This Solicitation Amendment No. three (3) is raised to include the following Addendum No. three (3).

The following Addendum to the tender is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Questions and Answers

- Q1. Given the load limitations for the wharf in Malpeque, would the Contractor be permitted to launch equipment via the beach immediately East of the Malpeque wharves. This may include launching of a sectional barge and loading equipment onto it.
- A1. The area east of the harbour is not on DFO-SCH property. Any use of this property would have to be arranged directly with the property owner.
- Q2. Can the owner please provide an estimated D50 grain size and in-situ density for the material to be dredged?
- A2. the Malpeque samples have the following d50 values, MC-SED1 d50 ~0.206 mm, MC-SED2 d50 ~0.200 mm. In-situ density for the material to be dredged is a range of 1700g/l to 2000g/l.
