Question 6

In response to the Crown's answer found in Amendment 002 for RFQ 2BH070577, Question 4:

Question 4

Would the Crown accept 1 x 3.5mm Microphone port , 1 x 3.5mm Headphone port instead of 1x Audio In/Out Port?

Answer 4

No, a 1x Audio In/Out Port is required.

The Crown has previously confirmed that 1x Audio In/Out is required. What if a proposed docking solution has separate Microphone and Headphone ports, and includes an adapter cable that merges these connectors into a single input? This cable would be 6" long, and would have a 1x Audio I/O (F) input (as specified in the tender), and output 1x Mic and 1x HP (M), which would connect to the docking station. Would this be acceptable?

Answer 6

No, this is not acceptable.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
