Statement of Work

1. Background

The Government of Canada (GC) is investing in new High Endurance Search and Rescue (SAR) Lifeboats to ensure that the Canadian Coast Guard (CCG) has the equipment they need to keep Canadians and Canadian waterways safe. Two shipyards are in the process of building a combined total of twenty (20) vessels, known as the Bay Class, for various search and rescue stations across Canada. Named after Canadian Bays, the vessels are being constructed by:

- Hike Metal Products (HMP) (Wheatley, ON); and
- Chantier Naval Forillon (CNF) (Gaspé, QC).

Four (4) of these vessels are to be stationed on the West Coast in British Columbia (BC). The first set of two (2) Bay Class vessels have already berthed at their respective stations, namely the "CCGS McIntyre Bay" (HMP) stationed in Prince Rupert, BC, and the "CCGS Pachena Bay" (CNF) stationed in Port Hardy, BC.

1.1 Specific to the Requirement

The last set of two (2) vessels destined for BC are presently under construction and are nearing completion. They are the:
