifying the maximum height of the Personal Storage Towers, Wardrobes and Storage Cabinets is acceptable as per 6B. 4.1 of the SA (table 1 Additional product details)

d.  Category 4 – Wood Veneer – Freestanding Products

e.  Category 5 – Ancillary and Lighting Products

f.  Category 6 - Support Space – Collaborative Furniture

Space is defined as a location available for a particular purpose such as a meeting room space or a collaborative space. Like products are defined as products with similar design and construction. If NSA products form part of the requirement, the IU must validate the 30% NSA prior to subdividing the category. NSA products can be added to any subdivide or in its own subdivide.
