

Questions and Answers Document #2

1	Question	With regards to M3, can the Crown confirm that only 3 project summaries are required no matter how many tasks we are bidding on OR is it that 3 project summaries are required for each Task that we will be submitting a team for (meaning that we will be required to submit 9 project summaries if we are proposing a team for all three tasks)?
1	Answer	<p>We need a minimum of 3 project summaries for each proposed team. If proposing more than one team or if proposing different teams for each task, you are still required to submit 3 project summaries for each proposed team. Hence, we confirm that if 3 different teams are proposed, we will need 9 project summaries.</p> <p>That said, and as per the previous “Questions and Answers” document, each project summary only needs to involve at least one proposed team member. Likewise, bidder can use the same project summary for more than one task when the project summary is relevant to more than one task.</p>
2	Question	Can the Crown confirm that we are able to propose the same resource on multiple tasks?
2	Answer	Yes, you can propose the same resource on multiple tasks.
