AMENDMENT 005

Answer questions from the industry.

Enquiries - Bid Solicitation - Clause # 2.4

To ensure consistency and quality of information provided to bidders, significant enquiries received and the replies to such enquiries will be provided simultaneously to bidders to which the bid solicitation has been sent, without revealing the sources of the enquiries.

Here are the questions which we have received until now:

Question #2: Can a Bachelor of Industrial Engineering be accepted as a university degree?

Answer #2: A bachelor's degree in Industrial Engineering will not be taken into consideration by the evaluation team?

Question # 3: When submitting bid, do all or part of the proposed resources must hold a valid personnel security screening at the level of SECRET? If so, please indicate the category (s) of resources involved as well as the number of resources for each category that are required to comply with the security requirements of the Request for Proposal (RFP)?

Answer # 3: At *Attachment 1 to Part 4 - Technical Criteria, 2. Mandatory Technical Criteria*, Criterion *MTC-1*, we only specified that the bidder had to propose a determined number of resources by category of resources and we did not specified the level of security of the proposed resources.

It is however mentioned in section *6.1 Security Requirements*, article 6.1.1 that "Before award of a contract, the following conditions must be met: ...

b. the Bidder's proposed individuals requiring access to classified or protected information, assets or sensitive work sites must meet the security requirement as indicated in Part 7 - Resulting Contract Clauses; ... "

Project activities are not yet known to the PWGSC client department and cannot currently establish security levels. They will determine the level of security when granting Task Authorizations (TA). For each level of Project Manager, either Senior, Intermediate or Junior, the security level can be RELIABILITY or SECRET.

For bid evaluation purposes only, the bidders must provide us with resources for each category required with at least a valid RELIABILITY STATUS, granted or approved by CISD/PWGSC

****ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME****
