

Request for Qualification #289: Audit, Special Examination and Related Services (Amendment #1)

Annual Refresh of Permanent Suppliers List Resulting from Request for Standing Offers #256 and #264

The permanent suppliers list resulting from RFSO #256 (Audit and Related Services) and RFSO #264 (Special Examination Auditing Services) is a procurement tool for the provision of professional services to the Office of the Auditor General of Canada (“**OAG**”) in support of audits and special examinations for specific requirements on an “as and when required” basis where the estimated expenditure exceeds \$108,400 (including applicable taxes).*

The OAG conducts independent audits and studies that provide objective information, advice and assurance to Parliament, territorial legislatures, boards of Crown corporations, government and Canadians. The OAG’s head office is located in Ottawa and its four regional offices are located in Vancouver, Edmonton, Montréal and Halifax. Please see www.oag-bvg.gc.ca for further information about the OAG.

This qualification solicitation is intended as an invitation to qualify for refreshing the permanent suppliers list on an annual basis. The period for awarding any contracts resulting from a bid solicitation under this permanent suppliers list ends December 31, 2022 or at such earlier time as the OAG no longer considers it to be advantageous to use the list. This qualification solicitation permits new suppliers an opportunity to qualify at any time between the annual refreshment of the permanent suppliers list by responding to the most recent refresh terms and conditions. For greater certainty, this qualification solicitation is intended only for the purpose of refreshing the OAG’s permanent list of qualified suppliers. This qualification solicitation is not intended as a solicitation of bids or tenders for the purpose of awarding any standing offers or contracts and is not to be considered as a commitment to issue any bid solicitation or contract for any specific requirement.

The following five (5) service delivery streams (“**Streams**”) apply to the permanent suppliers list: Stream 1 – Financial Audits; Stream 2 – Systems and Information Technology Audits; Stream 3 – Financial Instruments Audits and Related Consulting Services; Stream 4 Actuarial Services; Stream 5 – Special Examination Auditing Services. Any supplier, who is the person or entity responding to, and compliant with, the requirements of this qualification solicitation and having legal capacity to contract (a “**Bidder**”), is invited to submit a proposal with their expression of qualification for placement on the permanent suppliers list.

Existing qualified suppliers are not required to requalify, as this process is intended to enable the ongoing opportunity for qualification by new suppliers. Suppliers have previously qualified for the permanent list by submitting proposals that were selected for standing offer award or where otherwise responsive to, and compliant with, the requirements, terms and conditions of the above-noted procurement processes. This qualification solicitation permits new suppliers to qualify under one or more Streams and existing suppliers to qualify under one or more additional Streams. Proposals will be evaluated separately and independently for each Stream in a manner consistent with the above-noted procurement processes as further described in Section 3 (Basis and Method of Evaluation) of this qualification solicitation.

***Note to Bidders:** This permanent suppliers list only applies to specific requirements exceeding the competitive ranking methodologies and call-up procedures set out the standing offers awarded as a result of the above-noted procurement processes. The permanent suppliers list may be used by the OAG, in its sole and absolute discretion, to solicit bids where the estimated expenditure in respect of the work exceeds \$108,400 (including applicable taxes) for audit, special examination and related services. The permanent suppliers list may also be used by the OAG, in its sole and absolute discretion, to solicit bids where the estimated expenditure in respect of special examination auditing services exceeds \$40,000 for specialized expertise.

Permanent List of Qualified Suppliers

Where bids are solicited for specific requirements, the OAG may, in its sole and absolute discretion, select a minimum of three (3) suppliers from the permanent suppliers list on a rotational basis and post a Notice of Proposed Procurement (NPP) on the Government Electronic Tendering Service (GETS). Selected suppliers will be emailed an invitation directly after the NPP is posted on GETS.

At a minimum, each bid solicitation will provide suppliers with twenty-four (24) calendar days to submit a bid, which amount of time may be decreased or extended at the OAG’s sole and absolute discretion. Suppliers may not submit a bid in response to a solicitation unless they have been invited to do so. Should a qualified supplier wish to be invited, it may contact the OAG to request an invitation at any time prior to five (5) days before the bid closing date, and an invitation will be made to that supplier unless it would not be consistent with the efficient operation of the procurement system. In no circumstance will such an invitation require the OAG to extend a bid closing date. Where additional invitations are made during the bid solicitation process, they may not be reflected in the bid solicitation document. The terms and conditions of any contract awarded in respect of the bid solicitation will be consistent with the standing offer terms and conditions resulting from the above-noted procurement processes.

The OAG reserves the right, in its sole and absolute discretion, to add qualified suppliers to the permanent list throughout the entire period of the list. Evaluations will be processed on an annual basis as identified in the table below. It is important to note that suppliers will not be eligible for a bid solicitation unless and until recommended for qualification for the permanent suppliers list as further described in Section 3 (Basis and Method of Evaluation) of this qualification solicitation.

The suppliers that have previously qualified for the OAG’s permanent list in each Steam are:

It is the Bidder's responsibility to ensure that the proposal is received at the Proposal Delivery Address no later than the Deadline for Proposals.

1.1.1 Proposals received later than the Deadline for Proposals or at any location other than the Proposal Delivery Address may be deemed non-compliant and rejected, in the OAG's sole and absolute discretion, unless the Bidder provides evidence, to the OAG's satisfaction, substantiating that the proposal was sent to the Proposal Delivery Address before the Deadline for Proposals and the delay in receipt is attributable to circumstances beyond the Bidder's control.

1.1.2 Bidders may, in writing, revoke or modify a proposal received at the Proposal Delivery Address at any time up to the Deadline for Proposals. Bidders may not, without the prior written consent of the OAG, which may be reasonably withheld, assign or transfer their proposal to a third party in whole or in part or submit more than one (1) proposal.

1.2 Proposal Format. Proposals are to be submitted in either English or French, with the Bidder's contact information and the reference to this qualification solicitation clearly identified, as follows: one (1) sealed envelope labelled "**Technical Offer**", containing the Bidder's response to any mandatory and rated requirements set out in Section 4 (Proposal Requirements) of this qualification solicitation, within a second (2nd) sealed envelope together with any forms or additional information. No financial evaluation is required to qualify for the permanent suppliers list as described in section 3 (Basis and Method of Evaluation) of this qualification solicitation. For greater certainty, financial and pricing information, if provided, should NOT appear in the Technical Offer as described in section 4.4 (Financial Requirements) of this qualification solicitation.

1.3 Requests for Clarification. Any request for clarification of the contents of, or for interpretation or correction of, or questions or concerns relating to, this qualification solicitation are to be: (i) received no later than the Deadline for Requests for Clarification specified on page 1 of this qualification solicitation; (ii) addressed to the Procurement and Contracting Officer in English or French; and (iii) made in writing by electronic mail referencing this qualification solicitation in the subject line to the Request for Clarification Address specified on page 1 of this qualification solicitation.

1.3.1 Answers to such requests will be made available as written addenda to this qualification solicitation without identifying the source(s) of the requests, provided they are received no later than the Deadline for Requests for Clarification. Any request received later than the Deadline for Requests for Clarification may not be answered by the OAG.

1.3.2 Any attempt by a Bidder or any of its employees, agents, contractors or any other representatives to contact any person at the OAG other than the Procurement and Contracting Officer regarding this qualification solicitation, may in the OAG's sole and absolute discretion, result in the Bidder's disqualification and the rejection of their proposal. Nothing in this qualification

solicitation limits the OAG's right, in its sole and absolute discretion, to communicate with any Bidder regarding any matter in the normal course of business arising from any contractual relationship for the provision of any similar or other services or goods independently of this qualification solicitation.

