This solicitation amendment one is raised to answer bidders' questions and to make changes to the Statement of Requirement (SOR).

Q1) Re: Section 1.0 Requirement , pt 1.1: Gauge of steel is listed at **minimum** 17 GA. Steel gauge numbers run inverted to thickness level, so 17 GA would be thicker than 18 GA, etc. Would RCMP consider revising this clause to a range of gauges between 23-16 to incorporate some thinner inner lining components of the lockers?

A1) Yes. See SOR 1.1 revised.

Q2) Re: Section 1.0 Requirement, pt 1.3.1: Would RCMP consider a locker that can be bolted by back (to wall or back-to-back) and sides, but NOT specifically to floor?

A2)NO, we do not want it bolted to the floor. Top and "bottom" refers to the top and bottom of the back of the locker, not to the floor. See SOR 1.3.1 revised.

Q3) Due to COVID, the current lead time on the requested product is presently 15 weeks. Please advise how to proceed as the bid states 8 weeks.

A3) Due to operational reason, RCMP can only extend lead time by an additional two weeks. Please see change to term of contract.

Q4) Our (*redacted*) lockers are welded 18gauge steel with a welded box-type door. (2 complete 18 gauge panels to form a box). Will this be permitted?

A4) Lockers proposed must meet the requirements as stated in Annex A. Proposals will be evaluated after bid closing.

Annex A: Statement of Requirement (Changes)
