This Amendment 004 is raised to address questions from the Industry.

Questions and Answers

Question 2:

On the drawings, it seems there's a pedestal to each working station, but there's no pedestal in the listing and in the document. Do you need one and if yes, which item/part# would it be?

Answer 2:

These are not pedestals. These are personal storage towers and they were purchased already as part of another project.

Question 3:

On the drawing, you have positioned the ceiling pole in the middle of a line of panels, but for the good use of it, we will put it in a corner where there's a post, will the Contracting Authority accept this?

Answer 3:

I cannot see where this ceiling pole is. I believe you are referring to a pac pole. You can position pac poles wherever you deem feasible unless there are site restrictions.

Question 4:

In the (3) workstations at the top left of the plan, the height adjustable tables on the CAD plan are 24"D rather than 30"D like the others however those (3) appear to be in the total of (38) tables - Line #1 under CAT 5 - 2WSSREXXL30L48BELXX.

Could the client please clarify the dimension of those (3) tables?

Answer 4:

This would be a drawing error. If they are included in the count of 30x48 height adjustable tables, then they should be 30x48.

Question 5:

What is the ceiling height - this is required to specify the correct power pole height.

Answer 5:

The floor to ceiling height is 10' high.

All other Terms and Conditions remain unchanged.