- 1.4 Required Forms. Bidders are to include with their proposal any forms listed in Appendix "A" (Declarations and Certifications) to this qualification solicitation. Where a Bidder fails to include any such forms with its proposal, the OAG may, in its sole and absolute discretion: (a) require the submission of such forms within a prescribed timeframe satisfactory to the OAG prior to the Anticipated Qualification Date specified on page 1; or (b) reject or refuse to consider any proposal from a Bidder who fails to comply with any such submission requirement.

By submitting a proposal, a Bidder: (a) submits an irrevocable offer, which is firm, in effect and open for acceptance for the Proposal Validity Period specified on page 1 of this qualification solicitation; (b) agrees unconditionally to all the terms and conditions set out in this qualification solicitation, including without limitation the terms and conditions of any resulting Contract, if awarded, as set out in Section 5 (Contract Terms and Conditions); and (c) agrees, if the OAG deems it necessary, to extend the Proposal Validity Period, unless the Bidder revokes its proposal in writing within five (5) calendar days of notice of such extension by the OAG.
- 1.6 Evaluation and Selection. Proposals will be evaluated and selected in accordance with the entire requirement of the qualification solicitation, including but not limited to the process set out Section 3 (Basis and Method of Evaluation) and the criteria set out in Section 4 (Proposal Requirements).

(f) seek substantiation, clarification, and validation of, and take into account, independently or with the assistance of the Bidder, any and all information provided by the Bidder with respect to this qualification solicitation and, for this purpose, disclose any and all information provided to the Bidder to any third party, subject to the OAG obtaining reasonable assurances of confidentiality from such third party;

(h) waive irregularities, informalities, omissions and defects in any proposal where, in the OAG's sole and absolute discretion, they do not materially affect the ability of the bidder to provide the services or goods required by this qualification solicitation; and

(i) invite only the Bidders who submitted proposals in response to this qualification solicitation to resubmit their proposals within a time period specified by the OAG in the event no proposals meet the requirements of this qualification solicitation, where to do so is deemed to be in the OAG's best interest, in its sole and absolute discretion, and provided the requirements of the qualification solicitation are not substantially modified.

The exercise of any of the foregoing rights, either alone or in combination with each other, shall not be interpreted as waiving or limiting the exercise of any other rights by the OAG hereunder or otherwise at law.

- 1.8 Limitation of Liability. In no event shall the OAG, its employees, contractors, consultants and advisors be liable or responsible for any damages, including but not limited to, any direct, indirect, consequential, incidental, general, special or exemplary damages, any economic losses, any lost profits, opportunities, expenses, costs or any other losses arising out of, in connection with, or in any way related to, any Bidder's participation in this qualification solicitation or any acts, omissions or errors, including without limitation negligence of, or breach of contract by, the OAG, its employees, contractors, consultants and advisors. Without limiting the foregoing, expenses or costs incurred by any Bidder in any way related to or associated with this qualification solicitation, including but not limited to preparing, submitting or evaluating their proposal, providing information to the OAG or the OAG's authorized representative, and the satisfaction, fulfillment or completion of any conditions precedent to any contract with the OAG to deliver the services and/or goods required by this qualification solicitation, are the Bidder's sole responsibility and will not be

Without limiting any rights the OAG may reserve elsewhere in this qualification solicitation or may have otherwise at law, the OAG may elect to exercise its sole and absolute discretions pursuant to this qualification solicitation without any liability or obligation to any Bidder. If any Bidder is determined by a court or tribunal of competent jurisdiction to be entitled to compensation arising from this qualification solicitation, the total maximum of any such compensation shall be limited to one thousand dollars (\$1,000.00).

- 1.9 Amendment. Any amendment to this qualification solicitation shall be issued by the OAG in writing and will be made available in the form of an addendum in the same manner as this qualification solicitation is issued.
- 1.10 Property. Proposals received in response to this qualification solicitation shall become the property of the OAG and will not be returned to any Bidder. SECTION 2 STATEMENT OF WORK

Capitalized words used in this Section 2 (Statement of Work) but not otherwise defined herein or in the qualification solicitation shall have the meaning set forth in the agreement attached to the qualification solicitation in Section 5 (Contract Terms and Conditions).

Streams for Audit, Special Examination and Related Services

The OAG regularly requires the services of external audit professionals and consultants to supplement its internal resources and expertise. To ensure the availability of resources, the OAG has identified the requirement to establish a permanent list of qualified suppliers for the provision of professional services on an “as requested and when required” basis in support of audits and special examinations for specific requirements exceeding the competitive ranking methodologies and call-up procedures set out in standing offers awarded as a result of the prior procurement processes.

The Contractor’s Personnel may be required to perform work at OAG headquarters in Ottawa, any of the OAG’s regional offices, and at various other locations depending on the nature of the project and the entity being audited. These services are comprised of the following five (5) service delivery streams (“Streams”) described below in this Statement of Work. Additional information can be obtained by consulting the OAG website at www.oag-bvg.gc.ca under the heading “About the OAG”.

Stream 1—Financial Audits

The OAG has statutory responsibilities for the audit of the summary financial statements of the Government of Canada, the financial statements of the three territorial governments; the financial audits of federal and territorial Crown Corporations, and organizations; and other financial audit and direct engagements.

The OAG’s financial audits provide assurance that financial statements are presented fairly in accordance with Canadian generally accepted accounting principles or other relevant standards and also, in the case of the summary financial statements of the Government of Canada, in accordance with the accounting policies of the Government of Canada, which are based on generally accepted accounting principles for the public sector.

Where required or appropriate, the OAG also provides assurance that these organizations comply with the key legislative authorities that govern their activities. In addition, if issues are found during the financial audit work, the OAG makes recommendations for improvements in areas such as financial reporting and internal controls to management and those charged with governance.

The OAG reports observations on the summary financial statements of the Government of Canada in the Public Accounts of Canada, Volume 1 and publishes reports on the use of financial information and other significant issues in the Auditor General’s reports to Parliament. Financial audits of Crown Corporations are published annually in the statutory reports of these Crown Corporations. Financial audits of territorial governments are published annually in the public accounts of the territorial governments of Nunavut, the Yukon, and the Northwest Territories.

Financial audits of the federal government and related organizations are similar to private sector audits, except that they may have the following two additional components: (a) an opinion on whether transactions examined by the auditors conform to laws and regulations; (b) a report on any other matters the Auditor General considers to be of significance and of a nature that should be brought to the attention of Parliament.

In financial audits, auditors test whether financial transactions support the amounts and disclosures in the financial statements. Audit procedures may include, among other things, comparing the results of operations with planned results, assessing the reliability of an organization’s financial control systems, and

checking samples of transactions and balances. Auditors supplement these audit tests by further analysis and discussions with management.

In most instances, Contractor's Personnel will be integrated as part of an audit team comprised of OAG staff, and work under the instruction of OAG managers in collaboration with OAG junior staff. While these services are normally conducted in support of specific financial audits, the OAG may also request these services for other engagements from time to time subject to specific requirements.

The minimum education and designations, and experience qualifications for various categories of Contractor Personnel that may be required and requested by the OAG for this Stream are as follows:

Stream 2—Systems and Information Technology (IT) Audits

The OAG may also request these services for other engagements from time to time subject to specific requirements.

When reviewing IT general controls, auditors under contract with the OAG are required to review: (i) the design and implementation or the operating effectiveness of IT general controls at the application level and in the technical infrastructure that supports the applications in an audit entity; and (ii) the controls over access provisioning and security, change management and computer operations. The objective of the review is to determine:

1. The feasibility of developing a controls-based approach to auditing the accounts of the audit entity; or
2. The operating effectiveness of the IT general controls in support of the annual audit of the accounts of the audit entity.

