---

This amendment NO 005 includes answers to questions raised by potential bidders and an amendment.

**Question 60:**

**RE: CM1 & CR1**

TBS is accepting proof of experience based on contract value. Value means nothing in terms of experience if no services are delivered. To ensure that the criteria is measuring experience that matches the stated requirements, we suggest that Bidders must be required to present evidence of billings in excess of \$1,000,000 in order for the contract to be considered valid.

**Answer 60:**

Canada has reviewed the request, however the requirement remains unchanged. In addition to the response to question 41, Bidders should pay attention to Section 2 of the Response Template Form in Attachment 4.3, which states that Bidders must provide:

Contract Summary (description of the key scope and responsibilities)

**(NOTE:** The substantiation must not simply be a repetition of the requirement but must explain and demonstrate how the Bidder meets the requirement.)

**Question 61:**

**RE: Amendment 4 Q and A 39**

We are concerned that the changes of Amendment 4 - namely the effective reduction of the number of SAP HANA contracts required for CM1 and CR1 - is not in TBS's best interest. A single contract with the value of \$3 million could now score full points however:

- (i) it is less than the minimum financial threshold for a Tier 2 TBIPS which is \$3,750,000.00
- (ii) it represents less than 50% of the forecast of the RFP (31 resources)
- (iii) without demonstrated revenues it is no measure of experience nor the capability needed to fulfill the stated requirements.

To measure a Bidder's experience and capacity to meet TBS's requirements for this important project, we urge TBS to:

1. Revert to the previous approach and not allow segments of contracts be counted.
2. If segments of contracts are allowable then revert to the original requirements of 2 contracts per field of activity for CM1 and an additional 2 contracts for each field in CR1.
3. In any scenario, the contract value should be the amount actually billed and not just the awarded or face value of the contract. Reports to substantiate this should be required with the Bidder's proposal.

**Answer 61:**

Canada has reviewed the request, however the requirement remains unchanged.

**Question 62:****RE: Amendment 4 Q and A 33 & 34**

Please refer to Answers 33 and 34 (Amendment 004). Considering the criteria that the client has decided not to change despite heavily detailed arguments, it is alarming that two rated criteria constituting 10 points and 2 certifications for the same category have been severely altered merely because someone asked for it "in order to ensure a fair and competitive process and be consistent with the project reference section." There is nothing in the project reference section indicating that 12 months experience is equitable with a high-level certification in Project Management, let alone two certifications, nor have any other rated criteria requesting certifications been removed or allowed to be replaced with experience.

Additionally, "12 months of experience with Activate methodology" is a vague statement and the client has provided no explanation of how 12 months of experience with a methodology can be demonstrated. By our interpretation, a consultant who has a valid SAP Activate certification and a valid PMP certification scores no better than an uncertified consultant that joined a project in the middle of a lifecycle where SAP Activate was already being followed.

We therefore ask that this grid be reverted to the previous version so that the skillset for certified Project Managers are still recognized in the rated criteria.

**Answer 62:**

Canada has reviewed the request, however the requirement remains unchanged. To demonstrate 12 months of experience with Activate methodology, the Bidder should demonstrate that the proposed resource was responsible for the planning, for the use of, and for the application of the SAP activate methodology on an SAP project. See amendment below.

**Question 63:**

Due to the extensive layered changes to the grids, will the Crown please reissue all of the updated grids so that there is no confusion amongst all Bidders?

**Answer 63:**

The questions and answers provide Bidders with all the required information to prepare their bids. As Canada is still receiving questions with regard to this solicitation, there is no point in updating all the grids.

**Question 64:**

Please refer to Q and A 40 where the answer indicates that "for CM1 and CR1 Canada will accept contract references SAP version ECC 6.0 or higher. See amendment below". The Bidder can't see the amendment to CR.1 accepting contract references SAP version ECC 6.0 or higher. Please update CR1 with respect to Q and A 40 as it isn't clear what the requirement change is without an updated grid.

Solicitation No. - N° dell'invitation

Amd. No. - N° de la modif.

Buyer ID - Id de l'acheteur

24062-200609/A

005

606el

---

**Answer 64:**

See amendment below.

