BIDDERS QUESTIONS AND RESPONSES FROM CANADA

I have a few questions about the pricing table.

Question 1: Is the shop hourly rate for years 1-4 to be hourly rate or multiplied by 10 hours?

Response 1: The rate that must be entered is the hourly rate. Canada will multiply the hourly rate by 10 hours per year and add the extended totals to determine the Evaluated Price.

Question 2: For the discount from Manufacturer's suggested retail price for parts and accessories for MRTW, is \$1,000 an example or are you requesting the OEM RSPL total price for parts to support qty 4 sights?

Response 2: The \$1,000.00 is just an estimate of the annual usage that we will use to calculate the Evaluated Price.

Question 3: For %, are you looking for the discount off of Retail for all spare parts for years 1-4?

Response 3: Yes we are looking for the discount from the manufacturer's suggested retail price of the spare parts for each year.