In most instances, Contractor’s Personnel will be integrated as part of a team comprised of OAG staff, and work under the instruction of OAG managers in collaboration with OAG junior staff and/or may be required to provide the team with an independent report on their review of the IT general controls that they reviewed.

Stream 4—Actuarial Services

In order to deliver an audit opinion, the OAG may rely on the services of consulting actuaries to obtain the required level of assurance that the insurance policy liabilities (including amongst other things workers' compensation liabilities, mortgage loan insurance, and bonding) and/or employee benefits, are accounted for and presented in accordance with applicable Canadian generally accepted accounting principles or other relevant standards, and are in accordance with the Canadian Institute of Actuaries (CIA) standards. While these services are normally conducted in support of specific financial audits, the OAG may also request these services for other engagements from time to time subject to specific requirements.

In most instances, Contractor's Personnel will be integrated as part of an audit team comprised of OAG staff, and work under the instruction of OAG managers in collaboration with OAG junior staff. The actuarial specialist's audit of insurance policy liabilities, and/or employee benefits, will be performed in accordance with Canadian Auditing Standards, using the guide on "Audits of Financial Statements that Contain Amounts that Have Been Determined Using Actuarial Calculations." Further, the valuations shall be assessed against applicable Canadian generally accepted accounting principles or other relevant standards.

- g. Determining whether the audit entity’s actuary’s report appropriately and accurately describes the assumptions and methodology used;
- h. Assisting in the review of the adequacy of controls, systems and the work of others relied on by the audit entity’s actuary. This may include, amongst other things, checks on data integrity and checks on procedures and methodologies used to validate the calculations and results;
- i. Testing and assessing the overall appropriateness of the audit entity’s insurance policy liabilities considering the methodology, controls, assumptions, and source data used, and determining if the liability is within a reasonable range. The testing and assessment shall be performed in accordance with applicable CIA standards, and the consulting actuary shall provide an indication of the standards applied;

Stream 5 – Special Examination Auditing Services

Special examinations of Crown corporations are required under the provisions of the *Financial Administration Act* (the “FAA”) (sections 138 to 142 inclusively). The Office of the Auditor General (“OAG”) is the examiner for the majority of Crown corporations and submits a report on its findings to the board of directors of the corporation examined. The board of directors submits this report to the appropriate Minister and the President of the Treasury Board within 30 days after the day it receives the report and makes it available to the public within 60 days. Following the publication of the report, the OAG includes the report in its performance audit publications that are tabled to Parliament and subsequently released to the public.

Special examinations are caused to determine if the financial and management control and information systems and management practices were, in the period under examination, maintained in a manner that provided reasonable assurance that: (a) the assets of a corporation and each subsidiary are safeguarded and controlled; (b) the financial, human and physical resources of a corporation and each subsidiary are managed economically and efficiently; and (c) the operations of a corporation and each subsidiary are carried out effectively.

The OAG intends to continue the special examination work described below with staggered completion dates in order to meet upcoming statutory reporting dates for submitting completed reports to the corporations’ board of directors.

Additional information can be obtained by consulting the OAG website at www.oag-bvg.gc.ca under the headings:

- “What We Do”—“Special Examinations”,
- “Audit Resources” – “Manual” – “Performance Audit and Special Examination Manual – November 2014”, and
- “Audit Resources” – “Functional Audit Guidance and Tools” – “What to Expect – A Crown Corporation’s Guide to a Special Examination”.

The most recent special examination report for each Crown corporation is available on its website.

The document attached to this Statement of Work as Annex “A” contains a list of planned special examinations to provide an approximation of timing, skillsets and assistance that the OAG may require. Since the OAG has not confirmed resource planning details, Annex “A” should not be considered a definitive list of special examinations for which the OAG will require the Contractor to perform work.

The Contractor shall supply and deliver auditing services as required and when requested by the OAG to support audit teams in conducting the work related to special examinations in accordance with the Standards of the Chartered Professional Accountants of Canada as well as OAG audit performance and documentation standards (the “Special Examination Auditing Services”).

The Contractor’s Personnel shall perform the Special Examination Auditing Services and it is anticipated that in the majority of instances, will be integrated as part of an audit team comprised of OAG staff, and work under the instruction of OAG audit managers.

As such, an OAG principal will serve as an engagement leader who will have the overall responsibility for the audit and will be responsible for ensuring that the special examination work of the Contractor’s Personnel is sufficiently and appropriately reviewed to ensure compliance with the OAG audit performance and documentation standards, without limitation to the Contractor’s obligations under any contract resulting from a bid solicitation.

A typical special examination covers or considers systems and practices in the following domains:

- Governance;
- Risk management;
- Strategic planning;
- Performance measurement and reporting;
- Human resource management;
- Information management and technology;
- Environment, and
- Core operations (unique to each Crown corporation).

For greater certainty, the Contractor's Personnel may be required to provide one (1) or both of the following two (2) types of Special Examination Auditing Services, which may be more particularly described in any bid solicitation, and may not be required or requested for each and every special examination listed in Annex "A" of this Statement of Work.

1. General Support for Special Examinations

General Support relates to the above mentioned domains that are common to all organizations (except unique core operations).

As part of General Support, the Contractor shall provide the OAG with audit support on specific lines of inquiries relating to systems and practices chosen for closer examination, including all necessary working papers to support the work performed.

In providing this General Support to the OAG, performance of the procedures and deliverables that may be required and requested include, without limitation:

- a. Developing an audit approach and detailed audit programs for one or more Crown corporation systems or processes relating to specific programs and/or activities;
- b. Examining systems and practices consistent with the respective audit approaches and detailed audit programs, including proposing audit approach modifications based on findings or gained knowledge;
- c. Concluding on the adequacy of the design, implementation and operating effectiveness of the program or activity throughout the period under examination;
- d. Producing a high quality and professionally written report, in a format prescribed by the OAG audit team, documenting the findings of the examination, which concludes on the work performed and the overall reasonableness of the Crown corporation's controls in the examined systems and processes;
- e. Documenting and substantiating findings and conclusions with appropriate audit evidence;
- f. Reviewing work of other audit team members;
- g. Bringing to the attention of the audit team any issues or matters encountered in the conduct of the work; and
- h. Assisting the OAG examiner in presenting the findings to the Crown corporation or OAG management and advisory committee.

2. Specialized Expertise for Special Examinations

In contrast to General Support, Specialized Expertise will mostly relate to unique Crown corporation core operations but may also be comprised of in-depth, expert knowledge of technical and other domains common to all Crown corporations, such as but not limited to information management and technology. The list of Crown corporations included in Annex “A” to this Statement of Work may be consulted for assessing some of the core operations potentially subject to examination that may require Specialized Expertise.

The deliverables for Specialized Expertise may differ from those described under General Support in the following respects:

- a. the Contractor’s Personnel would be expected to: (i) identify key systems and practices pertaining to an aspect of core operations or specific area for which assistance is required that need to be in place for a Crown corporation to meet the statutory control objectives; (ii) propose appropriate audit criteria and audit approaches; and (iii) be available for consultation and review during the performance of the audit work by the OAG; and
- b. to the extent possible, the OAG’s personnel would execute the plan, formulate conclusions and draft reports, each of which may be reviewed by Contractor’s Personnel.

