ANNEX "A"

STATEMENT OF WORK

1- Title

Centralised Printing Services (CPS) – Printing Services for ESDC and Service Canada Envelopes, Applications and Info sheets for the Old Age Security and Canada Pension Plan Program.

2- Objectives

Employment Social Development Canada (ESDC) requires services for the supply of a variety of ESDC and Service Canada envelopes, applications and info sheets as well as shipping services to have the printed products distributed to ESDC offices and other locations across Canada.

The print products resulting from this contract will ensure the delivery of services and benefits to the public.

3- Background Statement

ESDC is the fourth-largest department within the Government of Canada, after the Royal Canadian Mounted Police, the department of National Defence, and the Canada Revenue Agency. In very tangible ways, our employees touch the lives of Canadians across the entire country; our operations span Canada, with over 65 percent of our employees working outside of the National Capital Region.

ESDC ensures that eligible Canadians are provided with retirement, survivor and disability benefits, as well as benefits for children, through the Old Age Security (OAS) program, the Canada Pension Plan (CPP), the Canada Pension Plan Disability (CPPD) and long-term financial security through the Canada Disability Savings Program (CDSP). ESDC also manages various Employment Insurance (EI) streams, services delivered through the Labour Program, and the Canada Education Savings Grant (CESG) program.

ESDC increases participation of Canadians in society by improving individual, family and community well-being, through: the Homelessness Partnering Strategy (HPS); Social Development Partnerships Program (SDPP); New Horizons for Seniors Program (NHSP); and Enabling Accessibility Fund (EAF).

ESDC operates over 600 Service Canada Centers and outreach centers across Canada, offering a single point of access to the public to a wide range of government services and benefits.

Through the Canada Enquiry Centre (CEC), the 1 800 O-Canada service provides Canadians with quick access to all Government of Canada programs and services. Specially trained staffs use an extensive database of information to answer questions, direct callers to services and take orders for publications and documents.

ESDC's many programs require services for printed material such as application forms, branded envelopes and file folders in order to adequately deliver these services and benefits.

ESDC will be placing Invitations to Tender (ITTs) multiple times per year for printing and delivery to ESDC offices across Canada. Invitation to Tender may be for a single item or for multiple items. The quantities and ordering frequency of the items required, at any of the various ESDC offices, is subject to demand and can therefore not be definitively pre-determined.

4- Scope

The Contractor must print and deliver all items in full quantities, according to Appendix A to Annex A - Specifications and Artwork and Annex B – Basis of Payment.

The Contractor must accept and fulfil this printing order and is responsible for quality control of the various print products requested as well as the distribution of these products to various final destinations.

The proofs must be approved by ESDC's CPS team before work can be commenced. The contractor must be available to answer questions regarding the provided proofs, and must respond to ESDC's CPS team, via email, in accordance with the Timeframes and Schedule for Deliverables table.

The specifications and/or artwork that are being provided are only for this requirement and no licence is implied or extended. The successful contractor will be granted a limited license for the purposes of creating an exact reproduction of the required forms.

5.2 Printing

The Contractor must determine the printing methods best suited to meet the demands of supplying the individual items, unless told otherwise for specific items.

The Contractor may use either offset (direct imaging or metal plates) or electronic (including digital presses) printing methods to produce any of the work, provided the criteria for the print quality levels stated in the specifications are met.

The Contractor must only use what is provided in Appendix A – Annex A to produce the printed material for any order by electronic or offset printing methods.

This includes all tracking and reporting requirements up to confirmation of receipt at destination, for all printed materials.

If any orders are wrongly shipped, due to error on the part of the Contractor, the Contractor is responsible for any costs incurred in replacing or re-sending those items with the correct items. Should any orders which have been wrongly shipped need to be returned to the Contractor's facility, the Contractor is responsible for all shipping costs.

The contractor is responsible for ensuring that all deliveries are conducted during regular business hours (between 9:00am and 5:00pm, in the time zone of the delivery address), unless previously approved by email by ESDC's CPS team.

