THE REQUEST FOR PROPOSAL DOCUMENT IS MODIFIED AS MENTIONED BELOW:

1. Request for Proposal, Submission requirements and evaluation, criterion 3.2.8, Sub-Criterion table: Proponents are advised to **DELETE** the Sub-Criterion table and to **REPLACE BY:**

3.2.8 Oral presentation

This project requires increased coordination among a large number of diverse stakeholders, including designers from various disciplines and with various specialties, and several agencies within the federal government, as well as extensive consultations with entities from other communities and organizations. The purpose of the presentation is to assess the proponent's interdisciplinary coordination and stakeholder management skills, as well as the proponent's communication and public presentation skills. The presentation will be given in the same language as that of the proposal submitted.

Beginning, proponent's preparation and introduction of persons present: 5 minutes
Proponent's presentation: 20 minutes
Question and answer: 10 minutes

The evaluation team will end the presentation when 20 minutes have elapsed.

A question will then be asked to the proponent and the proponent's spokesperson(s) will have 10 minutes to answer. The question that will be shared following the 20 minute presentation will be the same for all proponents.

A maximum of two individuals, acting as the proponent's spokespersons, may participate in the presentation. These spokespersons must be members of the project team described in Appendix A.

No visual material can be shared through the Teams app during the presentation to avoid technical issues. In addition, no files can be sent to the evaluation team for the presentation.

For the purposes of this evaluation, "properly addresses" means that the provided answer is complete, logical, feasible, project-specific and consistent with the industry's best practices. Plus, it means the presentation is clear, organized, and delivered on time.
