

Addendum #1

This solicitation addendum is issued to:

1. Provide the following questions and answers:

Q.1. Our security team had the following question regarding 5.4 Stage 2 – Mandatory Technical Requirements: **MTR.8** *All data must remain in Canada in the proposed hosting environment. All data stored in the proposed hosting environment can only be accessed (including access for the purpose of technical and operational support) by individuals residing in countries where Canada has a bilateral agreement on security.*

Given that the data being scanned for this project will be on the CMHC public facing website and does not include sensitive and/or protected or secret information, would data residency in Canada still be required?

A.1. At this time, the Mandatory Requirement (MTR.8.) will remain unchanged as CMHC often prepares content that must remain confidential prior to publishing and as a result not all of the content being scanned would be public facing at the time of the scan.

Q.2. There seems to be a discrepancy between year 5 and years 1 to 4 in the pricing form. Can you clarify that Year 5 would be **January 1st, 2025 – December 31st 2025** instead of **January 1st 2024 – September 30th, 2025** as listed in the screen shot below?
