BIDDERS QUESTIONS AND RESPONSES FROM CANADA

Question 4: What are the specific requirements for the laser pointer other than the wavelengths specific, e.g. laser class, output power, beam divergence, etc.?

Response 4: NIR somewhere between 840nm and 860nm, no more than class 3B on high setting and low setting class 1, beam divergence no more than 0.75mrad, VIS GREEN 520nm, no more than class 3B laser, beam divergence no more than 0.75mrad

Question 5: The table in section 4.2 of the RFP outlines the rating criteria for the bid, but as it does not outline any criteria for the laser pointer, will this table be updated, or will the bid be evaluated without any points value attributed to a laser pointer?

Response 5: No table needed, laser pointer in green and IR as identified is mandatory.

Question 6: As per section 6.4.2 of the RFP, all deliverables for pricing "A" are to be delivered 60 days post contract award. Is there currently an anticipated contract award date for this group that can be shared?

Response 6: Contract award date immediately after RFP closes and bid evaluation is completed.

Question 7: Due to this new requirement being a significant change of scope from that of the RFSA, and that we need the responses to these questions in order to build a viable RFP response, can the closing date of the RFP be extended by 2 weeks?

Response 7: There will be no extension to the closing date.
