

## Annex E – Mandatory Evaluation Criteria

Item #	Reference	Requirement	Proof of Compliance	Bid Reference
1	Annex A - SOW section 1 and 2.  Annex B - LOG SOW section 7.3	The Bidder must provide a Repair and Overhaul Plan which clearly demonstrates how it meets the 90 days turnaround time (TAT) for completion of work for the R&O item list in Annex A section 1. The plan must demonstrate how the Bidder will mitigate a work stoppage or slowdown of the repair line due to lack of parts which support this requirement.	Substantive Information	
2	Annex B LOG SOW section 8.7 & section 8.12	The Bidder must provide data to demonstrate that the R&O facilities have loading bays in sufficient numbers, size and location as to accommodate commercial transport vehicles, especially allowing for safe and efficient functioning of public roadways.	Substantive information including quantity, size and configuration of loading bays and area map.	
3	Annex B LOG SOW section 8.7	The Bidder must specify how DND equipment and parts awaiting repair and those that are serviceable awaiting return are securely stored in the R&O facility and protected from exposure to weather and physical factors that can lead to damages.	Substantive Information including security features of facility.	
4	Annex B LOG SOW section 8.7	The bidder must provide a floor plan drawing showing the facilities and secured areas, including a list of material that will be used to protect the DND assets.	Floor plan including protective material list.	
5	Annex A SOW section 3 and 4.	The Bidder must provide documentation proving that they have access to the Original Equipment Manufacturer (OEM) for specification(s) updates, service bulletins and engineering support for the items, which are still subject to current OEM specifications, as listed in para 1 of this SOW. Since some of the parts are no longer being manufactured by the Steyr OEM, DND requires the	Documentation	

		contractor to use OEM parts or compliant substitutes which allow access to the technical documentation that may be available from various distribution centers or suppliers. The bid must include information on how the contractor will manage the different sources of supply and technical documentation.		
6	Annex A SOW section 2.	The Bidder must provide a curriculum vitae that clearly demonstrates a minimum of three (3) continuous years of experience during the last 15 years in providing R&O services for the items included in this SOW or similar items.	Company Profile/History	
7	Annex A SOW section 2.	The Bidder must provide a curriculum vitae for the Repair and Overhaul Manager (R&OM) which demonstrates a minimum of three (3) continuous years in the last eight (8) years in managing similar R & O work for which the bid is being submitted and a minimum of one (1) continuous year in the last five (5) years of supervisory experience.	Curriculum Vitae