The minimum education and designations, and experience qualifications for various categories of Contractor Personnel that may be required and requested by the OAG are as follows:

Personnel Categories and Requirements Stream 5	General Support	Specialized Expertise
Managers		
1. Education and Designations	<ul style="list-style-type: none"> • Accounting designation (Chartered Professional Accountant (CPA) – Chartered Accountant (CA), Certified General Accountant (CGA), Certified Management Accountant (CMA), or • University degree 	<ul style="list-style-type: none"> • Designation (or equivalent, if applicable) in a field related to the required technical expertise, or • University degree reasonably relevant to the related field

Senior Auditors / Senior Consultants		
1. Auditors / Consultants		
1. Education and Designations	<ul style="list-style-type: none"> Accounting designation (CPA - CA, CGA, CMA) or University degree 	Not applicable.
2. Minimum Experience	2 years auditing or consulting experience	Not applicable.

While detailed qualifications, competencies and other requirements may vary by the role assigned to the Contractor Personnel in each specific special examination, the following are some competencies and skills the OAG would expect of all Contractor's Personnel:

- to possess general knowledge of relevant auditing standards;
- be able to effectively work within a team environment;
- be able to effectively communicate in writing and orally either with the OAG audit team or Crown corporation staff;
- be able to exercise sound judgment and diplomacy especially in client environment;
- to possess thorough analytical and critical thinking skills;
- be organized and able to multitask;
- be available to work at OAG or client premises, which may include periods outside the National Capital Region (NCR) for those Crown corporations which have headquarters or significant operations outside the NCR;
- be able to effectively review work of other team members when required;
- to possess an understanding of the compliance requirements of the OAG's *Code of Ethics, Values and Professional Conduct*, which are consistent with the Government of Canada's *Values and Ethics Code for the Public Sector*.

Ability to effectively operate in both Official Languages is a strong asset.

3. Timelines for Special Examinations

The performance of a special examination consists of planning, examining and reporting phases. It is currently anticipated that the majority of the special examinations from the beginning of the engagement to the issuance of the report to the board of directors of a corporation will take approximately twelve (12) to eighteen (18) months, allowing sufficient time before the statutory deadlines for contingencies.

Typically, Contractor's assistance for General Support will be required during the audit execution phase up to the beginning of the reporting phase, while the Contractor's assistance for Specialized Expertise may be largely required during the planning stage and at the end of the audit execution phase and beginning of the reporting phase.

The statutory deadlines for special examination of certain Crown corporations in Annex "A" to this Statement of Work may assist the Contractor in assessing the timing of potential service requirements based on the description of various timelines above.

The OAG has not confirmed specific planned timelines of the examination with the majority of Crown corporations listed. The OAG will determine such timelines, in its sole and absolute discretion, to be provided at the time of any bid solicitation.

4. Deliverables for Special Examinations

The expected deliverables of the Contractor's Personnel engaged to carry out audit work generally include, without limitation:

1. Provision of audit files, working papers (preferably in electronic format but also in paper format) that address the pertinent requirements stated in III – Description of Services;
2. Participation in key meetings with audit team members or management of the audited entity;
3. Debriefing(s), as needed, to the OAG audit team and to the Crown corporation's management and board of directors outlining the work done and its results. Should a debriefing summary (such as slide presentation) be used, a copy of the summary must be included in the documentation and must be referenced back to the specific working papers which gave rise to the issues addressed.
4. All deliverables must be in one of the two Official Languages as will be specified by the OAG in any bid solicitation.

5. Key Milestones for Special Examinations

The key milestones for each engagement will be specified separately in any bid solicitation. Generally, the milestones for the following elements will be provided:

- OAG approval of the audit strategy developed by the Contractor Personnel to the extent that the Contractor Personnel had been involved in the planning stage of the audit;
- OAG approval of audit programs developed by the Contractor Personnel which could take place after the audit strategy for an assigned system or practice had been approved without participation of the Contractor Personnel;
- Completion of description, design, implementation and testing of operating effectiveness of selected systems and practices;
- Compilation of the audit file including observations and proposed conclusions against audit criteria;
- Review of observations and conclusions with the responsible OAG audit management and receive approval;
- Drafting the wording of the audit findings and results, including but not limited to any exceptions noted, for inclusion in the report;
- Substantiating draft reports with appropriate and sufficient evidence; and
- Drafting the management letter points as appropriate.

The minimum education and designations, and experience qualifications set out for each Stream above must be met by the Contractor's Personnel in respect of each of the personnel categories for work to be performed under that Stream. Annex A – List of Crown Corporation Applicable to Special Examination Auditing Services

The following list includes, without limitation Crown corporations within the scope of the permanent suppliers list. It is emphasized that the list is included to give the Contractor an opportunity to assess in a general manner whether they have knowledge of these Crown corporations' key operational systems and practices that a special examination may include. It is not intended to be a list of Crown corporations for which Contractor Personnel will necessarily be required or for which a bid solicitation will necessarily be issued. Final requirement is contingent on the OAG's internal resource availability at the time the special examination commences, subject to the issuance of a bid solicitation.

SECTION 3 BASIS AND METHOD OF EVALUATION

3.1 Evaluation Process

Proposals responding to, and compliant with, the requirements, terms and conditions of this qualification solicitation will be evaluated by a team composed of OAG representatives and selected for recommendation of qualification for the permanent suppliers list in accordance with the process described below, which is consistent with the basis and method of evaluation for establishing the permanent suppliers list resulting from RFSO #256 (Audit and Related Services) and RFSO #264 (Special Examination Auditing Services).

For greater certainty, this process will be conducted separately and independently to evaluate proposals concurrently in each of the five (5) Streams on a stand-alone basis without reference to or consideration of the other Streams in respect of which a particular Bidder may have submitted a proposal. Any interested Bidders may submit up to one (1) proposal for any one or all of the five (5) Streams. It is not necessary to submit a proposal for all Streams to be selected for recommendation of qualification for the permanent suppliers list. Therefore, if a Bidder wishes to submit a proposal for services in only one specific Stream, it may do so; however, if a minimum response is required for a particular a Stream, then that minimum response must be provided in the proposal.

Step 1: Compliance with Mandatory Requirements

Proposals will be reviewed for confirmation of compliance with any Mandatory Requirements set out in Section 4.2 (Mandatory Requirements).

This review will take the form of validating that the statements and supporting material referenced by the Bidder substantiate a compliant response.

Proposals failing to meet any one (1) or more of the Mandatory Requirements will be deemed non-compliant and given no further consideration.

Step 2: Scoring of Rated Requirements (100 points)

Proposals deemed compliant in Step 1 will then be evaluated for technical merit with respect to the Rated Requirements set out in Section 4.3 (Rated Requirements) and shall be assigned scores for each item identifying its relative importance.

Proposals failing to score at least sixty-five percent (65%) of the maximum points available will be deemed non-compliant and given no further consideration.

Step 3: Selection of Proposal for Permanent Suppliers List

Proposals deemed compliant in Step 2 will NOT be evaluated for price and no financial evaluation of the proposal is required for recommendation of qualification for the permanent suppliers list.

The OAG intends to select each proposal that is responsive to, and compliant with, the requirements, terms and conditions of this qualification solicitation for recommendation of qualification for the permanent suppliers list, provided that to do so would be consistent with the efficient operation of the procurement system and subject to section 1.7 (Reserved Rights) of this qualification solicitation.

For greater certainty, this qualification solicitation is not intended for the purpose of awarding any standing offers or contracts and is not to be considered as a commitment to issue any bid solicitation or contract for any specific requirement.

