### **2.1 Question No. 3**

Question:

Could you also ask about the diameter or the two drilled holes?

If they have any type of drawing showing all the measurements, that would be best.

Answer:

The two holes must be small enough so that the knot on the string does not fit through the hole. The holes are 2mm in diameter. We do not have a blueprint for this requirement but all the measurements are in the Statement of Work and a sample can always be requested.
