F7054-202010/A

## QUESTIONS & ANSWERS

**Q1:** With respect to the tender request F7054-202010/A could you please reply to the following clarification.

Page 9. Statement of work

Camera & Video Payload

“IR camera must be made available with minimum 640x480 pixels”

Can you confirm if this term would be in reference to sensor resolution or image size

**A1:** *The 640X480 is in reference to the minimum sensor grid which is acceptable.*

**Q2:** Also there are multiple field of views and focal lengths for ir cameras meeting either of the above criteria

Can you confirm FOV and F/L required/preferred

**A2:** *We are requesting the bidders propose cameras/lenses with fields of view and focal lengths appropriate for the types of missions referenced in the SOW.*

**Q3:** In the description it says that the requirement is for an RPAS weighing <1.5kg but in the requirements section of Appendix A it says <= 2kg with payload, props and battery. Which is the limit will all payloads attached (is this intended to also include the light?)

**A3:** *<=2Kg including the spotlight*