SECTION 4 PROPOSAL REQUIREMENTS

4.1 Organization of Proposal

Technical Offers should be limited to a maximum of **40** single-sided pages (or **20** double sided pages) for each Stream using 8.5 x 11 inch paper and size 10 font. Any information contained in pages exceeding the stipulated maximum may not be evaluated, in the OAG's sole and absolute discretion. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination

or the event that contributed to the Excusable Delay. The Contractor agrees to repay immediately to the OAG the portion of any advance payment that is unliquidated at the date of the termination. Unless the OAG has caused the Excusable Delay by failing to meet an obligation under the Contract, the OAG will not be responsible for any costs incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.

- 9. Inspection and Acceptance of the Work.** All Work is subject to inspection and acceptance by the OAG. Inspection and acceptance of the Work by the OAG does not relieve the Contractor of its responsibility for defects or other failures to meet the requirements or obligations under the Contract. The OAG will have the right to reject any work that is not in accordance with the requirements of the Contract and require its correction, replacement, reperformance or refund at the Contractor's cost and expense.
- 10. Invoice Submission.** Invoices must be submitted in the Contractor's legal name. The Contractor must submit invoices for each delivery or shipment and invoices must only apply to the Contract. Each invoice must indicate whether it covers partial or final delivery.
- a. Invoices must show:
 - i. the date, the name and address of the OAG, item or reference numbers, deliverable/description of the Work, contract/purchase order number, Client Reference Number (CRN), Procurement Business Number (PBN);
 - ii. details of expenditures (such as, but not limited to, showing separately, hours worked in Canada or abroad, periods and cost of any authorized travel expenses, item, quantity, unit price, fixed time labour rates and level of effort, fixed firm price and payment milestone, as applicable) in accordance with the basis of payment specified in the Contract, exclusive of Applicable Taxes;
 - iii. deduction for set-off, holdback or deduction, if applicable;
 - iv. the extension of the totals, if applicable; and
 - v. if applicable, the method of shipment together with date, case numbers and part or reference numbers, shipment charges and any other additional charges. Applicable Taxes must be specified on all invoices as a separate item along with corresponding registration numbers from the tax authorities. All items that are zero-rated, exempt or to which Applicable Taxes do not apply, must be identified as such on all invoices.
 - b. By submitting an invoice, the Contractor certifies that the invoice is consistent with the Work delivered and is in accordance with the Contract.
- 11. Taxes.** The OAG is required to pay Applicable Taxes. Applicable Taxes will be paid by the OAG as provided in the Invoice Submission section. It is the sole responsibility of the Contractor to charge Applicable Taxes at the correct rate in accordance with applicable legislation. The Contractor agrees to remit to appropriate tax authorities any amounts of Applicable Taxes paid or due. The Contractor is not entitled to use exemptions from any tax, such as provincial sales taxes, unless otherwise specified by law. The Contractor must pay applicable provincial sales tax, ancillary taxes, and any commodity tax, on taxable goods or services used or consumed in the performance of the Contract (in accordance with applicable legislation), including for material incorporated into real property. In those cases where Applicable Taxes, customs duties, and excise taxes are included in the Contract Price, the Contract Price will be adjusted to reflect any increase, or decrease, of Applicable Taxes, customs duties, and excise taxes that will have occurred between bid submission and contract award. However, there will be no adjustment for any change to increase the Contract Price if public notice of the change was given before bid submission date in sufficient detail to have permitted the Contractor to calculate the effect of the change. Pursuant to the *Income Tax Act*, R.S.C., 1985, c.1 (5th Supp.) (as amended) and the *Income Tax Regulations*, C.R.C., c. 945 (as amended) the OAG must withhold 15 percent of the amount to be paid to the Contractor in respect of services provided in Canada if the Contractor is not a resident of Canada, unless the Contractor obtains a valid waiver from the Canada Revenue Agency. The amount

withheld will be held on account for the Contractor in respect to any tax liability which may be owed.

12. Payment Period and Interest on Overdue Accounts. The OAG's standard payment period is 30 calendar days. The payment period is measured from the date an invoice in a form and content acceptable to the OAG is received in accordance with the Contract or the date the Work is delivered in a condition acceptable to the OAG as required in the Contract, whichever is later. A payment is considered overdue on the 31st calendar day following that date and interest will be paid automatically in accordance with this section.

- a. If the invoice and its substantiating documentation are not received in a form and content acceptable to the OAG in accordance with the Contract or the Work is not delivered in a condition acceptable to the OAG as required by the Contract, the OAG will notify the Contractor within 15 calendar days of receipt. The 30-day payment period begins upon receipt of the revised invoice or the replacement or corrected Work. Failure by the OAG to notify the Contractor within 15 calendar days will only result in the payment being considered overdue on the 31st calendar day following receipt of the invoice or work for the sole purpose of calculating interest on overdue accounts, but shall not relieve the Contractor from any of its obligations under the Contract, impose any liability upon the OAG or otherwise obligate the OAG to make payment until the invoice and its substantiating documentation are received in a form and content acceptable to the OAG in accordance with the Contract or the Work is delivered in a condition acceptable to the OAG as required in the Contract, whichever is later.
- b. For the purpose of this section:
 - i. "Average Rate" means the simple arithmetic mean of the Bank Rates in effect at 4:00 p.m. Eastern Time each calendar day during the calendar month immediately before the calendar month in which payment is made;
 - ii. "Bank Rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association;
 - iii. "date of payment" means the date of the negotiable instrument drawn by the OAG to pay any amount under the Contract;
 - iv. an amount becomes "overdue" when it is unpaid on the first calendar day following the calendar day on which it is due and payable as specified above and according to the Contract.
- c. The OAG will pay to the Contractor simple interest at the Average Rate plus 3 percent per year on any amount that is overdue, from the date that amount becomes overdue until the calendar day before the date of payment, inclusive. The Contractor is not required to provide notice to the OAG for interest to be payable. The OAG will pay interest in accordance with this section only if the OAG is responsible for the delay in paying the Contractor. The OAG will not pay interest on overdue advance payments.

13. Audit. The amount claimed under the Contract is subject to audit by the OAG, at any time, both before and after payment is made. The Contractor must keep proper accounts and records of performing the Work, the cost of performing the Work, the actual time spent each calendar day by all Contractor Personnel performing the Work (if the Contract specifies payment on the basis of time spent by the Contractor or Contractor's Personnel performing the Work) and all expenditures or commitments made by the Contractor, including any invoices, receipts, timesheets and third party contracts, which shall at all reasonable times be available to audit and inspection by the OAG, who may make copies and take extracts therefrom. The Contractor shall afford facilities for audit and inspection and shall furnish the OAG with such assistance and information as the OAG may require from time to time with respect to such accounts and records. The Contractor shall keep all such accounts and records, and preserve them in a secure location that is available for audit and inspection, for no less than six years after it receives the final payment under the Contract or until the settlement of any outstanding or unresolved claims or disputes, whichever is later, unless the OAG consents in writing in advance to earlier disposal.

- a. The OAG shall have the right, upon providing at least five (5) calendar days prior written notice, to enter upon the Contractor's facilities and locations, with any third party representatives the OAG may require, to review, inspect, test or to conduct audits, and take extracts or make copies of any document, with respect to the Contractor's operations and business to ensure compliance with the Contract, including the retention of accounts and records, performance of the Work, privacy, confidentiality and security. Where problems or deficiencies are identified during or following any review, inspection, test or audit, the OAG may, in its sole and absolute discretion, issue by notice to the Contractor, a corrective action request. Upon receipt of such notice, the Contractor shall:
 - i. promptly reply in writing to the corrective action request;
 - ii. take immediate corrective action acceptable to the OAG to prevent the recurrence of all deficiencies or problems identified in the corrective action request; and
 - iii. rectify all deficiencies and problems identified in the corrective action request within the time period specified in the notice, or when not specified, within thirty (30) calendar days from the date of the Contractor's receipt of the notice.
- b. The issuance or non-issuance of a corrective action request shall not prejudice any of the OAG's rights to termination under the Contract.
- c. Where an audit or inspection by the OAG, or where the OAG's own accounts or records disclose an overpayment, the OAG shall have the right to set-off, hold-back or deduct the amount of such overpayment against any Contractor invoices issued pursuant to this Contract or any other agreement, and the Contractor shall be liable to repay such overpayment immediately on demand to the extent the OAG does not recover the overpayment by right of set-off, hold-back or deduct.