**Question 65:**

**Resource Rated Requirements: ERP Programmer Analyst - Fiori Programmer, Requirement R2**

As the Government of Canada's CLF & WET are both based on WCAG 2.0, would the Crown accept experience with WCAG 2.0 as equivalent to experience with CLF for 5 points on requirement R2?

**Answer 65:**

Canada has reviewed the request, however the requirement remains unchanged.

**Question 66:**

**Part 3 – Bid Preparation Instructions: 3.2: Section I: Technical Bid, item (v)(B): Educational Requirements**

Please confirm that for educational requirements where an academic credential assessment is in progress, the education will be accepted as long as the assessment is received prior to contract award.

**Answer 66:**

The assessment is required at bid closing for points to be allocated. Canada cannot delay the evaluation process of bids nor awarding a contract until an assessment is received.

**Question 67:**

The Government of Canada is undertaking a large and complex business transformation by implementing the Digital Comptrollership program that is enabled by S/4HANA. Consequently, the Crown has clearly articulated the need for a partner that can provide the depth and breadth of skilled resources from across Canada that can guide this transformation and achieve the defined business outcomes.

The response to Question 39 deviates from this approach. Although S/4HANA is a relatively new technology for the GC, it has been implemented across Canada in both public and private sector enterprises. Major firms, who specialize in S/4HANA integration, should have no difficulty providing a number of client examples that meet the Corporate Mandatory and Rated Criteria that was defined in the original RFP, and reduced further in Amendment 1.

Considering the nature of the transformation and the specialized skills and experience required to complete this work, we feel the Crown is adding considerable risk to the program by lowering the Corporate Mandatory and Rated Criteria, as defined in Answer 39.

We ask that the Crown reconsider the answer to Question 39, and keep the number of project references as originally defined in Amendment 1.

---

**Answer 67:**

Canada has reviewed the request, however the requirement remains unchanged.

**Question 68:**

**Re: Q and A 56**

The R4 grid requirement for the P.5 Project Executive - Senior Project Leader requires SAP projects for a Federal Government department, agency, or Crown Corporation with a minimum duration of four (4) months. Yet the grid for the P.8 Project Leader - Release Management and Project Lead requires SAP projects for a Federal Government department, agency, or Crown Corporation with a minimum duration of six (6) months. It is unclear why the Crown would accept four (4) month durations in one grid and not the other.

Will the Crown revise the R4 requirement of P.8 Project Leader - Release Management and Project Lead to accept project durations of four (4) months minimum?

OR

Will the Crown increase the R4 requirement of P.5 Project Executive - Senior Project Leader to be a minimum duration of six (6) months in duration to score full points?

**Answer 68:**

Canada has reviewed the request, however the requirement remains unchanged.

**Question 69:**

**With respect to Q and A 22 in Amendment 3**

In amendment 3 question 22, TBS suggested that Bidders are to: "explain the responsibilities of that resource under the contract and demonstrate how the work was carried out while performing the tasks." For non-matching roles Bidders will be providing a list of tasks performed - which seems to equate to explaining the responsibilities of the resource.

We respectfully request that the Crown consider each Bidder's proprietary corporate SAP implementation methodology as substantiation as to "how the work was carried out while performing the tasks".

**Answer 69:**

Canada has reviewed the request, however the requirement remains unchanged.

**Question 70:**

Please refer to ATTACHMENT 4.1 MANDATORY TECHNICAL CRITERIA, RESOURCE MANDATORY REQUIREMENT, SAP Business Planning and Consolidation and Functional Support, **A.3 ERP Programmer Analyst - Fiori Programmer Level 3**

**M2:** The Bidder must demonstrate that the proposed resource has a minimum of one hundred and twenty (120) months of combined experience\*, prior to solicitation issuance date, developing SAP systems using one or both of the following:

i. SAP Application Development technologies

ii. Object oriented programming techniques

Will the Crown please define SAP Application Development technologies and provide examples of what would be compliant?

**Answer 70:**

SAP Application Development technologies can range from any development tools used in SAP environment, API's and development for applications that connect into the SAP environment.

**AMENDMENT:**

**AT Attachment 4.1 – Mandatory Technical Criteria  
MANDATORY CORPORATE REQUIREMENTS**
