

Q/A Round 2 – RFP 20-58061 Health and Safety e-Learning course content

English/Anglais:

- Q1: Mandatory Criteria M2 requires choosing at least 10 courseware in English. So does this mean that if we don't currently have 10 English language tutorials on the list, we will automatically be rejected?
- A1: Yes. The NRC being a federally regulated organization, all training must be made available to NRC resources in both official languages (English and French). Even though we accept that some courses be translated later on, we want a minimum of 10 courses to be already available in French and English so that they can be used right away.
- Q2: For the pilot course to be provided in criterion M6, is it possible to simply provide an abridged version of an existing course in order to respect the 15 minute limit?
- A2: Yes.
- Q3: In the "Prices" section, Table 7, for how many tutorials do you want costs provided? Do we have to spread the courses that we have presented in Table 5 over several years?
- A3: Table 7 was amended to show a tentative number of courses to be procured at each year of the contract. Please see revised table below.

	Description (the number of courses for each year is an estimation, for evaluation purposes)	All-inclusive price assuming 5000 to 6000 active users (A)	All-inclusive price assuming 6000 to 7000 active users (B)	All-inclusive price assuming 7000 to 8000 active users (C)
2.	License agreement for the first year of the contract period, including <ul style="list-style-type: none"> i. Courseware files of 10 courses provided in English and French ii. Courseware Authoring tool 			
3.	License agreement for the second year of the contract period, including <ul style="list-style-type: none"> i. Courseware files of 20 courses provided in English and French ii. Courseware Authoring tool 			
5.	License agreement for the Option year 1 of the contract period, including <ul style="list-style-type: none"> i. Courseware files of 30 courses provided in English and French 			

	ii. Courseware Authoring tool			
6.	License agreement for the Option year 2 of the contract period, including i. Courseware files of 40 courses provided in English and French ii. Courseware Authoring tool			
7.	License agreement for the Option year 3 of the contract period, including i. Courseware files of 40 courses provided in English and French ii. Courseware Authoring tool			
8.	License agreement for the Option year 4 of the contract period, including i. Courseware files of 40 courses provided in English and French ii. Courseware Authoring tool			
9.	License agreement for the Option year 5 of the contract period, including i. Courseware files of 40 courses provided in English and French ii. Courseware Authoring tool			
Average for evaluation purposes only: (sum of column A+ Sum of column B + Sum of column C) /3