14. Compliance with Applicable Laws. The Contractor must inform itself and Contractor Personnel of, and comply and ensure compliance with, all laws applicable to the performance of the Contract, including Canadian federal, provincial and municipal law. The Contractor must provide evidence, at its own cost, of compliance with such laws to the OAG at such times as the Contracting Representative may reasonably request. The Contractor must obtain and maintain, without charge, reimbursement or payment by the OAG in any way, all permits, licenses, regulatory approvals and certificates required to perform the Work. If requested by the Contracting Representative, the Contractor must provide a copy of any required permit, license, regulatory approvals or certificate to the OAG. Without limiting the foregoing, the Contractor must not transfer or copy by any electronic or other means any software owned by or licensed to the OAG and such software is only to be used for the purposes of work carried out on behalf of the OAG and for no other purpose.

15. Workplace Health and Safety. The Contractor acknowledges the responsibility of the OAG to ensure, for its employees, a safe and healthy work environment, free of harassment. Copies of the *OAG Policy on the Prevention of Workplace Violence*, the *OAG Respectful Workplace Policy*, and the *OAG Policy on Workplace Investigations*, which are also applicable to the Contractor, are available from the Contracting Representative upon the Contractor's prior written request. The Contractor must not, either as an individual, or as a corporate or unincorporated entity, or through Contractor Personnel, harass, abuse, threaten, abuse its authority towards, discriminate against or intimidate, or endanger the health and safety of, any employee, contractor or other individual employed by, or under contract with, the OAG. The Contractor will be advised in writing of any complaint and will have the right to respond in writing. Upon receipt of the Contractor's response, the OAG will, at its sole and absolute discretion, determine if the complaint is founded and decide on any action to be taken, including terminating the Contract for default.

16. Confidentiality. The Contractor must keep confidential and not disclose or release for any purpose to any third party all information provided to the Contractor by or on behalf of the OAG in connection with the Work and all information conceived, developed or produced by the Contractor as part of the Work including all documents, reports, papers or other records and any information, advice, assistance, guidance, recommendations and matters. As such, information must be treated as

confidential, used solely for the purpose of the Contract and remains the sole and exclusive property of the OAG. Subject to the *Access to Information Act*, R.S.C., 1985, c. A-1 (as amended) (the “**Access to Information Act**”), and to any right of the OAG under the Contract to release or disclose, OAG agrees not to release or disclose any information delivered to the OAG under the Contract that is proprietary to the Contractor or a subcontractor, except to other departments within the federal public administration as defined by the FAA and to the extent that the Contract expressly provides for release or disclosure to third parties.

- a. The obligations of the Parties set out in this section do not apply to any information where the same information:
 - i. is publicly available from a source other than the other Party;
 - ii. is or becomes lawfully known to a Party from a source other than the other Party, except any source that is known to be under an obligation to the other Party not to disclose the information;
 - iii. is developed by a Party independently and without use of the information of the other Party;
 - iv. is authorized in writing in advance by the other Party to be released or disclosed by a Party to a third party solely for the purpose of the contract; or
 - v. is required to by law to be disclosed.
- b. In the event the Contractor is required to disclose confidential or proprietary information by law, the Contractor shall promptly notify the OAG so that the OAG has a reasonable opportunity to prevent disclosure.

17. Privacy. Any personal information within the meaning of the *Privacy Act*, R.S.C., 1985, c. P-21 (as amended) (the “**Privacy Act**”), which is disclosed by the OAG, or is managed, accessed, collected, used, retained, created or disposed of in order to fulfill the requirements of this Contract, shall be deemed to be under the OAG’s control, shall be made available to the OAG upon request and shall otherwise be treated in accordance with the *Privacy Act*. All such personal information is OAG property, and Contractor shall have no right in or to such personal information. Contractor shall segregate all such personal information (whether in electronic format or in hard copy) from its other records. Contractor agrees that all such personal information shall at all times be stored on segregated, stand-alone information systems in Canada that are not connected to networks or other technology systems that would permit access to such information from a jurisdiction other than Canada, except to the extent expressly permitted by this Contract. Contractor agrees to maintain reasonably detailed access logs that would indicate each occurrence of access to any such personal information, other than by the OAG. The Contractor agrees to comply with the *Privacy Act* and any other Canadian privacy laws, to the extent that they are applicable to the Contractor.

18. Access to Information. Records created by the Contractor, and under the control of the OAG, are subject to the *Access to Information Act*. The Contractor acknowledges the responsibilities of the OAG under the *Access to Information Act* and must, to the extent possible, assist the OAG in discharging these responsibilities. Furthermore, the Contractor acknowledges that section 67.1 of the *Access to Information Act* provides that any person, who destroys, alters, falsifies or conceals a record, or directs anyone to do so, with the intent of obstructing the right of access that is provided by the *Access to Information Act* is guilty of an offence and is liable to imprisonment or a fine, or both. The Contractor consents, in the case of a contract and any amendment with a value in excess of \$10,000 (including taxes), to the public disclosure of basic information, other than information described in any of paragraphs 20(1) (a) to (d) of the *Access to Information Act*, relating to the contract and, where the contract and any amendment with a value in excess of \$10,000 (including taxes) involves a former public servant in receipt of a pension under the *Public Service Superannuation Act*, , R.S.C., 1985, c. P-36 (as amended), the Contractor consents, and acknowledges that the Contractor’s Personnel consents, to the public disclosure of basic information in accordance with the *Guidelines on the Proactive Disclosure of Contracts*.