The contractor must ensure that deliveries are made during the specified delivery week, without incurring urgent or express shipping fees (or any other shipping fees charged for faster shipping than regular services). If urgent or express fees are incurred, these fees will be the responsibility of the contractor and will not be paid by ESDC. Shipping receipts must be included with any invoices to ESDC.

5.3.3 Packaging

The contractor must ensure that packaging and labelling is carried out in adherence to the specifications below.

The Contractor is responsible for packaging the documents being distributed. Packaging is to be appropriate for the size of the order and cartons may range up to a maximum of 35 lb. in weight. Small quantities may be distributed in standard size envelopes (the contractor

is responsible for ensuring that the selected packaging protects the print products and that print products are delivered in perfect condition).

Cartons are to be loaded to capacity without fillers. If an order is large enough to permit the order to be shipped on a shipping pallet, the entire order is to be shrink-wrapped on the pallet. The packaging must be appropriate for safe distribution of the required items in the most economical and practical manner. If an order is large enough to be shipped on pallets, the Contractor must confirm with the ordering offices using the delivery address contact information, that the office or the receiving address can accept the pallets before the order is shipped.

The Contractor is responsible for providing all shipping materials such as, though not limited to, envelopes, cartons or pallets.

5.3.4 Labels

The Contractor is responsible for addressing any items being distributed. This includes output and application of any required labels.

All shipping materials such as envelopes, cartons or pallets must include a bilingual label return address as well as the destination address. The return address must be that of the Contractor. The Contractor must prepare the layout for the labels to conform to Canada Post regulations and if the contractor uses a service other than Canada Post, the contractor is responsible for conforming with their label requirements. Labels should contain, but limited to, the product description, quantity enclosed and the delivery address.

The address label must be applied to the box or boxes prior to shipping. When an order has multiple boxes, the boxes must be identified sequentially, e.g. 1/3, 2/3, 3/3. The label information on the boxes must be clearly indicated on the end of the box. Boxes that are placed on skids must be placed so that label information is clearly visible on all 4 sides of the skid.

5.3.5 Packing Slip

All shipping materials such as envelopes, cartons or pallets must include a bilingual packing slip and be placed inside the box and the box must be identified as containing the packing slip. The packing slip must include the product descriptions, quantity per package and number of packages of any documents inside. If a delivery to a specific address has multiple boxes, the packing slip must be included in box No. 1.

7- Constraints

7.1 Sustainable Development / Green Plan

In support of the Government of Canada's Sustainable Development Strategy, ESDC is committed to the purchase of environmentally sound products that are of equal quality or better than the industry average. Green procurement is the procurement of products and services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider the full life cycle of a product, including: raw material acquisition, production, manufacturing, packaging, distribution, operation, maintenance, disposal and re- use of the product or service. Green procurement encompasses the concept of the procurement of goods and services that provide for basic human needs and bring a better quality of life, while minimizing the use of non renewable natural resources and toxic materials and the emission of wastes and pollutants over the life cycle, so as not to jeopardize the ability of future generations to meet their own needs.

The Contractor shall make every possible effort towards supplying print services that are the result of environmentally sound processes, without detracting from the appearance of said items.

The Contractor should make every possible effort towards using papers from manufacturers certified under the Environmental Choice Program, or who are using fibre originating from a sustainably-managed forest certified to a third-party verified forest certification standard such as the Forestry Stewardship Council, Sustainable Forestry Initiative or the Canadian Standards Association Sustainable Forest Management Standard.

8- Client Support / Key Stakeholders

Should the contractor be asked for advice related to the printing process, specification, print quality or artwork, the contractor must provide advice and information to the best of the knowledge of the contractor's most informed employees.

The contractor is required to seek any clarification or additional information regarding specifications, order details or artwork from ESDC's CPS team.

The contractor is required to request any information or clarification regarding delivery and addresses of ESDC's regional offices directly from the delivery address contact person specified in Annex "B", via email. ESDC's CPS team must be included on all communications with delivery address contacts. Should the contractor be unable to reach the specified contact person, the contractor must request the required information directly from ESDC's CPS team.
