Question and Answer

Q1: Drawing G110 – Anchor Tables. Area B – Anchor table shows anchor ID # B002 & B003 having the same chainage of 12 and height at 8m. Please confirm the correct values or if there is only 1 anchor for this chainage.

A1: We noted a large block that would require two anchors. The chainages and heights are only approximate for our reference and there will be an element of field fit for the actual installation. If there's any discrepancies the numbers in the anchor table should govern (engineer can review on a case by case basis if there are any more similar questions).