- 19. Copyright.** Anything that is created or developed by the Contractor as part of the Work under the Contract in which copyright subsists belongs to the OAG. The Contractor must incorporate the copyright symbol and either of the following notices, as appropriate, in any such Work: ©Her Majesty the Queen in Right of Canada, as represented by the Auditor General of Canada, [year] or © Sa Majesté la Reine du chef du Canada, représentée par le vérificateur général du Canada, [year].
- a. At the request of the Contracting Representative, the Contractor must provide to the OAG, at the completion of the Work or at such other time as the Contracting Representative may require, a written permanent waiver of moral rights as defined in the *Copyright Act*, R.S.C., 1985, c. C-42 (as amended), in a form and content acceptable to the Contracting Representative, from every author that contributed to the Work. If the Contractor is an author, the Contractor permanently waives the Contractor's moral rights.
 - b. The Contractor agrees that the OAG may translate into the other official language of Canada any documentation delivered to the OAG by the Contractor that does not belong to the OAG. The Contractor acknowledges that the OAG owns the translation and that it is under no obligation to provide any translation to the Contractor. The OAG agrees that any translation must include any copyright notice and any proprietary right notice that was part of the original. The OAG acknowledges that the Contractor is not responsible for any technical errors or other problems that may arise as a result of the translation.
- 20. OAG Property.** The Contractor must take reasonable and proper care of all OAG Property while it is in its possession or subject to its control. The Contractor is responsible for any loss or damage resulting from its failure to do so other than loss or damage caused by ordinary wear and tear.
- 21. Amendment.** To be effective and valid, any amendment to the Contract must be prepared in writing by the Contracting Representative and signed by the authorized representative(s) of the OAG and Contractor. No increase in the total liability of the OAG or in the price of the Work resulting from any change, modification or interpretation of the Contract will be authorized by the OAG, or paid to the Contractor, unless such change, modification or interpretation of the Contract is approved, in writing, in advance, by the OAG and before incorporation into the Work.
- 22. Assignment.** The Contractor must not assign the Contract, or any benefit or burden hereunder, in whole or in part, without obtaining the prior written consent of the OAG, which may be withheld in the OAG's sole and absolute discretion. Any assignment made without that consent is void and will have no effect. The assignment will be effective upon execution of an assignment agreement signed by the Parties and the assignee. No assignment of the Contract shall relieve the Contractor from any obligation under the Contract or impose any liability upon the OAG. Notwithstanding the foregoing, this Contract shall enure to the benefit of, and be binding upon, the parties hereto and their lawful heirs, executors, administrators, and successors.
- 23. Change of Control.** The Contractor shall notify the OAG prior to any merger, amalgamation, transfer of a controlling interest in the Contractor or a sale of all or substantially all of the Contractor's assets and prior to entering into any subcontract with equivalent effect to, or in connection with, any such transaction. Contractor shall obtain the OAG's prior written consent to any such transaction or subcontract, which may be withheld in the OAG's sole and absolute discretion. In the event the Contractor fails to comply with this notice and consent requirement, the OAG shall be entitled to terminate the Contract for default. Contractor's notice and request for consent shall include full particulars regarding the intended transaction or subcontract, including:
- a. an updated organizational chart, or similar description of the Contractor, both before and after the completion of any such transaction or subcontract;
 - b. a description of the nature of any such transaction or subcontract, including any amalgamations, wind-ups, asset transfers or other elements;
 - c. a list of the directors of the Contractor;
 - d. a list of the shareholders of the Contractor; and

- e. any other information relevant, in the OAG's sole and absolute discretion, to any such transactions or subcontracts, including any information about the Contractor, successor entity, entity acquiring a controlling interest in the Contractor, entity purchasing all or substantially all of Contractor's assets, or subcontractor.

24. Suspension of the Work. The Contracting Representative may at any time, by written notice, order the Contractor to suspend or stop the Work or part of the Work under the Contract. The Contractor must immediately comply with any such order in a way that minimizes the cost of doing so.

25. Default by the Contractor.

- a. If the Contractor fails to perform any of its obligations under the Contract, or fails to make progress so as to endanger the performance of the Contract, the Contracting Representative may, by giving written notice to the Contractor, terminate for default the Contract or part of the Contract. The termination will take effect immediately or at the expiration of any cure period specified in the notice, if the Contractor has not cured the default to the satisfaction of the Contracting Representative within that cure period.
- b. If the Contractor becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or if a receiver is appointed under a debt instrument or a receiving order is made against the Contractor, or if an order is made or a resolution passed for the winding-up of the Contractor, or if the Contractor makes a false, untrue or misleading certification, declaration or representation under the Contract, whether made knowingly or unknowingly, or provides false, untrue or misleading information under or in relation to the Contract, whether made knowingly or unknowingly, the Contracting Representative may, to the extent permitted by the laws of Canada, by giving written notice to the Contractor, immediately terminate for default the Contract or part of the Contract.
- c. If the OAG gives notice of termination under this section, the Contractor will have no claim for payment. The Contractor will be liable to the OAG for all losses and damages suffered by the OAG because of the default or occurrence upon which the notice was based, including any procurement costs and any increase in the cost incurred by the OAG in procuring the Work from another source. The Contractor agrees to repay immediately to the OAG the portion of any advance payment that is unliquidated at the date of the termination. Nothing in this section shall limit any other remedies that may be available to the OAG against the Contractor.

26. Termination for Convenience. At any time before the completion of the Work, the Contracting Representative may, by giving notice in writing to the Contractor, terminate for convenience the Contract or part of the Contract. Once such a notice of termination for convenience is given, the Contractor must comply with the requirements of the termination notice. If the Contract is terminated in part only, the Contractor must proceed to complete any part of the Work that is not affected by the termination notice. The termination will take effect immediately or, as the case may be, at the time specified in the termination notice.

- a. If a termination notice is given pursuant to this section, the Contractor will be entitled to be paid for Work that has been completed and reimbursed for costs that have been reasonably and demonstrably incurred to perform the Contract, to the extent that the Contractor has not already been paid or reimbursed by the OAG, including:
 - i. on the basis of payment specified in the Contract, payment for all completed Work that is inspected and accepted in accordance with the Contract, whether completed before, or after the termination in accordance with the instructions contained in the termination notice;
 - ii. reimbursement of any direct costs incurred by the Contractor for work terminated by the termination notice before completion, excluding the cost of severance payments or damages to employees whose services are no longer required,

- except wages that the Contractor is obligated by statute to pay.
- b. The OAG may reduce the payment in respect of any part of the Work, if upon inspection, it does not meet the requirements of the Contract. The total of the amounts, to which the Contractor is entitled to be paid and/or reimbursed under this section, together with any amounts paid, due or becoming due to the Contractor, must not exceed the Contract Price. The OAG may withhold payment and/or reimbursement of any amounts under this section until such time as the Contractor has substantiated its entitlement to such amounts to the OAG's satisfaction. Upon payment of such amounts, the Contractor shall be deemed to have fully and finally released the OAG from any and all liability in connection with the Contract. The Contractor will have no claim for damages, compensation, loss of profit, or economic loss arising out of any termination notice given by the OAG under this section except to the extent that this section expressly provides. The Contractor agrees to repay immediately to the OAG the portion of any advance payment that is unliquidated at the date of the termination.

27. Replacement of Personnel.

- a. Replacement by OAG. The OAG may, at any time, order the removal and replacement of any Contractor Personnel (whether or not specifically identified in the Contract) on reasonable grounds, or in the event that any of the Contractor's Personnel are unable to perform and complete the Work to the satisfaction of the OAG, and the Contractor shall immediately remove the individual from performance of the Work and provide, payable at the same or lesser rate or price, subject to the prior written approval by the OAG, any replacement Contractor Personnel with the requisite ability, expertise and attainment to complete the Work.
- b. Replacement by Contractor. If specific individuals are identified in the Contract to perform the Work, the Contractor must provide the services of those individuals unless the Contractor is unable to do so for reasons beyond its control. If the Contractor is unable to provide the services of any specific individual identified in the Contract, at any time, it must provide a replacement with similar qualifications and experience payable at the same or lesser rate or price. The replacement must meet the criteria used in the selection of the Contractor and be of equal or greater ability, expertise and attainment, subject to prior written acceptance by the OAG. The Contractor must, as soon as possible, give written notice to the Contracting Representative of the reason for replacing the individual and provide: (a) the name, qualifications and experience of the proposed replacement; and (b) proof that the proposed replacement has the required security clearance, if applicable.
 - i. Rejection by OAG. Any such replacement may be rejected if, in the OAG's sole absolute discretion, the replacement fails to meet the criteria used in the selection of the Contractor or is not of equal or greater ability, expertise and attainment and the Contractor must not, in any event, allow performance of the Work by unapproved or unauthorized replacement persons prior to receipt of written acceptance of the OAG. The Contracting Representative may order that any replacement stop performing the Work. In such a case, the Contractor must immediately comply with the order and secure a further replacement in accordance with this section. The fact that the Contracting Representative does not order that a replacement stop performing the Work does not relieve the Contractor from its responsibility to meet the requirements of the Contract.

