## **Part 2. Questions and Answers**

The following question(s) have been asked in response to the Request for Proposal and Elections Canada hereby answers as follows:

### **2.1 Question No. 1**

Question:

Could we have some photos of the product prior to receiving the viewing sample?

Answer:

Please refer to the Statement of Work for a picture of the requirement, this is the only picture that is available at this time. A sample may be requested, but bidders must either submit a waybill and schedule a pick-up for a sample or they can pick one up themselves at the Distribution Center by appointment.

### **2.2 Question No. 2**

Question:

I notice that the corners are rounded....is there any measurement of the corner rounding that I could get from you?

Answer:

The rounded corners are approximately 3mm from one end to the other. The corners should be naturally rounded while keeping the specified height and length of the card.
