Name/Nom _____	Title/Titre _____
Signature _____	Date _____

Amendment #001 is raised to answer bidder's questions and extend the solicitation closing date to 24 November 2020:

Question #1:

NSCM 73015 Fabreeka does not supply Nylatron GS. Who else is a DND approved supplier?

Answer #1:

Nylatron is a standard and available plastic material (like Nylon) and is commercially available from large plastic distributors such as Laird Plastics (L4535 this is Dartmouth but major cities surely have a branch – this company is huge) Fabreeka and Nylatron are two very different materials and not even similar or the same family.

Question #2:

Based on the finished size and shape of the washer (1.5" round) the measurements shown in the BOM (2.25" x 2.25") makes no sense. Why are these dimensions shown?

Answer #2:

Drawing will have to be revised and thank you for pointing this out. Use whatever size is convenient to accommodate the O.D.

Question #3:

Note 7 does not make sense as it relates to a 1.5" round finished part. Why is this note on the drawing?

Answer #3:

See Answer #2