28. Liability and Infringement.

- a. The Contractor is liable for any damage caused by the Contractor, Contractor's Personnel or Contractor's agents to the OAG or to any third party. The OAG is liable for any damage caused by the OAG, its employees or agents to the Contractor or to any third party. The Parties agree that no limitation of liability or indemnity provision applies to the Contract

unless it is specifically incorporated in full text in the Articles of Agreement. Damage includes injury to persons (including injury resulting in death) or loss of or damage to property (including real property) caused as a result of or during the performance of the Contract.

- b. The Contractor represents and warrants that, to the best of its knowledge, neither it nor the OAG will infringe any third party's intellectual property rights in performing or using the Work, and that the OAG will have no obligation to pay royalties of any kind to anyone in connection with the Work.
- c. If anyone makes a claim against the OAG or the Contractor concerning intellectual property infringement or royalties related to the Work, that Party agrees to notify the other Party in writing immediately. If anyone brings a claim against the OAG, the OAG must have the regulation and conduct of all litigation for or against the OAG, but the OAG may request that the Contractor defend the OAG against the claim. In either case, the Contractor agrees to participate fully in the defence and any settlement negotiations and to pay all costs, damages and legal costs incurred or payable as a result of the claim, including the amount of any settlement. Both Parties agree not to settle any claim unless the other Party first approves the settlement in writing.
- d. The Contractor has no obligation regarding claims that were only made because:
 - i. the OAG modified the Work or part of the Work without the Contractor's consent or used the Work or part of the Work without following a requirement of the Contract;
 - ii. the OAG used the Work or part of the Work with a product that the Contractor did not supply under the Contract (unless that use is described in the Contract or the manufacturer's specifications);
 - iii. the Contractor used equipment, drawings, specifications or other information supplied to the Contractor by the OAG (or by someone authorized by the OAG); or
 - iv. the Contractor used a specific item of equipment or software that it obtained because of specific instructions from the Contracting Representative; however, this exception only applies if the Contractor has included the following language in its own contract with the supplier of that equipment or software: "[Supplier name] acknowledges that the purchased items will be used by the OAG. If a third party claims that equipment or software supplied under this contract infringes any intellectual property right, [supplier name], if requested to do so by either [Contractor name] or the OAG, will defend both [Contractor name] and the OAG against that claim at its own expense and will pay all costs, damages and legal fees payable as a result of that infringement." Obtaining this protection from the supplier is the Contractor's responsibility and, if the Contractor does not do so, it will be responsible to the OAG for the claim.
- e. If anyone claims that, as a result of the Work, the Contractor or the OAG is infringing its intellectual property rights, the Contractor must immediately do one of the following:
 - i. take whatever steps are necessary to allow the OAG to continue to use the allegedly infringing part of the Work;
 - ii. modify or replace the Work to avoid intellectual property infringement, while ensuring that the Work continues to meet all the requirements of the Contract; or
 - iii. take back the Work and refund any part of the Contract Price that the OAG has already paid, and if the Contractor determines that none of these alternatives can reasonably be achieved, or if the Contractor fails to take any of these steps within a reasonable amount of time, the OAG may choose either to require the Contractor

to do (iii), or to take whatever steps are necessary to acquire the rights to use the allegedly infringing part(s) of the Work itself, in which case the Contractor must reimburse the OAG for all the costs it incurs to do so.

- 29. Transportation Costs and Carriers' Liability.** If transportation costs are payable by the OAG under the Contract and the Contractor makes the transportation arrangements, shipments must be made by the most direct and economical means consistent with normal shipping practice. The costs must be shown as a separate item on the invoice. The OAG shall make no payment for insurance or valuation charges for transportation beyond the point at which ownership of goods passes to the OAG (determined by the FOB point or Incoterms). Where increased carrier liability is available without charge, the Contractor must obtain the increased liability for shipment.
- 30. Right of Set-off.** Without restricting any right of set-off given by law, the OAG may withhold or deduct from, or reduce or set-off against, any amount payable to the Contractor under the Contract, or under any other current contract, any amount as the OAG reasonably determines to be necessary to cover any non-performance, indemnity or liability of the Contractor in relation to this Contract.
- 31. Conflict of Interest and Values and Ethics Codes.** Contractor acknowledges having read the *Code of Values, Ethics & Professional Conduct for the Office of the Auditor General of Canada*, (the "**OAG Code**") which the Contractor agrees shall govern the conduct of the Contractor and the Contractor's Personnel in respect of the Contract. The Contractor agrees all Contractor Personnel shall conduct themselves in compliance with the principles of the *OAG Code*. The Contractor acknowledges that third parties who are subject to the provisions of the *Conflict of Interest Act*, S.C. 2006, c.9, s.2 (as amended), the *Conflict of Interest Code for Members of the House of Commons*, the *Values and Ethics Code for the Public Sector* or all other equivalent codes of values and ethics applicable within specific government organizations cannot derive any direct benefit resulting from the Contract, including any member of the House of Commons or Senate.
- 32. No Bribe, Benefit or Conflict.**
- a. The Contractor declares that no bribe, gift, benefit, or other inducement has been or will be paid, given, promised or offered directly or indirectly to any official or employee of the OAG or to a member of the family of such a person, with a view to influencing the entry into the Contract or the administration of the Contract.
 - b. For the purpose of this section, conflict of interest means any matter, circumstance, interest, or activity affecting the Contractor or Contractor Personnel, which impairs, may impair or may appear to impair the ability of the Contractor or Contractor Personnel to perform the Work and any obligations under the Contract diligently, independently and otherwise in compliance with the principles of the *OAG Code*. The Contractor and Contractor Personnel must not influence, seek to influence or otherwise take part in a decision of the OAG knowing that the decision might further its private interest. The Contractor warrants that, to the best of its knowledge after making diligent inquiry, no real, perceived or potential conflict of interest exists or is likely to arise in the performance of the Contract. In the event the Contractor becomes aware of any matter that causes or is likely to cause a real, perceived or potential conflict of interest in relation to the Contractor's performance under the Contract, the Contractor must immediately disclose such matter to the Contracting Representative in writing without delay. If the OAG is of the opinion that a real, perceived or potential conflict of interest exists as a result of the Contractor's disclosure or as a result of any other information brought to the Contracting Representative's attention, the Contracting Representative may require the Contractor to take steps to resolve or otherwise deal with such conflict of interest or, at the OAG's sole and absolute discretion, the Contract may be terminated for default.

33. International Sanctions. The Contractor must not supply to the OAG any goods or services that originate, either directly or indirectly, from persons or countries which are subject to economic sanctions imposed by Canada. The Contractor must comply with changes to any legislation or regulations applicable to economic sanctions imposed during the period of the Contract. The Contractor must immediately advise the OAG if it is unable to perform the Work as a result of the imposition of economic sanctions against a country or person or the addition of a good or service to the list of sanctioned goods or services. If the Parties cannot agree on a work around plan, the Contract will be terminated for the convenience of the OAG in accordance with the provisions of the Contract.

34. Integrity Provisions – Contract. The Contractor shall comply with the Integrity Provisions set out in this section.

a. Statement

- i.  - c. The Bidder must immediately inform OAG in writing of any changes affecting the list of names of directors and owners during this procurement process.
3. Request for Additional Information

8. Third Party Validation

The Bidder confirms that it understands that where it or any of the Bidder's Affiliates has been subject to a period of Ineligibility to be awarded contracts, for which the Canadian Pardons and the Foreign Pardons subsections do not apply, the Bidder must provide by bid closing date, a confirmation from an independent third party, recognized in advance by the OAG, confirming that measures have been put in place in order to avoid the re-occurrence of such wrongdoings that led to the convictions.
