**This amendment has been raised to respond to the following questions:**

**Question 1:** During the walkthrough MCC 4 location was not provided, would it be possible to get the location?

**Answer 1:** See attached MCC #4.

**Question 2:** Could you please let us know where the following panels are located?

- a. Panel 2-2A
- b. Panel B-2EA

**Answer 2:** See attached Panel 2-2A and Panel B-2EA.

**Question 3:** Can the electrical contractor re-use existing MCC disconnect switches if sized properly? Or is all expected to be new as per the drawings?

**Answer 3:** Existing MCC Disconnects can be utilized if they are in a “good as new” condition.

**Question 4:** Please provide pipe sizing for the steam supply to each AHU.

**Answer 4:** Steam supply branch to each AHU to be 50Ø unless noted otherwise. Connect into 100Ø LPS down stream of isolation valve shown on drawings.

**Question 5:** AMCC 2 could not be found during the walkthrough, we were wondering if someone would be able to confirm the location and distance from the main electrical room so the new feeder length shown on the single line can be included in the tender.

**Answer 5:** It is contractor responsibility to confirm feeder length. Please see attached for MCC #2 location.

**All other terms and conditions of the Invitation to Tender remain unchanged.**
